RESOLUTION.

POSTS AND TELEGRAPHS.

New Delhi, the 16th January 1939.

No. F.-95/38/L. I.—In view of the results disclosed by the actuarial valuation of the assets and liabilities of the Post Office Insurance Fund as at 31st March 1932, the Government of India announced in the Resolution in Industries and Labour Department No. I. M.-90/34/L. I., dated the 15th May 1934, the grant of a bonus to the policy holders. A further valuation of the Fund as at 31st March 1937 has again shown a substantial surplus of which a considerable portion can be distributed without affecting the financial stability of the Fund. The Governor-General in Council is accordingly pleased to grant to the holders of policies in force on the 31st March 1937 a simple reversionary bonus as an addition to and payable with the sum assured at the rate of one per thousand thereon, both in the case of Whole Life Assurances secured by premia payable throughout life or for a limited period or for which no further premia are payable, and in the case of Endowment Assurances for each full month during which the respective policies were in force between 1st April 1932 and the 31st March 1937. In the case of transferred or reduced policies, bonus will be allotted to the respective policies as they existed on the 31st March 1937. Until further orders, in addition to the above-mentioned bonus, an interim bonus at three-fourths of the above rate will be allowed in the case of Whole Life and Endowment Assurance policies which become claims by death or survival after the 1st April 1937 for each full month they are in force during that period. The interim bonus will be based on the amount of the sum assured on the date of death or survival. The policies surrendered or that may be surrendered between the 1st April 1937 and 31st March 1942 will receive a bonus equal to the cash surrender value of the interim rate of bonus mentioned above for such portion of the period as the policies were in force. No fraction of a rupee will be payable as bonus.

ORDERED that this resolution be communicated to all Local Governments and Administrations, to the several departments of the Government of India, to all heads of departments subordinate to this department and to the Accountant-General, Posts and Telegraphs.

ORDERED also that the resolution be published in the *Gazette of India.*

BENGAL LEGISLATIVE ASSEMBLY DEPARTMENT.

NOTIFICATION.

No. 1461L.A. — 6th April 1939.—The following Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1939, dealing with electorates, with the Bill embodying amendments recommended by the Committee, is hereby published for general information.

Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1939, dealing with electorates.

We, the members of the Select Committee to which the Calcutta Municipal (Amendment) Bill, 1939, was referred by a motion carried in the Bengal Legislative Assembly on the 6th March, 1939, have the honour to submit this our final report with the Bill embodying amendments recommended by us annexed. Matters recommended by us to be omitted have been printed in italics and enclosed in square brackets and new matters recommended to be inserted have been underlined.

2. The Bill was published before introduction in an extraordinary issue of the *Calcutta Gazette*, dated the 30th January, 1939.

3. The Committee met for the first time on the 15th March, 1939, and continued their sittings till the 24th March, 1939. But as the deliberations on the Bill could not be concluded, within the time appointed by the Assembly in this behalf, the Committee asked for an extension of time by submitting an interim report which was presented to the House on the 25th March, 1939, and on this requisition the Assembly extended the time for submission of the final report till the 30th March, 1939.

The Committee thereafter met on the 27th March, and concluded their deliberations that day.

4. The Bill has not in our opinion been altered by our recommendation to the extent of requiring republication.

5. The changes made in the Bill are as follows:—

Clause 5.—Sub-clauses (*a*) (*ii*) and (*a*) (*iii*) have been deleted as we consider that these provisions may lead to postponement of election and thereby deprive electors of their right to have a fresh election after a definite interval.

In sub-clause (*b*) the amendment to the proviso to proposed sub-section (*4*) of section 20 is consequential on the alterations made in the previous sub-clause.

Clause 8.—The alterations in clauses (*a*) and (*b*) of sub-clause 28 are intended to improve the drafting and make it unambiguous.

Clause 9.—The last few words have been deleted from clause 9 as we do not consider it desirable to give such wide powers to provincial Government.

The rest of the Bill is left unaltered.

NOTE.—Signature of Mr. Birat Chandra Mondal had not been received up to the time of printing the report.

Minute of dissent by Maharajkumar Uday Chand Mahtab.

I do not agree that there should be separate electorates for different religious communities and I am opposed to the provisions in the Bill establishing such electorates.

Regarding increasing the numerical proportion of the Moslem community, the question was decided after careful consideration when Garden Reach was separated from Calcutta in 1936. No circumstance has arisen why a change should be intended to be brought about so soon. If three more members are to be added to the Moslem personnel of the Corporation, there should be a proportionate addition to the number of representatives from the general electorate. This is specially necessary as the scheduled castes population is scattered in very small groups throughout the several wards of Calcutta. As some seats in predominantly caste Hindu localities have been given to the scheduled castes, the representation of caste Hindus will suffer seriously. This discrepancy should be remedied by addition to the general seats.

Minute of dissent by Mrs. Hasina Murshed.

I sign the report of the Select Committee subject to the following comments:—

I am strongly of opinion that there should be adequate representation of female Councillors in the Corporation of Calcutta. There are two ways of securing this objective. The first is by reserving separate seats for women in the various constituencies and the other method, and a simpler one, is by reserving seats for women among the nominated Councillors. At the meeting of the Select Committee I pressed for an amendment of clause 3 of the proposed Bill by requiring Government to appoint women Councillors out of the ten Councillors which they would appoint under clause 3(*2*)(*b*) of the Bill. I adhere to the view that it is essential that women should be represented in the Corporation of Calcutta. I suggest therefore very strongly that provision should be made for at least three women Councillors, one being a Muslim woman and the other two being Hindu and Anglo-Indian; this could be easily done by amending clause 3 of the proposed Bill.

The Schedule of Constituencies also requires amendment. My personal view is that inadequate representation has been given to the Muhammadan Constituencies in Ward 8, Wards 15, 16 and 17, Ward 21 and Wards 22, 23 and 27. On the basis of population and on the basis of voting strength in these constituencies, there is room for increasing the number of Councillors. For instance, in Colootola area (Ward No. 8) (Schedule IIIB) two seats have been proposed to be allotted to the Muhammadans. This might justifiably have been increased to three. Similarly, Ward No. 21, Ballygunge, might justifiably have claimed two seats instead of the one proposed to be allotted. In the Ekbalpur, Alipur, Tollygunge area, the number of Muslim seats should have been increased.

Minute of dissent by Mr. Hem Chandra Nasker.

I am of opinion that no case has been made out for reverting to the system of separate electorates for the election of Muslim Councillors.

The system of election by reservation of seats has worked very well, and Muslim Councillors returned by that method have in friendly co-operation, succeeded in securing many beneficent measures for the good of the Moslem community.

Regarding the representation of members of scheduled castes, the general constituencies have not withheld their support to scheduled caste candidates merely on the ground of caste. On the other hand, in some cases they have repeatedly returned them at the head of the polls.

I am, however, of opinion that for securing the return of an adequate number of scheduled caste members to the Corporation, it is necessary to provide for reservation of seats. The number of seats reserved for the scheduled castes has been much less compared to the seats given to the Moslems and the other minorities of Calcutta. As the general community has been most unfairly and arbitrarily treated in the Bill in spite of their population and contribution to the Corporation fund, the scheduled castes also have been made to share their lot. I think the number of seats proposed for the scheduled castes should be substantially increased by increasing the number of seats allotted to the general constituencies to sixty-two, out of which at least ten seats should be reserved for the members of the scheduled castes.

I agree that the number of nominated seats should be reduced to three, one of which should be reserved for the Chairman of the Calcutta Improvement Trust.

As regards Moslem seats, I have got nothing to add here but I suggest that in Wards Nos. 28 and 29 two Moslem seats should be separately allocated—1 in each of the two wards, instead of making provision of election of two members jointly in those two wards.

Joint minute of dissent by Mr. Santosh Kumar Basu, Mr. Jogesh Chandra Gupta, Mr. Barada Prasanna Pain and Mr. A. M. A. Zaman to the Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1939.

1. With regard to the preamble of the Bill, we are definitely of opinion that it is not at all expedient to amend the Calcutta Municipal Act in the manner provided in the Bill. The Bill provides for the election of Moslem Councillors not by reservation of seats in the general electorate but by separate electorates for Muhammadan voters. The system of election by joint electorates came into operation in April, 1938, and some leading members of the Moslem community were returned to the Corporation by that method. A fair and proper trial was not given to the system, as in consequence of an agitation on the eve of the introduction of the Government of India Act, a section of the Moslem community did not participate in the general elections in March, 1936. Even so, a number of measures for the special benefit of the Moslem community have been adopted by the Corporation under this system.

2. The system of separate communal electorates is altogether out of place in local bodies where matters of parochial importance, equally affecting all communities irrespective of race and religion, are to be dealt with in an atmosphere of amity and concord. The introduction of communal and religious differences in such purely domestic matters will not be conducive to smooth and harmonious working, but will be an endless source of antagonism in the day-to-day administration of civic affairs. Besides, if Moslem ratepayers are not allowed to participate in the election of non-Moslem Councillors and to claim their support, there may be a risk of their interests not being sufficiently safeguarded in the Corporation. Although smaller and separated electorates may be more convenient and advantageous to prospective candidates, they will be definitely detrimental to the interests of the electors themselves.

3. If, however, the system of primary election envisaged in the Government of India Act is adopted for the election of a panel of two or three Moslem candidates out of whom the final election is to be made by the joint electorate, the principle of separate electorate will be kept intact and the Moslem electors will not be isolated in the elections from the rest of the community. In a place like Calcutta and in comparatively small constituencies, the question of trouble and expense will not be a handicap.

4. The plea that civic interests are subordinated to political considerations in the Corporation of Calcutta cannot hold good, inasmuch as political matters are rarely raised compared to the vast volume of civic work that is done in the Corporation and its Committee meetings. And even on such occasions, Moslem members have adopted their own line of action.

5. The case of a separate electorate for the Anglo-Indian community is weaker still. They represent 1·4 per cent. of the total population of Calcutta and no reason has been shown why they should be separated from the general community.

6. The provision for reservation of seats for members of the scheduled castes will also result in the creation of differences where there are none. We are not aware of any such demand having been made by any reasonable section among the scheduled castes of Calcutta. We requested the Hon'ble Minister-in-charge of the Bill to place before the Committee any representations that Government might have received and were told in reply that he was not prepared to do so.

7. It may be mentioned in this connection that under the Government of India Act, 1935, analogy of which has been invoked for reservation of seats for the scheduled castes, no such provision has been made for scheduled castes in the urban constituencies. We fail to see why a departure should be made from that principle and that in the constitution of the Corporation of Calcutta.

8. We desire to make it clear that we would welcome the candidature and election of scheduled caste candidates in adequate numbers through the general electorate. And such candidates have as a matter of fact been returned at the head of the polls. But we cannot overlook the fact that the idea of separate representation even through reservation of seats implies a conflict of interests among different sections of the Hindu community in Calcutta the existence of which we altogether deny. Our endeavour should be to bring the communities and sections of communities closer to each other and not to devise fresh means and methods for fostering divisions.

9. **Clause 3.**—We suggest that this clause should be deleted. The system of nomination has been abolished in Provincial Assemblies by the Government of India Act, 1935. We maintain that it has no longer any place in a democratic body like the Corporation of Calcutta. Besides, with the provision for representation by election of scheduled castes, Anglo-Indians and the interests of labour, the express purpose for which the power of nomination was retained for Government in the existing Act has altogether disappeared. The search for microscopic minorities in order to justify the retention of the power of nomination is neither practicable nor reasonable.

10. If, however, it is contended that the nomination of technical experts may be of advantage to the Corporation, we would suggest that the number of nominated seats should be reduced from ten to three, the power of nomination to be exercised only if considered necessary. The Chairman of the Calcutta Improvement Trust may be a member *ex-officio*.

11. **Clause 4.**—We suggest that in place of the word "for" the word "after" be substituted, so that seats may be reserved in the general constituency for election of Moslem Councillors as well as for scheduled caste Councillors.

12. **Clauses 6, 7 and 8.**—If our suggestion in connection with clause 4 regarding reservation of seats is accepted, then consequential changes are to be made in these clauses.

13. **Clauses 9 and 10.**—We have no comments to make.

14. **Clause 11.**—This clause contains the lists of the different constituencies proposed to be created under the Bill.

15. List A relates to the General Constituencies. The number of seats allotted to these constituencies is forty-six which is the number under the present Act. The Bill proposes to reserve seven seats out of these forty-six for members of the scheduled castes and to distribute them in seven different wards.

16. List B relates to Muhammadan constituencies to which twenty-two seats are proposed to be allotted.

17. List C relates to the Anglo-Indian constituency for which two seats are proposed.

18. List D sets out the (non-territorial) special constituencies, namely, Bengal Chamber of Commerce, Calcutta Trades Association and Calcutta Port Commissioners, who each retain their present number of seats, namely, six, four and two, respectively.

19. List E allots two seats to the (non-territorial) Labour constituency.

20. So far as the territorial constituencies mentioned in Lists A, B and C are concerned, we do not find any rational basis for the proposed allotment of seats to them.

21. In this connection it may be recalled that when the Calcutta Municipal Act was passed in 1923, only fifteen seats were allotted to the Muhammadan special constituencies and forty-eight to non-Muhammadans. On the eve of the introduction of the general electorate with reservation of seats for Muhammadan candidates, the number of Moslem reserved seats was raised to twenty-one by the amending Bill of 1932. With the separation of Garden Reach in 1936, two Muhammadan and two non-Muhammadan seats were reduced, whereby the number of Moslem reserved seats became nineteen and that of non-Muhammadan seats forty-six which are the present respective numbers. In the amending Bill, Moslem seats are being increased from nineteen to twenty-two, while non-Muhammadan seats have remained the same, ever since the year 1923.

22. From the figures supplied to us by the Government in the Select Committee, it appears that Moslems form 25 per cent., and the remaining non-Muhammadan population is 73·6 per cent. of the total population.

23. It will be noticed that the total number of territorial seats proposed in the Bill is seventy, out of which twenty-two is proposed to be given to Muhammadan constituencies although on the population basis they are not entitled to more than eighteen seats.

24. On the other hand, non-Muhammadan general constituencies (other than Anglo-Indian) are given forty-six seats, although on the population basis they are entitled to at least fifty-one.

25. If, however, the total number of elected seats including the non-territorial Commerce and Labour seats (and excluding the nominated seats) is taken into account as the basis of calculation as has been suggested by the Government, out of eighty-four seats Muhammadan constituencies are entitled on the population basis to twenty-one, whereas in the Bill they are given twenty-two, i.e., one seat more.

26. The non-Muhammadan general constituencies on the population basis (excluding Anglo-Indian) are entitled out of a total of eighty-four seats to sixty-two seats, whereas they have been given forty-six only, i.e., sixteen seats less.

27. These allotments of seats appear to us to be contrary to all considerations of justice and fairplay. It was admitted by the sponsor of the Bill that non-Muhammadan constituencies (excluding Anglo-Indian) were undoubtedly entitled, on a population basis, to sixty-two out of eighty-four seats, but sixteen seats had been deducted from their share and allotted to Moslems, European trade and commerce, the Port Trust and labour. We cannot discover the slightest justification for such a frankly arbitrary provision, which is calculated to reduce, by a sheer process of communal high-handedness an overwhelming majority of the population of Calcuttta to the position of a helpless minority, among groups of communal representatives whose avowedly hostile interests are the sole justification for their separate existence.

28. It has been suggested that the Muhammadan population in Calcutta has been given a weightage of four seats on the basis of a total of seventy seats or of one seat on a total of eighty-four. Contrast this with the reduction of five non-Muhammadan seats on the basis of a total of seventy and of sixteen seats on a total of eighty-four.

29. On the question of weightage it is also necessary to remember that Muhammadans pay only 5 per cent. of the total amount of taxes as against 12·4 per cent. paid by the Europeans, Anglo-Indians, Jews, etc., and 82·5 per cent. paid by the rest of the population, namely, Hindus.

30. Turning now to the number of voters, while the non-Muhammadan voters at the last general election in 1936 numbered 69,424, the number of Moslem voters was 8,389, which has not shown any increase since the year 1927, and if anything, has shown a slight progressive decline.

31. We have not the slightest objection to twenty-two seats being allotted to the Moslem population of Calcutta, if they are reserved in a general electorate so as not to hamper the growth of the idea of a common citizenship based on a realisation of unity of interests.

32. Taking our stand on the basis of percentage of population which has been accepted in the Bill in fixing the number of Muhammadan seats, we claim the full quota of sixty-two seats which is admittedly the due share of the general constituencies. We, therefore, propose that in each of those constituencies mentioned in Schedule III-A, General constituencies, in which a seat has been reserved for members of the scheduled castes, the number of Councillors to be elected, as shown in column three, should be increased by one. The remaining nine additional seats should be distributed among constituencies in which there has been a marked increase in the number of premises and in population as for instance Ward No. 27.

33. If this proposal is accepted, it will mean an increase of the total number of elected seats from 84 to 100, and the total strength of the Corporation to 115 unless by a reduction in the number of nominated seats to 3, the total number is kept down to 108, which will be four less than that in the Corporation of Bombay.

Further note appended by Mr. A. M. A. Zaman.

I sign this note of dissent subject to the resolution that I do not agree with the observations relating to weightage to the Muslim population in Calcutta. I hold that Moslems are entitled to the weightage allowed in the Bill.

Amendment of Schedule VII.

12. In Schedule VII to the said Act in column 1 for serial number "22A" the serial number "23" shall be substituted and serial numbers "23, 24 and 25" in the said column shall be renumbered as serial numbers "24, 25 and 26" respectively.

STATEMENT OF OBJECTS AND REASONS.

At the fourth general election held under the Calcutta Municipal Act, 1923, the provisions of the Third Schedule to the Act came into operation, whereby, in the territorial constituencies of the Calcutta Corporation, for the previously existing separate electorates for Muslims there was substituted the present system of joint electorates with reservation of seats for Muslims. Since this change was effected Muslim public opinion has emphatically expressed the view that Muslim Councillors returned by joint electorates have very largely represented the wishes of the majority community and have not been truly representative of Muslim interests. On the analogy of the electoral provisions of the Government of India Act, 1935, it is felt that separate electorates for Muslims should be restored in constituencies of the Calcutta Corporation, and there has been, both within and without the Legislature, an insistent demand for such a restoration. The Bill contains provisions to meet this demand.

In order to safeguard the interests of other important minority communities provision has also been made in the Bill for the reservation, in the general territorial constituencies, of seats for the scheduled castes in proportion to their population strength, and for representation of the Anglo-Indian Community by the election of Councillors through a separate Anglo-Indian electorate.

It is further considered that the claim of labour for adequate representation on the Corporation can no longer be ignored, and on the analogy of the Government of India Act, 1935, provision has accordingly been made in the Bill for the constitution of a separate labour electorate, which will return elected representatives to the Corporation.

The opportunity has been taken to include certain other desirable or consequential amendments of the Act.

NOTIFICATION.

No. 1462L.A.—6th April 1939. — With reference to the footnote at the end of the Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1939, dealing with electorates, published with notification No. 1461L.A., dated the 6th April 1939, in Part IVA of the *Calcutta Gazette* of the 13th April 1939, it is hereby notified for general information that Mr. Birat Chandra Mandal, Member, Bengal Legislative Assembly, has subsequently signed the said Report subject to the following minute of dissent:—

Minute of dissent by Mr. Birat Chandra Mandal, M.L.A., to the Report of the Select Committee on the Calcutta Municipal (Amendment) Bill, 1939, dealing with electorates.

I strongly support separate electorate for Scheduled Castes in the Calcutta Corporation, and I am also of opinion that the number of seats for the Scheduled Castes should be increased from seven to twelve according to their population.

* * * * *

In clause 3 (2) (b) (ii) of the Bill there has been provision for representation of minorities including Backward Classes. But there is no definition as to what castes are to be called Backward Classes. The Backward Classes have been merged into Scheduled Castes under the Government of India Act, and therefore there should not be any separate representation for them apart from the Scheduled Castes. Therefore the provision in the Bill for Backward Classes is against the provision of the Government of India Act and *ultra vires*.

In Schedule III of the Bill seven seats are reserved for the Scheduled Castes. The number should be increased to twelve. Further, the wards of Ballygunge, Bhawanipore, Kalighat, Alipur and Tollygunge, where Scheduled Castes' population is very thick, have not been given any seat for the Scheduled Castes. This is quite unjust and inequitable. In my opinion five more seats should be allotted to those wards for the Scheduled Castes.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 5th April 1939.

Summary.—Excepting light and scattered showers in places the weather was dry and hot. Rain is badly needed for field operations for jute and paddy and for the benefit of the standing crops. Prospect of standing crops not very favourable for want of rain. In Murshidabad 3,032 labourers attended test relief centres on Saturday, the 1st April 1939. In Bogra 4,455 persons attended test relief work on the last day of the week ending the 31st March 1939; the test relief work has since been stopped. 1,052 persons attended test relief centres for the week ending the 1st April 1939 in Pabna. About 1,587 persons were given gratuitous relief in Gopalganj and 2,758 persons attended test relief centres during the week. Test relief works have been taken up in Bakarganj but the number of persons resorted to the work is not available now. The average price of common rice for the province has risen by about 0·92 per cent. as compared with that of the previous week.

No. 13-I.—6th April 1939.—It is hereby notified for general information that in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor intends to make the following rules and fix the following rates of tolls for the line of navigation known as the Surjamani khal in the district of Bakarganj and as defined in the notification No. 10-I., dated the 6th April 1939.

2. Any objection or suggestion with respect thereto should reach the undersigned before the 29th May 1939:—

Rules and rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the district board of Bakarganj on this behalf.

2. Vessels for the purpose of determination of maundage shall be divided into two classes as below:—

Class I—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, and other similar types of boats.

Class II—To include steam boats, motor boats, flats, and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of the Canals Act and of these rules, be determined by the following measurements:—

Class I.

A. The product of one quarter of the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Saltees.*—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills the gross maundage of cargo shown by the way bills, or in the case of steamers the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which shall be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the serang, manjhee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket shall be kept on board the vessel and in possession of the person in charge of the vessel and shall be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of the Crown, of the district board or other local bodies, or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the district board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length or 5 feet in breadth shall be permitted to enter the canal.

12. The rates of toll shall be as follows:—

(1) On all vessels, empty or laden, per hundred maunds—Eight annas.

(2) On all vessels, empty or laden, for 12½ maunds or less—One anna.

(3) On rafts of bamboos, grass, timber or other similar articles not exceeding 50 feet in length and 5 feet in breadth—Four annas each raft.

Tolls shall be levied at Dwipasa and Bauphal.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at ten times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month, *i.e.*, provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers or officers of the Army in India, post mail runners, officers of the Department of Communications and Works (Irrigation) on duty, or officers or servants of the toll office for the canal referred to in these rules while on duty, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the district board of Bakarganj at a meeting and such decision shall be subject to the approval of the Provincial Government.

No. 11-I.—6th April 1939.—In exercise of the power conferred by section 3 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor is pleased to authorise the district board of Bakarganj to clear and deepen the Surjamani khal as specified in notification No. 10-I., dated 6th April 1939, and to do all acts necessary for the improvement of the said channel.

No. 9065Com.

Calcutta, the 6th August 1938.

NOTIFICATION.

Whereas a trade dispute has arisen between Messrs. Burn & Co. of 12, Mission Row, Calcutta, Managing Agents of the Indian Iron and Steel Co., Ltd., and the workmen of the said Company employed at their works at Kulti and Burnpur, and whereas it is expedient that the said dispute should be referred under section 3 (*b*) of the Indian Trade Disputes Act, 1929, as amended, to a Board of Conciliation, the Governor is pleased, under section 6 of the said Act, to appoint the gentlemen named below to constitute such a Board for investigating the said dispute and promoting a settlement thereof:—

(1) Mr. T. H. Ellis, I.C.S., Chairman.

(2) Mr. K. C. Mahindra (representative of employers), Member.

(3) Mr. M. Homi, B.A., LL.B. (representative of workmen), Member.

A. HUGHES,

Joint Secretary to the Government of Bengal.

The events leading to the appointment of the Board may be briefly summarised.

The Indian Iron and Steel Company, incorporated in 1918, now carries on its business in two places, at Hirapur (Burnpur) near Asansol and at Kulti, some seven miles away from Hirapur. The Kulti works were formerly owned by the Bengal Iron Company, Ltd., but ultimately fell to the ownership of the Indian Iron and Steel Company in 1936. Since January 1937 the management of both works

has been in the hands of Messrs. Burn and Co. The Kulti works employ 9,500 industrial workmen with 600 on the establishment, i.e., supervisory, operational and clerical staff, and 210 Watch and Ward. Hirapur has a normal complement of 2,200 workmen, 370 establishment staff and 180 Watch and Ward. At present it is finding employment for 4,000 workmen.

Prior to 1937 there had been no strike at either works. On the 19th June 1937 there was a lightning strike at Kulti. The strike lasted for eight days. Mr. K. C. Mahindra went to Kulti on behalf of the Management. Mr. Homi, President of the Labour Federation, Jamshedpur, represented the workmen. An agreement was reached and terms of settlement were signed on the 26th June 1937 by Mr. T. Leslie Martin, Chairman of the Company, and Mr. Homi. The terms are to be found at pages 83-85 of the appendix.

On the 16th July 1937 the labour at Hirapur also went out on a lightning strike. The strike lasted for 3 days. Mr. Homi again represented the workmen, and terms of settlement were signed on the 7th August 1937 by Mr. Martin, Chairman of the Board of Directors, Mr. Peeling, the Works Superintendent, and Mr. Homi. These terms are to be found at pages 85-91 of the appendix.

In the latter part of 1937 the Labour Federation, Jamshedpur, established branches at Kulti and Hirapur. The Federation was recognised by the Company and correspondence was exchanged on subjects touching the labour employed at both places.

On the 23rd May 1938 the labour at Hirapur held a mass meeting and passed a resolution condemning the Works Superintendent for trying to ignore the terms of settlement of August 1937. The resolution demanded the fulfilment of certain claims immediately, failing which it gave 10 days' notice of a complete shut down. One copy of the resolution was sent to Mr. Martin, another to Mr. Homi on the 25th May 1938.

On the 29th May 1938 the Kulti labour held a general meeting and threatened a strike on the 5th June unless its demands were conceded.

Negotiations having failed, the strike began at both places on the 5th June 1938.

Attempts were made in June to compose the matters in dispute but without success.

On the 16th July 1938 negotiations were re-opened in Calcutta at the instance of the Government of Bengal. On the 17th July 1938 the terms of resumption of work were agreed upon and signed. The first of the terms was that the Government of Bengal would constitute a Board of Conciliation to go into the various points in dispute between the parties.

Work was resumed both at Kulti and Hirapur on the morning of the 21st July 1938.

The Board of Conciliation assembled at Writers' Buildings, Calcutta, at 11 a.m., on the 10th August 1938. At this, its first sitting, the Chairman formally called on the parties to the dispute to file statements of their respective cases before the Board at Asansol on Tuesday, the 16th August at 11 a.m.

On Tuesday, the 16th August, the Board commenced its public sittings in the office of the Mines Board of Health, Asansol. The Labour Federation, Jamshedpur (Hirapur and Kulti Branches), was represented by Mr. A. K. Bose, Advocate, assisted by Mr. A. R. De of Hirapur and Maulvi Ahmadulla of Kulti, while the Company entrusted its case to Mr. H. D. Kitching, Solicitor, who was assisted by Mr. H. V. Peeling, Works Superintendent of Hirapur, and Mr. B. Thornton, Works Superintendent of Kulti.

Mr. Bose filed a statement of the Federation's case which will be found at pages 99-100 of the appendix to this report. At pages 100-117 of the appendix will be found the Company's statement and the annexure thereto.

On the 16th, 17th, 18th and 19th of August Mr. Bose presented in detail the Federation's case to the Board. Without prejudice to the Company's objection that the Federation had no authority to speak for the establishment, Mr. Bose was also allowed to present the grievances of the establishment as recited on page 92 of the appendix.

Mr. Kitching began his statement of the Company's case on August 20th.

Mr. Homi's engagements in Jamshedpur necessitated an adjournment from the 20th to the 29th August. On the 29th, 30th and 31st August the Company's case was elaborated.

On these submissions, and with regard to the order of importance in which Mr. Bose arranged the Federation's claims, the Board then framed the following issues:—

ISSUES.

Hirapur.

1. *General Increment.* - (A). Should a general increment of 25 per cent. over the present scale of wages be sanctioned? Has the demand for such an increment as put forward in 1937 been met by the Company's scheme for extra wages and participation in profits?

Alternatively

(B). Was there any general wage-cut or scaling down of wages in 1930-32? If so, have the cuts been restored? If not, should they be restored now?

2. *Grade scale.*—Is the Company's scheme to be submitted to the Federation for its approval before being put into operation? Or, is the scheme to be brought into operation reserving the right of the Federation to make representations to the Management on its working?

3. *Provident fund.*—Is the Company's provident bonus scheme to be replaced by a provident fund following the principles agreed to in 1937? Is the institution of such a scheme to be conditional on the declaration of their desire by the workmen on a vote?

4. *Sickness benefit.*—Has the Company carried out its agreement of 1937 in regard to sickness benefits? Was that agreement subject to the rules already in existence? If the rules conflict with the agreed principle, should the principle or the rules prevail?

Mr. Homi again represented the workmen, and terms of settlement were signed on the 7th August 1937 by Mr. Martin, Chairman of the Board of Directors, Mr. Peeling, the Works Superintendent, and Mr. Homi. These terms are to be found at pages 85-91 of the appendix.

In the latter part of 1937 the Labour Federation, Jamshedpur, established branches at Kulti and Hirapur. The Federation was recognised by the Company and correspondence was exchanged on subjects touching the labour employed at both places.

On the 23rd May 1938 the labour at Hirapur held a mass meeting and passed a resolution condemning the Works Superintendent for trying to ignore the terms of settlement of August 1937. The resolution demanded the fulfilment of certain claims immediately, failing which it gave 10 days' notice of a complete shut down. One copy of the resolution was sent to Mr. Martin, another to Mr. Homi on the 25th May 1938.

On the 29th May 1938 the Kulti labour held a general meeting and threatened a strike on the 5th June unless its demands were conceded.

Negotiations having failed, the strike began at both places on the 5th June 1938.

Attempts were made in June to compose the matters in dispute but without success.

On the 16th July 1938 negotiations were re-opened in Calcutta at the instance of the Government of Bengal. On the 17th July 1938 the terms of resumption of work were agreed upon and signed. The first of the terms was that the Government of Bengal would constitute a Board of Conciliation to go into the various points in dispute between the parties.

Work was resumed both at Kulti and Hirapur on the morning of the 21st July 1938.

The Board of Conciliation assembled at Writers' Buildings, Calcutta, at 11 a.m., on the 10th August 1938. At this, its first sitting, the Chairman formally called on the parties to the dispute to file statements of their respective cases before the Board at Asansol on Tuesday, the 16th August at 11 a.m.

On Tuesday, the 16th August, the Board commenced its public sittings in the office of the Mines Board of Health, Asansol. The Labour Federation, Jamshedpur (Hirapur and Kulti Branches), was represented by Mr. A. K. Bose, Advocate, assisted by Mr. A. R. De of Hirapur and Maulvi Ahmadulla of Kulti, while the Company entrusted its case to Mr. H. D. Kitching, Solicitor, who was assisted by Mr. H. V. Peeling, Works Superintendent of Hirapur, and Mr. B. Thornton, Works Superintendent of Kulti.

Mr. Bose filed a statement of the Federation's case which will be found at pages 99-100 of the appendix to this report. At pages 100-117 of the appendix will be found the Company's statement and the annexure thereto.

On the 16th, 17th, 18th and 19th of August Mr. Bose presented in detail the Federation's case to the Board. Without prejudice to the Company's objection that the Federation had no authority to speak for the establishment, Mr. Bose was also allowed to present the grievances of the establishment as recited on page 92 of the appendix.

Mr. Kitching began his statement of the Company's case on August 20th.

Mr. Homi's engagements in Jamshedpur necessitated an adjournment from the 20th to the 29th August. On the 29th, 30th and 31st August the Company's case was elaborated.

On these submissions, and with regard to the order of importance in which Mr. Bose arranged the Federation's claims, the Board then framed the following issues:—

Some witnesses were examined on the 2nd September. The 3rd September was devoted to an examination by the Federation of the Company's registers in an attempt to discover evidence determining the first of the Hirapur issues. Further evidence was recorded on September 5th and 6th. Mr. Bose and Mr. Kitching summed up their respective cases and the public sittings of the Board at Asansol ended on the 7th September.

There had been a complaint by the Federation that the labour quarters at Hirapur were flooded out in the monsoon, so on Sunday, September 4th, the Chairman inspected the lines immediately after a torrential downpour. He found the four blocks of quarters nearest the main drain flooded. The problem is really one of drainage. The drain is constructed to deal with a rainfall of one inch per hour, but on that day 1·52 inches of rain fell in just under an hour.

The Chairman also inspected the labour lines at night on the 6th September in order to investigate the complaint regarding absence of illumination. This complaint proved to be well founded for the lines were in total darkness. The Company is sensible of the necessity for providing adequate illumination, and is even now considering a scheme of comprehensive lighting. It has given an assurance that, if permanent arrangements cannot be made within a reasonable time, it is ready to provide some temporary scheme of lighting by Petromax or other high powered illuminants.

On September 8th the Chairman was shown the plant at Hirapur and Kulti by the two Superintendents. He also inspected the labour accommodation at Kulti in Simuldhowrah, Kendua, Khilandhowrah and Nichedhowrah.

The Board began its private sittings in Calcutta on September 11th. An adjournment was then necessary till September 23rd to enable Mr. Homi to fulfil engagements which required his presence at

Jamshedpur. On September 23rd, 24th and 25th, the Board discussed the different issues, deliberated its findings, and considered the draft report. Other engagements occupied both Mr. Mahindra and Mr. Homi till October 12th, when the Board met again. Mr. Homi submitted the first part of his minute of dissent on the 12th October, and the second part on October 24th. Mr. Mahindra submitted his minute on October 17th. The Board concluded its task on the 25th October.

The finding and recommendation of the Board on each of the issues framed, in the order of importance assigned thereto by the Federation, follows below:—

HIRAPUR.

Issue No. 1—General Increment.

A. Should a general increment of 25 per cent. over the present scale of wages be sanctioned?

Has the demand for such an increment as put forward in 1937 been met by the Company's scheme for extra wages and participation in profits?

Alternatively

B. Was there any general wage cut or scaling down of wages in 1930-32?

If so, have the cuts been restored?

If not, should they be restored now?

In placing the case for the Federation before the Board, Mr. Bose spoke to the second, and not the first alternative, and gave no reasons in support of the demand for a general increment of 25 per cent., or any lesser figure over the present scale of wages. In his final argument he justified the demand on the ground that every labourer looked naturally for an increase in his wages, and might reasonably expect one at intervals.

For the Company it was urged that the demand as put forward in 1937 had been met by the Company's extra wages scheme. It was pointed out that the demand finds a place in the Hirapur settlement terms of the 7th August 1937, where it was disposed of in the following terms:—"Will be considered again when the details of the proposed Bonus scheme are known" (*vide* appendix, page eighty-five). In October 1937 the workmen were granted a bonus of two weeks' pay on the declaration of an *ad interim* dividend of 15 per cent., by the Company. As the money was accepted, and as the demand was not renewed the Company believed that the demand had been satisfied, although the Federation, as a Federation, had not declared its acceptance of the scheme.

The Company further points out that, though the demand was made in the strike notice of the 25th May 1938 (appendix page ninety-three), it found no mention in the letter No. 623/38-A. of the 23rd June 1938 (appendix page 113) from the Federation to the Company, although the letter purports to recapitulate the position for the purposes of a clearer understanding of labour's view point and for record.

As against this argument, the Federation claims that it has never accepted the extra wages scheme which Mr. Bose described as an "airy nothing" and "mere eyewash" in lieu of the demand for a 25 per cent. general increment, and that although the bonus payments had been accepted in October 1937, that acceptance was without prejudice to the claim for a general increment. It is further argued that in the Federation's letter of the 23rd June 1938, though there is no specific mention of the demand for a general increment, it might well come in under the phrase "in respect of other materials" (appendix page 116) in the penultimate paragraph of the letter.

There is no doubt that the demand for such an increment was made in 1937, and that it was agreed that the demand should be considered again when the details of the bonus scheme were published.

The only letter touching this question is letter No. 929/37-A. of the 29th September 1937 (appendix page one hundred and thirty-five), addressed to the Chairman, Board of Directors, by the Federation. That letter recites: "We had proposed that a percentage increase should be granted on the present rates of wages to all workers, and commensurate with last year's profits. Your suggestion was that an *ad interim* bonus under the present profit sharing scheme may be granted now and balance at the end of the current year, on the current year's working." There can be no question, therefore, on the Federation's own statement of its case in this letter, that the Company submitted its profit sharing scheme in answer to the demand for a general increment.

The letter goes on to press that a percentage increase, mutually agreeable, on the present rates of wages should be immediately granted on last year's working and the profit sharing scheme should come into operation on the current year's working or the scheme might be applied without prejudice, right away on last year's working. The second alternative supports the Company's claim that the profit sharing scheme was definitely put forward as an alternative to the claim for a general increment.

The Federation stressed the necessity for immediate relief:—"The workers, who are anxiously looking forward at present to increases in their wages, are going to be terribly disappointed if the scheme is to come into operation from the 1st April 1937; in other words, if they are to wait till about June 1938 for some relief in this direction."

The extra wages scheme was sanctioned by the Company, and its details were published on the 10th November 1937. It provides for the payment of extra wages on a scale which varies according to the dividend declared by the Company in any one financial year. The workmen have already received an *ad interim* payment this year and will receive another payment, which will in the aggregate amount to the equivalent of four weeks' pay. The cost to the Company this year will be 3½ lakhs of rupees, which cannot be dismissed as "mere eyewash."

The immediate relief for which the Federation asked was granted in October 1937. No correspondence has been produced before the Board subsequent to the grant and acceptance of the *ad interim* bonus. It was not until the strike notice of the 25th May (appendix page ninety-three) was issued that the demand for a general increment was put forward again. In its reply of the 28th May (appendix page one hundred and seven) the Company referred to the extra wages bonus

scheme as satisfying the demand. The Federation, in the letter of the 23rd June 1938 (appendix page one hundred and eleven), which recapitulates the position "for purposes of a clearer understanding of our view point and for record" makes no mention at all of the demand for a general increment. And the Board is not impressed with the argument that the phrase "in respect of other materials" is to be construed as including a demand for general increment.

On the materials placed before it, the Board is satisfied that the demand as framed in 1937 was met by the Company's Extra Wages Bonus scheme, and was so understood by the parties: that in response to the Federation's appeal for immediate relief the Company granted an *ad interim* bonus in October 1937—with the promise of a further contribution when the final dividend was declared on the year's working: that no further correspondence passed between the Federation and the Company—which showed that the position was accepted by both sides;, that, although the demand was again put forward in the strike notice, it was treated as a major demand and was ignored in the letter of the Federation which "recorded" the points at issue between the parties. The Board therefore is not prepared to recommend any general increment as claimed.

On the alternative case Mr. Bose for the Federation explained that in the years 1930-32 there had been a general wage cut of 5 per cent. to 10 per cent., affecting some 25 per cent., of the labour employed. It was not a simultaneous cut in all departments, but some departments were cut in each of the three successive years, so that by 1932 the cut was complete. By the "scaling down" of wages he explained that a man drawing Re. 1 was replaced by one drawing 12 annas, and the like.

For the Company it was explained that there was no cut as contended by the Federation. In some cases—and the Works Superintendent describes the figure of 25 per cent., as "grossly exaggerated"—men on higher rated jobs were offered work on lower paid jobs in order to provide them with some sort of work during a period of acute depression, and in no case was the offer refused.

The Company further pointed out that this grievance was never mentioned in the strike notice, and found no place in the first stages of the negotiations between the parties.

The grievance could only be determined by an examination of the Company's books. The Federation refused the suggestion that an expert be appointed to scrutinise the books and report to the Board. It also refused such particulars as the names of workers affected which might have facilitated the work of investigation. It required the Company to produce the muster rolls and rates registers of all departments for February 1929, April 1930, April 1931, May 1932, May 1937 and January 1938, for inspection by the Federation. These registers, 229 in number, were produced and were examined.

Mr. Bose took the case of the electric fitters, and tried to show that there had been a cut in their wages. Unfortunately his figures proved unreliable, and whereas he quoted the rate of such a fitter in 1929 as from Rs. 1-13-9 to Rs. 2-4-9, the Board found that the minimum was 14 annas and not Rs. 1-13-9, and the maximum was Rs. 2-12 and not Rs. 2-4-9. In 1930 Mr. Bose quoted the rate as Re. 1-4 to Re. 1-7, showing that there had been a cut. The Board found, however, that in 1930 the maximum was still Rs. 2-12 and the minimum had risen to Re. 1. No further attempt was thereafter made to establish the position by extracts from the registers.

No other step was taken or suggestion made regarding the determination of this issue.

As the Federation refused an expert examination of the books, and was unable to establish the grievance from its own examination, the Board must find that there has been no general wage cut or scaling down of wages in 1930-32. The question of restoration of such cuts therefore does not arise.

Mr. Homi has not been able to agree with this finding, and in his minute of dissent, has recommended a general increase at the rate of two annas in the rupee for both the Hirapur and the Kulti workmen.

Issue No. 2—Grade Scale.

Is the Company's scheme to be submitted to the Federation for its approval before being put into operation?

Or, is the scheme to be brought into operation reserving the right to the Federation to make representations to the Management on its working?

This issue arises out of the second point in the case for the Federation, the demand for the establishment of a grade scale and standard and uniform rates of wages for various classes of work. In the settlement terms of the 7th August 1937 (appendix, page eighty-five) the principle was agreed upon, and it was stated that a scheme was being drawn up by the management.

The principle that workmen employed on similar work in the different departments shall be paid at the same rate has been agreed upon. To the Federation's complaint that there had been delay in getting out the scheme, the Company admitted delay, and as an earnest of good faith produced drafts of the scheme before the Chairman during the sitting of the Board.

It has been agreed that the scheme shall be put into operation from the 1st November 1938, that the Company shall give the Federation an advance copy of the scheme at least a week before that date, and that after the scheme has been put into operation, the Company will listen to representations from the Federation on its working.

Issue No. 3—Provident Fund.

Is the Company's provident bonus scheme to be replaced by a provident fund scheme following the principles agreed to in 1937?

Is the institution of such a scheme to be conditional on the declaration of their desire by the workmen on a vote?

In the settlement of the 7th August 1937 (appendix, page eighty-seven) the Company approved the principle of some form of savings fund to which both the Company and the worker should contribute. The scheme was to be ready by the end of September 1937.

The Company's case is that after very careful consideration they decided in favour of a bonus scheme solely in the interests of the workmen, although it would cost the Company more than would a provident fund scheme. It was claimed that the provident bonus scheme had the merit of being easy to understand, and of not requiring the maintenance of a large number of accounts and of being one which the worker could not use to pledge his credit.

It was, however, open to objection that it violated the principle of mutual contribution to which the Company had agreed, and that it did not inculcate ideas of thrift in the minds of the workmen. The Company add that these principles would be well cared for when a savings bank is established and a workman's insurance scheme which they have in mind is instituted.

The Company explained its present position in the following terms:—

"The Company is of opinion that the provident bonus scheme has been devised in the true interests of the workmen But if the workmen still desire and declare so through a vote, after a full and complete explanation has been given to them, the Company will have no objection to instituting a provident fund embodying the principles as outlined in Tata's Provident Rules with the exception that contributions by the Company and by the workmen will be fixed at 5 per cent., of the wages."

The Board finds that, whatever the merits of the provident bonus scheme may be, it does not implement the agreement of 1937 or carry out the principle of mutual contributions

The Company has agreed to institute a provident fund with effect from the 1st April 1939 to which the Company and the workmen shall each contribute 5 per cent of the wages received. It has undertaken to contribute to such fund 5 per cent, of the wages received in the two years from 1st April 1937 as the Company's contribution in respect of those workmen who join the fund and has agreed that such workmen shall be at liberty to make a voluntary contribution of a like amount thereto.

The Company is anxious that a referendum should be held in the interests of the present employees who, it is urged, will lose by the change and will have a legitimate grievance in that certain benefits are being withdrawn without their specific consent The Board finds that the Federation must be accepted as speaking for the workmen on this claim and that as the Federation, for the workmen, require the agreement of 1937 to be implemented, there is no occasion for a referendum

Mr. K C. Mahindra, while not dissenting from this finding, has submitted a minute explaining his considered belief that a fuller investigation into the merits of the rival schemes would have led to a proper appreciation of the Company's standpoint, and would have established that the provident bonus scheme represents a truer provision for the interests of the workmen than the ordinary provident fund

Issue No. 4—Sickness Benefit.

Has the Company carried out its agreement of 1937 in regard to sickness benefits?

Was that agreement subject to the rules already in existence?

If the rules conflict with the agreed principle, should the principle or the rules prevail.

Item No. 5 of the terms of settlement at Hirapur (appendix page eighty-six) runs as follows:—

"*Sickness benefit.*—Workmen shall be entitled, of all classes, to a sickness benefit of full wages for the first month of sickness; to half

the wages for the next month of continued sickness, and thereafter according to the discretion of the Management."

The Company's reply ran:—

"Agreed to and rules are already framed for the purpose."

It is contended by the Federation that the Management agreed to the demand as framed, but that the rules have operated to whittle down the concession. For the Company it is pleaded that the demand was agreed to subject to the rules already in existence.

The rules were promulgated on the 6th August to have effect from the 1st August 1937.

It is unfortunate that both the Federation and the Company, in their respective cases before the Board, have taken paragraph 5 of the settlement of August 1937 to refer to "sick leave." There is nothing in the paragraph itself to show that it was ever meant to refer to "sick leave." The language used speaks of "sickness benefit", and can only be construed as referring to a continued sickness which may continue for more than two months. Moreover, the benefit claimed is a pecuniary one, estimated in the wages of the invalid. It is paragraph 4 of the settlement, with its sub-paragraphs, which deals with the question of leave.

The demand being of this nature ,the Company was obviously referring to Rule 3 of the Special Sick Leave benefits when it recorded—"Agreed and rules are already framed for the purpose," for rule 3 recites that—

"If any person is certified sick by the Chief Medical Officer for a continuous period of over 14 days, he or she shall be entitled to receive the following sick benefits:—

(a) Full pay for the period of sickness up to a maximum of one calendar month from the date on which the sickness commenced.

(b) Half pay for the immediately succeeding month or portion thereof if illness has continued. (Appendix, page 145.)

It will thus be seen that this rule more than meets the demand set out in paragraph 5, for it provides for a continuous sickness of over 14 days.

No evidence has been offered that the Company has failed to carry the terms of this agreement, and the Board must therefore hold that the Federation has no cause for grievance on the score of sickness benefit. It is "sickness benefit" which is mentioned in the strike notice, and it is sickness benefit with special reference to clause 5 of the agreement (appendix, page eighty-six) that is mentioned in the Federation's statement of its case on the 13th August 1938 before the Board. (Appendix, page 99.)

In this reading of the paragraph, the second and third questions do not arise.

The rules were brought out on the 6th August 1937. They were scrutinised by the President of the Federation, and were criticised in his letter of the 30th August 1937 (appendix page one hundred and thirty-four) to the Superintendent. In this letter is to be found the first attempt to interpret sickness benefit in Article 5 in terms of sick leave. For, the President speaks of sick leave being placed in a class by itself in Article 5 of the settlement, although sick leave was never

mentioned therein. He further observes that "the sickness benefit that we had contemplated in Article 5 of our Settlement was meant to cover sickness in general irrespective of any period." This is obviously impossible on a clear reading of the article for it cannot refer to casual sickness or sickness of less than one month. Moreover the Board is convinced that the Company never intended Article 5 to cover "sickness in general irrespective of any period". It must not be overlooked that prior to June 1937 the labour received no leave with pay at all. The first proposal was to allow 10 days leave with pay. The period was then raised to 14, and finally to 15 days. At the present moment labour is allowed 15 days' casual leave and casual sick leave. It seems, *prima facie*, incredible that a Company, which had previously not allowed any leave with pay at all, should in one year, allow 15 days' privilege leave, and sick leave which might, in the aggregate, amount to two months. Even such an established concern as the Tata Iron and Steel Company, only allows its daily rated employees leave for two weeks for every completed year of service, and does not allow any sick leave at all.

The argument has been put forward that the rules at Kulti have been amended to allow of the interpretation which the Federation now seeks to place on Article 5, and that there is no reason to distinguish between Hirapur and Kulti in this respect. This argument the Board cannot accept as valid. At Kulti the Company received as a legacy from the old Bengal Iron Company, their Accident and Sick Rules of the 18th February 1921, and the interpretation placed thereon since the date of their issue. Rule 3 recites that:—

"Injury sustained by any workman or woman during his or her working hours and while on actual duty and which in the opinion of the Company's Senior Medical Officer is sufficient to cause total temporary incapability, entitles the injured person to—

(*a*) full pay for one month;

(*b*) half pay for the succeeding month of such incapacity together with free diet allowance should the diet be of a special nature and so ordered by the Company's senior Medical Officer;

(*c*) any further benefit will be treated on its merits as a special case."

Rule 9 extends the same benefit to workers returned as sick:—

"Patients returned as sick will also receive the benefits described in paragraph 5, provided the sickness is not of a contagious variety or obtained through lack of reasonable care on the part of the patients."

Kulti's present Sick Leave Benefits contain rule 3:—

"If any person is certified sick and is recommended leave by the Chief Medical Officer he shall be entitled to receive the following sick benefits:—

(*a*) Full pay for the period of sickness up to a maximum of 30 days per year.

(*b*) Half pay for a further period of 30 days per year."

The reason why the Kulti rules were amended is that the Company found that the rules of the Bengal Iron Company had been interpreted as covering casual sickness generally. The Board feels that this interpretation is erroneous, but recognises that, as the interpretation has been followed for so many years in practice, it cannot but be accepted at Kulti. There is however, no reason why the same mistaken construction should be placed on the agreed terms at Hirapur.

It has been represented as a grievance that, under the present rules, a workman who is compelled to be absent from his work owing to casual sickness is hit both in his purse and in his leave account, in that the period of his absence is debited to his Privilege Leave Account and not to his Sick Leave Account. As the rules make no provision for sick leave as such, his absence must be debited to his Privilege Leave Account. The grievance is not one which falls under Article 5 of the Terms of Settlement, but one which might fall under Article 4 of those Terms. It is on this point that the Federation, in its letter of the 14th April 1938 (appendix, page one hundred and fifty), expressed its intention of taking up the matter with the Directors in Calcutta. As yet it has not done so. It is possible that it may be found necessary to modify the rules, if it is discovered that in actual practice, they cause hardship in cases of casual personal sickness. But the rules only came into operation on the 1st August 1937 and the Board has before it no data to warrant any modification now. It feels that, in these circumstances the practice obtaining in the Tata Iron and Steel Company is a safe guide and does not recommend any modification.

Mr. Homi has dissented from this conclusion and his elaborate minute has recited the reasons why he is unable to accept the Board's finding.

Issue No. 5—Acting Allowance.

Has the Company carried out its agreement to pay acting allowance?

On what principal shall acting allowance be paid?

Is a workman acting in a vacancy entitled to receive—

(*a*) the pay of the absent workman provided it is not less than his own,

(*b*) the lowest pay of the grade of the job.

The question of acting allowance was agitated in 1937. In the settlement of the 7th August (appendix, page eighty-eight) it was observed:—

"Acting allowance shall be granted when an employee on a lower rate of wages works in place of a higher rated one. This shall be done without the workmen applying for the same, but shall be done at the time of taking attendance."

To this demand in 1937 the Company replied:—"This has been adopted."

The Federation roundly declares that no acting allowances have been paid at all under this agreement.

This assertion is entirely without foundation. The Company has produced figures before the Board to show that acting allowance has been paid, and the Board accepts those figures.

The Board finds that, in its letter of the 23rd June 1938 (Appendix page one hundred and eleven), the Federation accepted the principle that a workman acting in a vacancy should receive the minimum wage of the grade in which the vacancy arose:—"My Committee feel that the workmen have a genuine grievance in this respect in that practically no benefit is received by them even though their representatives had agreed to accept the minimum wage of the grade in which the vacancy arose."

The Board therefore accepts this principle, that a workman, acting in a vacancy, shall receive the minimum pay of the grade in which the vacancy arises.

There remains the claim for payment of acting allowance with retrospective effect from 7th August 1937.

For the Federation it is claimed that there has been an unreasonable delay in getting out the grade scales, and this delay has operated to the prejudice of the warkmen in that, as no minimum rates have been fixed no claims to such minimum rates could be made in respect of acting allowance. It is urged that, even if payment be not sanctioned with retrospective effect from 7th August 1937, there is no reason not to pay it with retrospective effect from the 1st January 1938.

The Company admits delay and suggests that payment might be made with retrospective effect from the 1st June 1938.

The Board feels that there is substance in the submission of the Federation that workmen may have been penalised in this matter by the failure of the Company to prepare the grade scheme earlier. It realises, however, that the preparation of such a scheme must inevitably take some time, and may involve the scrapping of schemes proposed before one is ultimately settled upon.

Amongst the letters filed is one, No L.F 195B. of the 22nd March 1938 (appendix, page one hundred and forty-one), from the Secretary to the Federation to the Works' Superintendent, Hirapur, which mentions the delay in preparation of the Grade Scale:—"I draw your attention to my interview with you on the 11th February 1938 regarding grade scale, acting allowance and sickness benefit scheme You had promised that these schemes will be ready and announced after three or four weeks from that day "

The Board feels that, in view of the statements in this letter, it would not be unreasonable to fix the 1st April 1938, as the date from which retrospective payments should be made The date would also coincide with the Company's financial year

The grade scale will be put into operation on the 1st November 1938. That scale will provide that the maximum of any one grade will be lower than the minimum of the next higher grade When the grade scheme is brought into force, the cases of those workmen who "acted" for some one else during the period 1st April 1938—31st October 1938, will be reopened, and where, by actual scrutiny with the graded scheme a man would have received more had the scheme been in operation on the 1st April 1938, in accordance with the principle laid down, he will be given that additional sum The Board feels confident that thus no further cause for grievance on this score will remain

Issue No. 6—Fortnightly Payments.

Is the present system of fortnightly payments to be changed to one of bi-monthly payments, with payments on fixed dates—

(a) payment on the 25th of each month for a work period from the 1st to the 15th of the month,

(b) payment on the 10th of the month for the work period from the 16th to the last day of the previous month?

The Company used to make monthly payments, but after the publication of the report of the Royal Commission on Labour in India, altered to weekly payments.

In 1937 the claim was put forward for fortnightly payments instead of weekly payments. In the settlement of the 7th August (Appendix, page eighty-nine) the Company observed that "The weekly payment system was put in for the benefit of the labour. The Works' Superintendent will arrange for a vote of labour, and if they favour fortnightly payments instead of weekly payments, fortnightly payments will be adopted."

The ballot was held in August 1937 (Appendix page one hundred and fifty-one) and resulted in an almost unanimous vote in favour of fortnightly payments. Such were then adopted.

The two arguments put forward in support of the claim for a change are, that it is more satisfactory for the workman to know that he is being paid on a certain date for a certain wage period, and that bi-monthly payments will help his credit with the local shop-keepers who keep their accounts by the month.

The Company's objections to the proposal are:—

(*1*) That it has to keep its registers on a weekly basis to satisfy the requirements of the Factories Act, and would therefore have to keep two sets of registers if the demand is conceded.

(*2*) That the principle of payment on a fixed date would have to be abandoned if that date fell on a Sunday.

(*3*) That overtime is calculated on a weekly basis.

(*4*) That the Company introduced the present scheme on a practically unanimous ballot of the labour, and is not prepared to incur the expense involved in scrapping the present registers and printing new ones, a total charge of about Rs. 4,000, particularly as there is no certainty that the labour will not change its mind again with equal celerity.

The Board is not impressed with the reasons advanced in support of the proposal to change the system of payment. It feels that in dealing with illiterate workmen the simplest methods are the best. It believes that the ordinary workmen think in terms of days of the week, and not in terms of dates of the month, and that he can understand payment on a certain day of the week for a certain number of days better than payment on a certain date of the month for an uncertain number of days. It does not understand how a workman's credit can be better if he is paid twice in the month on fixed dates than if he is paid twice in the month on fixed days of the week. On the grounds adduced therefore the Board sees no reason to require the Company to alter the system introduced on a ballot of the workmen so short a time previously.

Mr. Homi at first concurred in this finding, and stated that, for his part, he could not understand why this claim had ever been made. His minute of dissent took his colleagues by surprise, but he explained that, on further reflection, he found that there was a valid case for the change. His reasons are to be found in his minute.

Issue No. 7—Unskilled Labour.

A. Are the wages of unskilled labour to be raised—

Men—from 8 as. to 10 as. a day,

Women—from 6 as. to 7 as. a day?

Alternatively

B. Are the wages of unskilled labour at Hirapur to be the same as those paid at Kulti?

The Federation claims an increase in the rates of wages for unskilled labour on the following grounds:—

(1) The risks run by labour in an iron and steel works are no less than those in other industrial concerns, and even in collieries.

(2) The Company can afford to pay a higher rate.

(3) The rise in the cost of living.

The Company relies on these arguments—

(1) By quoting accident statistics—there have only been two fatal accidents at Hirapur in 18 years, both women.

(2) By quoting the average dividend paid by the Company since 1919, excluding the present year—1·23 per cent.

(3) By quoting the tabulated statement of index figures showing the rise and fall in the cost of living of the working classes in Jamshedpur as on page 69 of the Tata Iron and Steel Company's report of October 1937.

The Company also states that it relies on the old argument of supply and demand, and urges that when it can get 500 unskilled labourers at the rate offered merely by opening its doors, it sees no reason to offer a higher wage. It challenged the Federation to adduce evidence of a higher wage being paid to this class of labour by any other company in the vicinity, and stresses the failure of the Federation to do so.

The Board is satisfied that the Company can get all the unskilled labour it requires at the rate offered, and therefore sees no reason why it should recommend an increase on that rate.

The Board notes with satisfaction that there are now only 120 women employed at Hirapur, and 300 at Kulti, and that all will be discharged within the next year.

The alternative claim is that unskilled labour at Hirapur shall be paid the same as at Kulti. At present unskilled labourers at Hirapur are paid 8 annas a day, and unskilled labourers at Kulti 9 as. The rate for women is the same in both places.

For the Federation it is urged that there is no reason to distinguish unskilled labour at the two works of the same company, for they do substantially the same work. The Company urges that there is a distinction in that Hirapur is more mechanised and Kulti largely foundry work.

The Board recognises that there is this distinction. It has also been assured, and sees no reason to reject the statement, that the rate was fixed at 9 annas at Kulti under a mistake that 9 as. was being paid at Hirapur. Unskilled labour at Kulti was being paid 7 as. and 7½ annas a day, and pressed for an increase. Being misinformed, the management raised the rate to 9 annas, in the belief that this rate obtained at Hirapur. The management, having made the mistake, had to stand by it, but the Board cannot agree that the Federation is now free to instance the disparity as a reason for increasing the Hirapur rate.

Mr. Homi dissents from this finding, and in his minute has recommended that unskilled labour at Hirapur shall be paid nine annas as at Kulti.

Issue No. 8—Rest-house.

Does the rest-house which the Company proposes to construct before the end of the year meet the workmen's requirements?

The Federation asked for the construction of a rest house immediately outside the works' premises, with separate accommodation for male and female workers to the number of 250—350 in all—the house to be fitted with electric lights and to have water laid on. It was represented that the accommodation was required—

(a) for men coming from their villages beforehand in search of work.

(b) for men waiting to go home after their shift,

(c) for men coming early to work and waiting to go on night shift.

The Company declares its intention of replacing the existing structure before the end of the present year by a new rest-house designed to accommodate 250 persons, fitted with electric light, and with lavatory and bathing facilities for both men and women at a cost of Rs. 8,000 to Rs. 10,000.

Accepting that a rest house is necessary, the Board finds that the Company's proposal will meet the workmen's requirements.

Issue No. 9—Sunday Allowance and Festival Leave.

Is a workman entitled to get 1½ times his pay for working on Sunday?

Should the workmen be allowed four days' leave on full pay each year as festival leave?

The claim for a Sunday allowance is based on the ground that a workman who works on a Sunday ought to be compensated for the inconvenience of having to work on an "off" day.

The Federation examined six witnesses (Appendix, pages 121-123) of whom four stated that when they were required to work on a Sunday they drew pay at the single rate, and received no allowance for Sunday work. Those witnesses are Haman Ojha, T. C. Ghosal, Buddhu Ram

and Beroo. The other two told a different story. Banshi Ghati said that when he had to work on a Sunday he either got "overtime" or else was allowed "chhuti" on the Monday. Nathuni stated that he got his "overtime" for Sunday on a Wednesday.

The actual practice is that when a man is required to work on a Sunday, he is given the next day, Monday, as his off day if that is possible: if that cannot be managed, then he is given an off day on one of the three days immediately before or after that Sunday.

There is no special merit to a workman in Sunday as his off day in the conditions of his service, and if he is required to work on Sunday—and it is represented that he is notified beforehand—and if he is allowed another day as his off day, the Board sees no reason to recommend that he shall be paid a Sunday allowance. It is observed moreover that the Tata Iron and Steel Company does not make such an allowance.

The claim for festival leave finds no place in the strike notice. It had been raised once before and had been refused, and the Company declares its belief that the refusal had been accepted by the Federation. The demand has been made before us and requires determination.

The Company pleads that the grant of such leave would involve practical difficulties in operation, would impose additional expenditure on the Company, and would really be an extension of the leave already allowed.

The Board feels that, though the Federation did not attach to this claim the importance it attached to other demands, some provision should be made to enable the different communities amongst the workmen to observe and celebrate their respective religious festivals. It recognises that the claim for four days on full pay as festival leave cannot in justice be supported, but it sees no reason why two days should not be allowed as is done in the Tata Iron and Steel Company. Their rule runs as follows:—"The management will as far as possible allow two days holiday on full pay in each year for religious festivals. Such holidays will not be counted against either privilege or casual leave." The Board feels that the language in which this provision is couched is sufficient safeguard against practical operational difficulties; it would however insist that the festival leave be granted only on recognised religious festivals, and not be allowed as an addition to other leave.

On the claim for Sunday allowance, Mr. Homi surprised his colleagues by recording a minute of dissent after agreeing with the finding of the Board.

As he explains in his minute, Mr. K. C. Mahindra subscribes to the recommendation for festival leave solely on the grounds of expediency.

Issue No. 10—Lady Doctor.

Has any case been made out for the appointment of a lady doctor?

The demand for the appointment of lady doctor first appears in the strike notice of 1938. After the demand was made the Works Superintendent began an investigation into the necessity for such an appointment. The Federation however informed the Board that it would not

accept the result of his enquiry unless it was in favour of an appointment, and through its representative, Mr. A. R. De, asked the Board to frame an issue on the point.

It was represented that there had long been a demand for a lady doctor to treat the female relatives of the Company's employees, and that the demand had become acute since 1937. It was also urged that the Moslem employees refused to allow their womenfolk to be treated by the Company's male doctors.

The evidence adduced did not establish the existence of such a demand. Three witnesses only were examined (Appendix, pages 123 and 124). Nabba Khan stated that his wife fell ill last year at Hirapur. He consulted the Chief Medical Officer about her case, and he sent the nurse along. The nurse advised the removal of the patient to hospital, but as Nabba Khan would not under any circumstances allow his wife to be examined or treated by a male doctor, he had to call in a lady doctor from Asansol. S. N. Gupta had occasion to call in a lady doctor from Asansol in 1933 when his wife was pregnant and was troubled by excessive bleeding. Although his wife was delivered of seven children in all, there was no other occasion to call in the services of a lady doctor. T. C. Ghosal had to take his wife to the Lady Dufferin Hospital in Calcutta in 1934 and again in 1937, and states that he would rather have his wife treated by a lady doctor with an L.M.F. qualification than by the Company's doctors.

On this evidence the Board cannot find that there is any demand which would warrant a recommendation to the Company to appoint a lady doctor. It observes, however, that the Company, in its reply of the 28th May 1938 to the strike notice commented on this demand in the following terms:—

"A new hospital is being built and when this is completed medical facilities will be extended", and links this with the recommendation of the Royal Commission on Labour in India. "Indian women are generally unwilling to avail themselves of the services of male doctors, and wherever a hospital organisation of any size exists, whether it be provided by an employer or a local body, the addition to the medical staff of a woman doctor is to be commended." The Board feels that, as the Company has never refused to appoint a lady doctor, the matter of such an appointment may be safely left, with these observations, to its discretion.

Mr. Homi has sprung one more surprise on his colleagues by recording a note of dissent on this issue after concurring in the findings of the Board.

Issue No. 11—Strike Pay and/or Lock-out Wages.

(*a*) Was the cessation of work due to a lock out? If so, are the workers entitled to lock-out wages?

Alternatively

(*b*) Was it a strike? If so, can the workers get strike pay?

On the first alternative the Federation claims—

(1) that the notice of the 25th May 1938 is not to be construed strictly as a notice of an impending strike;

(2) that the Federation never intended that there should be a strike on the 5th June;

(3) that the Company posted two notices closing the works on the 5th June;

(4) that some workmen reported for work on 6th June and were turned back and that, therefore, there was no strike, but a lock-out.

Alternatively, it is contended that if the notice of the 25th May is to be construed as a strike notice, a verbal assurance was given to Mr. Mookerjee one of the Directors, that there would be no cessation of work when the notice expired,

and, again in the alternative, if no such assurance was given to Mr. Mookerjee, still as negotiations were proceeding between the parties there was an implied understanding that there would be no strike,

in either of which cases, the action of the Company, in posting notices on the 5th June closing the works constituted a lock-out and entitled the workers to lock-out wages.

The answer of the Company is to the following effect:—

(1) that the notice was a strike notice, containing a definite threat to strike on the expiry of a given period;

(2) that the notice was treated as such by the parties in their correspondence;

(3) that there never was any verbal intimation given to the Company that the strike would not take place;

(4) that the two notices posted by the Company on the 5th June were in recognition of the fact that the time limit of the strike notice had expired, and in appreciation of the circumstances that officially the labour was on strike.

It is impossible to construe the notice given by the Federation on the 25th May as anything but a strike notice (appendix page 93). Its language prevents any other construction:—"Therefore this mass meeting is of opinion that the resloved demands should be fulfilled at once, failing which a complete shut down of the works should be staged as a demonstration. That a notice be and is hereby given to the Company for 10 (ten) days to this effect from the 26th May 1938". The provision of ten days' notice was given in pursuance of the agreement between the Company and the Federation that a ten days' notice should be given, either of a lock-out or a strike.

The notice there must be construed as a notice to strike, which would terminate at 7 a.m. on the 5th June 1938.

In the face of this notice no importance can be attached to the argument that the Federation never intended it to be effective and never contemplated a cessation of work on the expiry of its time limit.

It is true that the Company posted two notices on the 5th June 1938 (appendix, pages 133-134). The first one reads—"Owing to the strike declared by the Labour Federation the works are closed as from 7 a.m. to-day". The second:—"In view of the recent notice given by the Labour Federation to strike with effect from 7 a.m. to-day, June 5th, 1938, the Company has been forced to close down its operating plant

until further notice". It has been suggested that, as the first notice was supplemented by the second, the Company realised that the first one was tantamount to a notice of a "lock-out". The Board does not believe that such a sinister interpretation is to be put on it. If the notice of the 25th May be taken as a strike notice, with the ten days' time limit agreed upon between the parties, there is no escape from the position that the strike was "on" from 7 a.m. on June 5th. So much is conceded by Mr. Bose for the Federation. That being so, a notice posted by the Company that, owing to the strike declared by the Federation, the works are closed, merely appreciates a position that is already in existence on the expiry of the time limit. It cannot possibly be construed as a "lock out" notice, irrespective of all that had gone before. Nor does the replacing of the first notice by the second show that the first one was recognised by the Company as tantamount to a "lock-out" It merely explains the reason why the Company has been forced to close down its operating plant. It may be true—and the Company does not deny it—that some workmen were turned away on the morning of the 6th June. That was one of the inevitable results of the strike and cannot conceivably be interpreted as a "lock-out" of labour as a whole from the works premises.

It has been suggested in argument that a comparison (appendix pages 133-134) between the notice posted at Kulti and the more economically worded notices posted at Hirapur lends support to the view that the latter are really "lock out" notices. This argument cannot be accepted. Conditions are not the same in the two works and the notice merely show how each Superintendent, in the light of the conditions in his own works, met the situation caused by the expiry of the strike notice.

The correspondence exchanged between the parties bears out the conclusion that the cessation of work was a strike and not a lock-out, for in none of the letters is the term "lock-out" to be found. The situation is always referred to as a strike, and never as a "lock-out". It is true that in the Federation's letter of June 5th/6th replying to the Works Superintendent's letter of the 30th May regarding essential services, a reference is made "to the present deadlock" and in the Federation's letter of the 23rd June a reference is made to the "show down", but these cannot be interpreted as referring to a "lock-out" rather that to a "strike". This is the more true as the same letter of the 23rd June 1938 mentions the discussions "before the strike notice terminated" (appendix, page 113). This is the letter in which the Federation recapitulates the position for record.

No evidence was offered of any verbal assurance given to the Company that there would be no cessation of work when the notice expired.

It is true that the strike notice was followed by negotiations, but there is nothing on record to justify the assumption that the fact of the negotiations implied an understanding that the strike was not to take effect. The events themselves disprove this contention.

The Board is therefore satisfied that the cessation of work was not due to any lock-out. The workers accordingly are not entitled to lock-out wages.

The question now arises whether the workers are entitled to strike pay.

The Federation states its case that, between the settlement of the 7th August 1937 and the date of the strike on June 5th, 1938, there is no evidence of any bona fide attempt on the part of the Company to implement any part of the terms of that settlement, and that so long as there was one legitimate grievance unsettled, the workmen were justified in going on strike, and therefore should receive strike pay.

The statement that there is no evidence of any bona fide attempt on the part of the Company to implement any part of the terms of settlement of August 1937 is a rash statement directly disproved by evidence which cannot be denied. The Company's extra wages scheme has cost Rs. 3,50,000, the provident bonus Rs. 1,74,000, retiring gratuity Rs. 98,000 and privilege leave Rs. 1,20,000. These figures are the best guarantee of the Company's good faith in carrying out the terms of that settlement.

It is true that there are still points on which the Company and the Federation do not see eye to eye. This must be so, inevitably. Disputes there always will be. As to the method by which such disputes are to be settled, the Federation has agreed with the Works Superintendent. This is proved by the Superintendent's demi-official letter, No. 3576 of the 12th April 1938 (appendix, page 150) to the President of the Federation placing on record their agreement on the subject of cessation of work:—"We have both agreed in principle that either strike or lock-out should only be resorted to, to settle industrial disputes, and then only when all avenues to a settlement have been fully explored......". It remains to be seen, therefore, whether there has been an attempt to explore all avenues to a settlement of the present points of dispute, or whether the differences had become so acute as to justify the workers in going out on strike. The Board finds a difficulty in that the Federation declined to state what particular grievance or grievances, claimed by it to be legitimate, had been refused a settlement by the Company in terms which left no option to the Federation save to strike. It has therefore been necessary to consider the letters filed with a view to establishing this point.

The provisions governing sickness benefit have been mentioned as instancing the failure of the Company to implement its agreement of August 1937. In that month, in reply to the demand for sickness benefit, the Company replied (Appendix page 86):—"Agreed to, and rules are already framed for the purpose." It has been a point of dispute between the parties as to precisely what was agreed to by the Company, whether it was merely to the principle of sickness benefit, as claimed by the Company, or whether it was to the specific benefit demanded as claimed by the Federation. At all events, the parties were soon engaged in correspondence over this issue, and a letter No. 830/37A. of 30th August 1937 (Appendix, page 134) from the Federation to the Works Superintendent has been produced. This letter discussed the leave and sickness leave rules, and gives the Federation's considered representation thereon, and suggests certain modifications. To this letter the Works Superintendent replied on the 8th October 1937 (Appendix, page 138). He suggested that the rules should be left as they were until it had been seen how they worked, and offered to discuss the matter further if the President of the Federation would let him know when next he was in the district. Thereafter there was a personal interchange of views between the President and the Superintendent, which is referred to in the President's letter

No. 414/38 C. of the 14th April 1938 (Appendix, page 150) in the following terms:—"I also further confirm having discussed the necessity of separation of rules of casual leave of 15 days with pay in a year from rules of sick leave of one month on full pay and another month on half pay, as had been settled between your Company and the Federation after the strike at your plants in August last. Your view point was that the rules as framed at present were in accordance with the intention behind the settlement, and we disagreed with the view. It was agreed that the matter will then have to be taken up with Mr. Martin at Calcutta. We are doing so now."

The matter is left here, for there is no evidence before the Board of any further representations.

In his evidence before the Board the Superintendent stated that, so far as sickness benefit was concerned, he felt that there had not been enough discussion, and that finality would only be reached on a decision between the President and the Directors of the Company. This view is supported by the letter of the 14th April which shows that, after the President and the Superintendent had failed to reach an agreement, they had both agreed that the matter must be taken up with Mr. Martin at Calcutta. That the Federation did not believe that finality had been reached is shown by the concluding sentence of the letter:—"We are doing so now." So far as this issue then is concerned, the Board is left with the intention of the Federation to take the matter up with the Directors. There is no evidence that anything has been done in furtherance of that intention. But it is possible to state, without fear of contradiction, that the Federation did not itself believe that a solution of the difficulty by negotiation had become impossible and that the Federation had no alternative but to call the men out on strike.

The question of acting allowance has also been mentioned as having assumed sufficiently acute proportions to justify the strike. Such letters as have been produced do not warrant this belief. The first is an application (Appendix, page 154) of one Buddhoo, a welder, dated the 27th October 1937, for acting allowance. He was drawing at the rate of Re. 1-2 and was allowed 7 annas acting allowance, and drew Re. 1-9. The Secretary of the Federation brought his case to the notice of the Labour Department Manager on 22nd November 1937 (Appendix, page 154), claiming that the man should have been paid the actual rate of the absentee workman. This claim is contrary to what the Federation had itself agreed to. Then comes a letter, or rather the unsigned office copy of a letter, No. L. F. 154 B. of the 16th November (Appendix, page 140) asking the Superintendent to send the full scheme of the acting allowance. Lastly there is a letter, No. L. F. 195B. of the 22nd March 1938 (Appendix, page 141) adverting to the question of acting allowance, and after drawing attention to delay in producing the grade scale, inviting the Superintendent to "please look into the above matters and settle at your earliest convenience" and asking for "an early rather favourable reply."

There is no hint in this correspondence that the question had reached such an acute stage that it required a strike to call attention to its urgency.

The Company admits that there has been delay in preparing the grade scale. No letter mentions this as a grievance save that of the 22nd March 1938, which invites the Superintendent to look into the matter and settle it at his earliest convenience.

The difference of opinion regarding the Provident Fund *vis-a-vis* the Provident Bonus is mentioned only in the letter No. 929/37 A. of the 29th September 1937 (Appendix, page 135) which concludes with the phrase "in the light of observations made herein, we commend the improvement of the scheme". A reply to this letter was given on the 27th October 1937 in the following terms:—"I will now deal with your letter in detail, and though I am afraid that at the moment at any rate my Board cannot see eye to eye with you on some of your detailed criticism of the scheme, I want you to understand that if experience in working the scheme brings to light practical difficulties, we will be only too glad to give them sympathetic consideration, and consider what revisions can be made."

The Board, therefore, finds that the documentary evidence of the letters produced does not support the claim of the Federation that the strike was justified, remembering the agreed principle that a strike should only be resorted to when all avenues to a settlement have been fully explored. In no instance could it conceivably be said with truth that all avenues to a settlement had been explored. Even in the case of sickness benefit, in respect to which there has been most correspondence, the last intention of the Federation as declared in its own letter is to take up the matter with the Directors Mr. Bose for the Federation wished to cite the Federation's letter No. 623/38 A. of the 23rd June 1938 (Appendix, page 113) in support of his case. But this letter written somedays after the labour had already come out on strike, must be regarded in the nature of "special pleading" justifying that action, and is of comparatively minor importance beside the evidence of the letters written before the strike began.

The Board concludes that no justification has been shown for the strike and that therefore the workers are not entitled to strike pay.

Mr. Homi has not been able to accept this finding, and in his minute claims that that workmen are entitled to look-out wages and strike wages. The minute recites the reasons which lead him to that conclusion.

It must be reluctantly pointed out that the minute contains references to matters which were excluded from consideration and never placed before the Board. The paragraph dealing with the Company's activities on receipt of the strike notice contains statements never before mentioned. The minute also justifies the strike on grounds never taken by Mr. Bose, e.g., the failure of the Company to provide for the "floodlighting" of quarters It also does not correctly represent what Mr. Bose did say in the following quotation:—"Agreeing with the Federation Advocate Mr. A. K. Bose's contentions, I find there is enough documentary evidence and inference that the show-down did not take place till after Monday, 6th June ....". Mr. Bose's final position, in his argument, was that the strike took place on the 5th June. It is unfortunate that these inaccuracies have crept into the minute.

Issue No. 12.

Have the six chemists and three khalasis been rightly discharged?

If not, and if the Company now proposes to discharge them, what compensation shall the Company be required to pay them?

This issue was framed to cover the circumstances of paragraph 6 of the Terms of Resumption of Work, of the 17th July 1938 (Appendix, page 97).

Six chemists, Pramatha Nath Mukherjee, Dinesh Chandra De, Nani Gopal Dutta, Butta Krishna Dass, Rama Prasad Majumdar and Mohini Mohan Banerjee were discharged by the Company as a measure of retrenchment (Appendix, page 131) as the Company desired to curtail its overheavy laboratory expenses. Three khalasis, Murabbi, Bhadai and Nageswar, were also discharged for the same reason. Incidentally the discharge of these men was the immediate cause of the strike.

The Federation claimed that they had been discharged by way of victimisation because they had joined the Federation.

Under the terms of resumption their cases were to be placed before the Board for its decision.

The Board set apart the 5th September for hearing these cases separately.

On the case of the six chemists being called, a petition (Appendix, page 182) was presented to the Board, signed by five chemists and stating that the absentee Mohini Mohan Banerjee shared their views, to the effect that they realised that the action of the Company was perfectly justified, and they had nothing to urge against it. They were summoned before the Board one by one, and each stated that he was fully aware of the contents of the petition, and desired that the issue in this connection should be dropped. In these circumstances the issue was dropped.

Two of the three khalasis Murabbi and Bhadai appeared before the Board on the 6th September and asked that their cases might be considered (Appendix, pages 129-130). Each of the two was examined. It transpired in evidence that they were rightly discharged. They were offered other work by the Company when there was no more work for them as khalasis, and refused it. They refused to take the pay due to them in the hope that they might be taken on again, Bhadai being encouraged by the Labour Office which assured him that he had been wrongly discharged and would get his job back again. As they refused other work when retrenched as khalasis, they cannot get any compensation. The third khalasi, Nageswar, never appeared.

Issue No. 13.

Has the Management acted rightly in refusing to reinstate in their original positions the men referred to in paragraph 7 of the Terms of Resumption?

This issue was originally framed to meet the cases of the men, six in establishment staff inside the works, and six in the clerical staff whom the Company did not feel able to restore to their original positions. It was then left to this Board to decide whether the Management's action was justified [Appendix, page 97, item (7)]. "The cases of such men will be put before the Board for approval of the Management's action in not reinstating them in their original positions."

On the issue being framed, it was objected by the Federation that the Management had actually restored these men (with the exception of one who was ill) to their original posts, and that therefore the question no longer called for an answer. As their restoration to their original posts was admitted, this objection was sustained.

It was, however, subsequently felt that the Board would be failing in its duty if it did not raise and decide the question of these twelve employees of the Company. If the matter were left as it stood, there was nothing to prevent the Company from discharging them the moment the Board had finished its work, and such action would precipitate another crisis. At the instance of the Chairman the objection was withdrawn, and the issue again raised

The Company stated that, in these circumstances, it would not place the cases of six of the employees before the Board, but would ask for the Board's decision on the cases of N. Sen and D. L. N Rao of the clerical establishment, and of B. N Bhattacharjee, A. N Swamy Iyer, M. N. De and S. K. De of the non-clerical establishment.

On the 7th September Mr. Bose for the Federation submitted a statement (Appendix, page 132) regarding these six employees from the side of the Union. At this stage the Company produced letters received that morning, couched in identical language, from each of the six expressing regret for that had happened and containing an assurance of future behaviour (Appendix, page 133). In view of these letters the Company declared it had no intention of taking any further action against them, and the issue was not pressed to a decision

KULTI.

Issue No. 1.

Shall there be uniformity of procedure at Kulti and Hirapur in respect of :—

(1) Acting allowance.

(2) Provident fund.

(3) Grade scale.

(4) General increment.

(5) Fixed dates of payment of wages.

(6) Building programme of quarters.

(7) Sunday allowance.

(8) Grievances of the establishment (sick benefits and wages of unskilled labour excepted)?

The Board finds that acting allowance should be paid on the same principle at Kulti and Hirapur—that a workman acting in a vacancy should receive the minimum pay of the grade in which the job lies, with retrospective effect from the 1st April 1938.

The Board finds that a provident fund should be instituted in place of the provident bonus scheme, on the lines of the Tata Iron and Steel Company's Provident Fund, 1937, with the Company and the workmen

each contributing 5 per cent. of the wages received. The Company has undertaken to make a contribution of 5 per cent. of the wages received for the two years from April 1st 1937 to April 1st 1939 in respect of those workmen who join the fund, such workmen being at liberty to pay into the fund a like amount as a voluntary contribution.

The Board accepts that a grade scale shall be introduced at Kulti from the 1st November 1938.

The Board does not find that the labour at Kulti are entitled to any general increment.

The Board does not find that any case has been made out for the payment of wages on fixed dates.

The Board endorses the Federation's acceptance of the Company's assurance that it is fully alive to the necessity of constructing quarters for its labour in the near future, and that so far as is practically possible it will expedite the work of construction towards this goal.

The Board is not convinced of the desirability of granting Sunday allowance.

The Board is of opinion that the establishment at Kulti should be allowed to participate in the Company's extra wages scheme.

Issue No. 2.

Is a provident fund to be established at Kulti as at Hirapur?

For the reasons given in discussing the similar issue at Hirapur, the Board is of opinion that the Company should replace its provident bonus scheme by a provident fund scheme on the lines of the Tata Iron and Steel Company's Provident Fund, 1937.

Issue No. 3.

Have the following men been wrongly dismissed:—

(*a*) Nand Lal Gossain, Lance Naik,

(*b*) Chandrabir Khettry,

(*c*) Lalsing Bunna,

(*d*) Sumansing Gurung,

(*e*) Tej Bahadur Gurung,

(*f*) Durga Ram Gurung,

(*g*) Lachman Thappa,

(*h*) Soramsing Thappa,

all of the Watch and Ward Department?

Nand Lal Gossain hails from Nepal. He enlisted at the age of 15 or 16 and served in the Army for three years. He was then discharged and after a period at home was appointed in the Watch and Ward Section of the Kulti establishment on the 27th December 1934. He was discharged on the 23rd April 1938.

For the Federation it is claimed that Nand Lal was dismissed because he was an active member of the Federation, on the pretext of insubordination.

The Company contends that he was dismissed for his failure to carry out the specific orders of his superior officer.

The Company's order, dated the 23rd April (Appendix, page 155), merely records that "You are hereby informed that your services are no longer required from date. You will receive pay up to the 30th April 1938 on appearing before the Cashier."

Evidence was recorded (Appendix, pages 117-120, 126-128). Nand Lal himself was examined and another Naik, Lalit Bahadur. The Company tendered Captain Wickham, in charge of the Watch and Ward Department, and produced the relevant papers required by the Federation.

The incident on which the Company seeks to justify its dismissal of Nand Lal took place on the night of the 21st April 1938. Nand Lal seeks to show that it took place on the night of the 19th April, but against his word is the weight of all the documentary evidence produced. When the facts are admitted, it is impossible to hold that the date has been deliberately changed.

Nand Lal, as Lance Naik, was posted as N. C. O. in charge of the main gate from 4 p.m. on the 21st April till 4 a.m. on the 22nd April. At 4 a.m. he was to have been relieved by Lalit Bahadur.

Nand Lal was allowed leave to go to the bazar to take his meal. There he met Lalit Bahadur, and the upshot of their meeting was that Lalit Bahadur took over Nand Lal's duty for the rest of his watch.

An ordinary sepoy Dhani Singh was found asleep on duty. He was hauled up next morning, and with him the N. C. O. in charge who should have detected his lapse. It was then discovered that Lalit Bahadur, and not Nand Lal, had been on duty during the night.

Nand Lal's explanation is that he was told by Lalit Bahadur that he had been deputed by the Subedar to take over charge from him, and that in the belief that it was the Subedar's order, he made over charge to Lalit Bahadur and went away.

This explanation is obviously false, while the explanation given by Lalit Bahadur bears all the stamp of truth. He states that he was under orders to relieve Nand Lal at 4 a.m. As he had no one in his house to waken him in the middle of the night he went to the gate there to sleep till his duty commenced. On the way he met the Subedar and explained to him why he was under the necessity of sleeping at the gate. The Subedar appreciated his difficulty and promised to change his duty next day. As he had to remain at the gate, and as he saw no point in two men remaining there, Lalit Bahadur voluntarily did Nand Lal's duty for him, confident in the assurance that his duty would be changed from the next day. As it was, Dhani Singh slept on duty, and Lalit Bahadur did not detect him and thus his private arrangement with Nand Lal came to light.

Nand Lal therefore was held guilty of a serious breach of discipline and was dismissed The note book of the Subedar, called for by the Federation, shows that only the previous day all N. C. O.'s were informed, on the failure of a sentry to report for duty at the correct time, that no excuses for failure to perform duty as ordered would be accepted.

It has been argued that, if Nand Lal's offence deserved dismissal, there is no reason why Lalit Bahadur should have escaped without

punishment. Captain Wickham in his evidence said that he regarded Nand Lal as the chief offender, in that he should have been on duty, whereas there was this much to be said for Lalit Bahadur that not only did he do his own duty, but Nand Lal's as well. This is borne out by the recommendation (Appendix, page 155), he sent up to the Labour and Welfare Officer, that Nand Lal be dismissed and Lalit Bahadur be severely reprimanded.

It has also been suggested that Nand Lal's offence was not viewed seriously by the Company for he was sent back to duty after being hauled up before Captain Wickham. It appears however that Captain Wickham has no power to suspend a man pending receipt of orders of the Labour and Welfare Officer on a 'case' sent up to him.

Nand Lal's case (Appendix, page 156) is that the Company took advantage of the fact that he did not take the permission of the Subedar before collecting for the Anti-Tuberculosis Fund, and dismissed him for so collecting on a charge of insubordination. This plea finds no support in the papers produced before the Board, in which there is no mention of any such charge.

It is no doubt true that Nand Lal represented to the Federation that he had been dismissed because he collected for the Anti-Tuberculosis Fund without permission of the Subedar, and the Federation supported his application for reinstatement in that belief. But the Works Superintendent pointed out in his letter of the 29th April 1938 to the Vice-President of the Federation at Kulti, that Nand Lal's dismissal had nothing to do with the collection of funds for the Anti-Tuberculosis campaign (Appendix, page 156). This statement is borne out by all the documents relating to Nand Lal's dismissal.

Nand Lal tampered with the truth when, in his evidence before the Board, he insisted that the incident had taken place on the night of the 19th April, and not on the night of the 21st April. He saw that his plea that he had been dismissed for collecting subscriptions without authority would not be believed otherwise, and he was also anxious to create the impression that his offence was not regarded as serious in that he was allowed to resume his duties for two days afterwards.

A suggestion was thrown out that Nand Lal might have been the victim of a conspiracy between the Subedar and Lalit Bahadur. This does not merit serious consideration. Lalit Bahadur is hardly likely to have been a party to a conspiracy which would inevitably lead to his own punishment, and did in fact lead to a recommendation that he be severely reprimanded.

The Board feels that it would be more satisfactory if formal charge sheets were drawn up against Watch and Ward employees in respect of offences regarded as serious, and likely to result in their dismissal. It would not then be possible for a workman to make it a grievance that he had been dismissed on a charge of which he knew nothing, and which he had no chance to meet.

On these facts the Board is satisfied that the Company had sufficient reason to dismiss Nand Lal. It has already been seen that the explanation tendered by Nand Lal to explain his change of duty with Lalit Bahadur is false. Moreover the history of events subsequent to his dismissal would warrant a refusal to reinstate Nand Lal even if the Board came to the decision that his dismissal was wrong. The Board could not in reason require the Company to reinstate a man who had

been such a source of trouble that he was convicted in the criminal courts and ordered to execute a bond to keep the peace and be of good behaviour.

Mr. Homi does not subscribe to this finding and has recorded a note of dissent.

(b) Chandrabir Khettry,
(c) Lalsingh Bunna,
(d) Sumansingh Gurung,
(e) Tej Bahadur Gurung,
(f) Durga Ram Gurung,
(g) Lachman Thappa,
(h) Somramsingh Thappa,

The Company stated that these men had all been dismissed on the score of their age and physical inability to perform the duties required of them in the Watch and Ward.

The letters addressed by the Company to each of these men are all couched in the same terms (Appendix, page 157):—"Reference our conversation when we explained that you were too old for active service in the Watch and Ward Department, and your willingness to retire, we shall terminate your service on 30th June 1938."

It was at first contended that these men had been dismissed because they were members of the Federation. This contention was however subsequently abandoned. And the men, when they appeared before the Board, made no such claim.

Chandrabir Khettry gave as his age "below 50" though on the Company's record he appears as 55. His appearance shows that he is unfit for service.

Sumansingh appears on the Company's records as 45. He has only one eye and is obviously unfit for service The wonder is however he managed to secure an appointment in the Watch and Ward.

Somramsingh also is clearly unfit for such service. He gave his age as 45 but he looks much nearer the 55 the Company credits him.

Lachman Thappa says he is 40. The Company estimates him at 60. His army discharge papers show him as 54. He looks at least that age. Tej Bahadur claims to be 44, the Company makes him out to be 45. His discharge papers show him to be 43. Lalsingh claims 43 years as his age, while the Company gives him 55. On his Army pension papers he is 49. Durga Ram says he is 48, the Company 58. He has no papers to show his age, but he has been drawing a pension from the Army since 28th January 1920.

The Company claims that all these men are too old for active service in the Watch and Ward. As no claim is now made that there is any ulterior motive behind their dismissal, the Board has no reason to reject the reason given by the Company. In these circumstances it must find that they have not been wrongfully dismissed.

Issue No. 4.

Are the Kulti workmen entitled to strike pay:

On the 29th May 1938, the Kulti Labour Federation served a notice on the Company (Appendix, page 94) that unless certain grievances were settled in their favour by the 5th June 1938, there would be a general strike.

. There is no dispute that this is a strike notice. There is no dispute that it contravenes the agreement between the Company and the Federation, that ten days' notice would be given of any strike.

For the Federation alternative pleas were put forward:—

(1) It was first of all claimed that the short notice was accidental. The Secretary mistakenly believed that he was required to give seven days' notice and not ten.

(2) Then it was suggested that the short notice was intentional. The retrenchment orders were to take effect from the 5th June, so the strike notice was made to coincide with that date.

On the first alternative the Board cannot hold that the breach of the agreement was any less of a breach because it occurred by reason of a mistake of the Secretary It therefore finds no justification for strike pay

On the alternative case it has been suggested that the Federation really acted in the best interests of the Company by not giving the agreed ten days' notice Many workmen were to be retrenched, and the orders of retrenchment would take effect from the morning of June 5th Had the orders been carried out there would have been lightning strike on June 5th For that reason the Federation made its strike notice to terminate on June 5th, to coincide with retrenchment orders A strike on an insufficient notice was a lesser evil to the Company than a lightning strike, and therefore the Federation can be said to have acted in the interests of the Company in breaking its agreement.

The argument is ingenious but unconvincing Documentary evidence proves that it was well known to the Federation and its President that Kulti was carrying a large surplus of labour, and that retrenchment was inevitable A reference is made in the Kulti strike notice to the Company's letter No. X 1102 (Appendix, page 165) This letter, dated the 26th May, addressed to the Vice-President, Labour Federation, Kulti, contains the following passage:—"You are aware as also is the Chairman of your Federation that we have a very large surplus of labour and have postponed for some considerable time taking any steps to adjust in the hopes of the necessity not arising We hope that when this reduction has been completed it will not be necessary to make any further similar major reductions for some time subject of course to circumstances arising which neither you nor ourselves can at present reasonably anticipate." Two other letters (Appendix, pages 165, 163), No. X. 1101, of the 25th May, and No. X. 989 of the 14th May 1938, leave no room for doubt that the imminence of labour reductions at Kulti was certainly known to the President of the Federation on the 13th May, on which date he had an interview with the Superintendent Kulti on this very matter. When the Federation had advance knowledge that these reductions were inevitably going to be made, there is no further room for the argument that the strike notice had to be made to coincide with the retrenchment date. And the Board has no evidence before it that the contemplated reductions would have led to a lightning strike.

The question of retrenchment is one which must always be left to the decision of the Company.

The Federation's claim that the imminence of the proposed retrenchment justified a breach of the agreement is hardly supported by the strike notice itself which neither gives first place to this grievance nor explains the necessity for the breach.

Last year the Company made an "ex gratia" payment to the strikers (naturally enough, the Federation refers to it now as "strike pay"). This year the Company declines to make any such payment but declares it has no intention to enforce the clauses of the extra wages scheme which would debar strikers from participating in the benefits thereunder. The Board is not impressed with the suggestion that this action on the part of the Company is dictated by the knowledge that the strikers are really entitled to strike pay.

Of the demand put forward in the Kulti strike notice, the first relates to the failure of the Company to grant all the demands of the Federation according to the settlement of 1937. It has not been suggested that, so far as the Kulti workers are concerned, there has been any break down in the attempt to resolve grievances under this head by discussion and correspondence, nor is there anything to show that matters had reached such an acute stage that a strike was the only weapon left to the Federation. The other grievances refer to the manner of the impending retrenchment, in regard to which the strike notice is the first communication addressed to the Company.

In these circumstances the Board is unable to make any recommendation that the Kulti workers are entitled to strike pay.

Mr. Homi dissents from this finding in his separate minute.

Issue No. 5.

Should the 35 men who reported between the 31st July and the 3rd August be reinstated?

This issue has arisen in the following manner: Under the Terms of Resumption of Work, the men were to be allowed seven days' time from the date of resumption to rejoin (Appendix, page 96). Work was actually resumed on the 21st July. Allowing three days' grace, in addition to the seven days stipulated in the terms of resumption, the Company reinstated all who reported up to and on August 1st. Between August 1st and August 3rd some 100 men reported, the number has not been precisely given. Of these the Company re-engaged 65, and some 35 men approximately have not been taken back.

The Federation claims that all these men should be taken back, and cites as a precedent the action of the employers in the Cawnpore strike. This "precedent" is not of any service to the Federation for as the mills in Cawnpore were delayed one day in re-opening, the labour was allowed one day's grace. In the present case the labour was allowed seven days, and then another three days' grace in addition.

In the result the claim is reduced to that of one man, Dhani Singh, who appeared and gave evidence before the Board (Appendix, pages 121, 152 and 153). He stated that he returned to Barakar on the 15th July but fell sick. He appeared before his foreman on the 2nd August with a doctor's certificate, but was not taken on.

The Board finds that the matter of his reinstatement may be safely left to the Company, which has stated that it does not refuse to re-engage any of the men who turned up after August 1st—though they cannot claim re-engagement as of right—and will consider any such applications when there are jobs.

Issue No. 6.

What compensation, if any, shall be paid to the Kulti workers under paragraph 3 of the Terms of Resumption of Work, 1938?

This issue has been framed to meet the case of those workmen who are referred to in paragraph 3 of the terms of resumption of work, 1938.

The Federation claims that these men should be paid nine months' wages to cover the nine months referred to in paragraph 3 plus twelve months' wages as compensation, making twenty-one months' wages in all.

The Board sees no reason to distinguish the cases of these workmen from those referred to in paragraph 4 of the Terms of Resumption, and as their reduction coincides with the general retrenchment effected owing to surplus labour recommends that they be paid one month's wages (26 days of the existing wage rate) for every completed year of service.

Mr. K. C. Mahindra, in his separate minute, dissents from this recommendation.

ESTABLISHMENT.

Issue No. 1.

Should the establishment staff be granted sick leave as claimed?

Should the Work's Superintendent be allowed discretion in the granting of leave?

Should the staff be allowed privilege leave as claimed?

The claims of the establishment (Appendix, page 92) are set out in item 3(*a*) and (*b*) of the staff grievances formulated on the 7th July 1937:—

(*a*) Sick leave to be 1st month with pay, second month ½ pay, 3rd and 4th month lump sum; and rest without pay.

(*b*) Privilege leave should be one month, and casual leave 14 days.

It was contended on behalf of the establishment that there could be no reason to distinguish between the case of a workman and of a member of the establishment so far as sickness is concerned, that neither voluntarily courted sickness, and that neither should be penalised if he did fall sick. On this argument the establishment claimed sick leave as stated above, with full pay for the first month of sickness, half pay for the second month, a lump sum within the discretion of the management

for the third and fourth months, and leave without pay for the remainder of the sickness. The establishment made a special point that no discretion should be allowed to the Superintendent in the matter of sick leave.

The Company thought that no case had been made out for altering the special leave rules of the establishment, and held that there could be no comparison between the workers and the establishment. It further pointed out that the rules are elastic, and in particular cases are generously interpreted by the Superintendent in the exercise of his discretion.

The leave rules of the uncovenanted staff show that members with over one year's service are entitled to 14 days' sick and casual leave, *plus* the Pujah and holiday leave up to ten days per year, *i.e.*, a total of 24 days' leave with pay per year.

The Tata Iron and Steel Co., Ltd., allow its uncovenanted staff one month's leave after twelve months' service, and in addition grants five days' casual leave a year to cover sickness, private affairs or any other urgent reason.

The Board is not impressed with the argument that the establishment and the labour should be treated on the same footing in the matter of sick leave. As the conditions of service differ, so must the rules governing that service differ.

The Board recognises that after a term of service a period of leave is essential for purposes of recuperation, and considers that adequate provision should be made therefor. It accepts the proposal of the Federation that the present leave provisions should be consolidated, and that one month's leave should be earned by twelve months' service. The intention behind this recommendation is that an employee shall spend the leave for recuperation, and in order that the intention may be observed, the Board recommends that an employee who fails to take advantage of the provision after twelve months' service shall forfeit the leave he has earned; it further recommends that under no circumstances shall such leave be allowed to accumulate.

Cases will inevitably arise in which a rigid application of the rules may cause hardship to the individual. For this reason the Board agrees that the discretion of the Works Superintendent should remain unfettered. From the instances produced before the Board there is no room for doubt that his discretion has been generously exercised in the past, and the Board has every reason for confidence that it will in the future be exercised with equal liberality.

Mr. K. C. Mahindra has recorded a minute of dissent.

Mr. Homi has also recorded a separate note, concurring in the finding with the proviso that the leave be allowed to accumulate "up to the maximum allowed for a period of two years."

Issue No. 2.

Should the provident fund contribution be increased to one month's pay?

Should the Company's contribution be payable irrespective of the dividend declared?

This issue was framed with reference to item 4 of the list of grievances of the establishment staff of the 7th July 1937 (Appendix, page 92.)

The present position is that the Company contributes 5 per cent when it declares a dividend of 7½ per cent. or over.

The establishment wishes that the rate of contribution be raised to 12½ per cent., and that the Company's contribution be made payable irrespective of the dividend declared

The Company objects to any alteration on three grounds. It foresees legal complications and difficulties inasmuch as the Fund embraces old employees of the old Bengal Iron Co. It is reluctant to commit itself to recurring financial commitments involved in the payment of the contribution irrespective of the declared dividend: and it sees no reason to alter the terms of a fund which has been running for sixteen years.

As the Provident Fund Rules are under revision it was ultimately agreed that both questions should for the present be answered in the negative, and that no alteration should be made in the existing terms of the Fund pending such revision

Issue No. 3.

Should the grade and rate of increment be revised and fixed at the scale suggested by the establishment?

The present "graded pay system" for the establishment staff was introduced with effect from the 1st September 1936. Under the system, the establishment staff has been divided into two groups, the "clerical" and the "works staff" according to the nature of the duties done by each. Each "job" is graded according to its value to the Company, without any reference to the individual engaged thereon

In the "clerical" staff there are five grades:-

Grade.		Minimum	Maximum	Increment		Period of years.	Increment percentage on initial salary.
		Rs	Rs	Rs.	a		
A	..	30	35	1	0	5	3⅓
B	..	35	45	1	8	7	4·3
C	..	45	60	2	8	6	5½
D	..	60	80	3	0	7	5
E	..	80	120	4	0	10	5

And in the "non-clerical" or "works" staff there are seven:—

Grade No.		Minimum.	Maximum.	Increment.		Period of years covered by grade.	Increment percentage on initial salary.
		Rs.	Rs.	Rs.	a.		
1	..	30	35	1	0	5	3⅓
2	..	35	50	2	0	7½	6
3	..	50	75	3	0	8	6
4	..	75	100	4	8	6	6
5	..	100	150	6	0	8	6
6	..	150	225	9	0	8	6
7	..	225	335	13	8	8¼	6

It will be noted that in each schedule a Rs. 30/35 grade has been inserted, partly to look after the man who never improves, but mainly to act as a training grade for young man.

At the first hearing, the establishment desired to replace the clerical staff grade by the following grade:—

A—Rs. 35 to Rs. 75 by annual increment of Rs. 4.

B—Rs. 75 to Rs 105 by annual increment of Rs. 5.

C—Rs. 105 to Rs 135 by annual increment of Rs. 6.

The only suggestion put forward with regard to the Works staff was that the initial grade might rise from Rs. 35 to Rs. 65 by annual increment of Rs. 4.

Ultimately the following grades were proposed:—

Establishment Staff.

Office Staff—

A—Rs. 35 to Rs. 75 by annual increment of Rs. 4.

B—Rs. 75 to Rs. 100 by annual increment of Rs. 5.

C—Rs. 100 to Rs. 125 by annual increment of Rs. 5.

D—Rs. 125 to Rs. 150 by annual increment of Rs. 5.

Works Staff—

A—Rs. 45 to Rs 75 by annual increment of Rs. 5

B—Rs. 75 to Rs. 150 by annual increment of Rs. 6.

C—Rs. 150 to Rs. 225 by annual increment of Rs. 9.

D—Rs. 225 to Rs. 335 by annual increment of Rs. 13-8.

Both the Company and the establishment are agreed that there shall be several grades, and it is evident, from a comparison of the existing and the proposed grades, that the main difference is to be

found in the initial grade. They may therefore be scrutinised in the light of the various claims appended to item 2 of the staff grievances enumerated on the 7th July 1937 (Appendix, page 92):—

(*a*) Minimum salary should be Rs. 35 per month.

The minimum wage used to be Rs. 25, but after an investigation by the Works' Superintendent, it was raised to Rs. 30 in 1936.

The claim that the initial salary should be Rs. 35 is put forward on three grounds:—

(1) The clerks themselves think Rs. 30 is too low.

(2) The Company can afford to pay more.

(3) (Somewhat naively) the clerks already in service would like their own relatives to whom preference is to be given over outsiders under item 15 of the list of grievances—to start at Rs. 35.

The Company claimed—and the establishment admitted—that the Company could obtain as many clerks as it required at Rs. 30. It was also conceded that the figure compares favourably with that given by similar establishments This being so, it cannot be held that the reasons advanced in support of the claim would justify the raising of the minimum salary, the more so as this salary was fixed only in September 1936.

The ultimate grade suggested by the establishment for the works staff fixes Rs. 45 as the initial pay in Grade A. No reason was given why this distinction was ultimately made between the clerical and the non-clerical staff, or why the figure was raised from Rs. 35 suggested in the earlier stages of the hearing.

The Board therefore finds no reason to alter the existing minimum salary, either in the case of the clerical or of the non-clerical staff.

(*b*) Lowest rate of increment should be Rs. 4 only.

As no reason was ever given why this figure was taken, the Board cannot find that the lowest rate of increment should be Rs. 4.

(*c*) Increment should in no case be stopped.

This claim was amended to read: "Increment should in no case be arbitrarily stopped". "arbitrarily" being interpreted to mean "without due cause."

As the Company stated that no increment is ever stopped without giving the man affected a chance to state his case, and as the establishment accepted that statement, no further finding is required of the Board.

(*d*) No degradation should be made This claim was withdrawn by the establishment.

(*e*) Promotion to the higher grade should be considered immediately on completion of lower one.

The establishment explained that it did not insist on "automatic" promotion, but would be satisfied with an assurance from the Company that within one year of his attaining the maximum of any grade, an employee's claim to promotion to the next higher grade would be considered.

The Company stated that this was in fact done, and that, in the event of any vacancy, applications were invited, and a suitable man promoted.

As this assurance was given and accepted, no issue was raised.

(*f*) Minimum starting of the higher grade should be given in case of promotion.

The Establishment cites the case of Gouri Shanker Dass. It is stated that he is still drawing Rs. 50 though he is doing a job in the grade, Rs. 75 to Rs. 100.

The Company's case is that Gouri Dass was engaged on the 1st January 1932 as Weighbridge clerk on Rs. 40 per month. By the 1st March 1938 he had drawn two increments of Rs. 2 each, and was getting Rs. 44 per month. As his job was at a "dead end" and he had no chance of promotion, it was decided to try him out as a yard foreman, and, while on trial, he was paid Rs. 50 per month as the job had not been finally graded.

It is indisputable that since March 1938 this man has been working, whether on trial or otherwise, on a job which is graded at Rs. 75 to Rs. 100. He is working on one shift. There are two other men on the other two shifts, and each of them is drawing Rs. 75. Since March Gouri Shanker has been taking his shift—and his responsibility—just as the other two, and the Board is of opinion that there is no reason not to pay him the starting pay of the post, *i.e.*, Rs. 75, with effect from the 1st March.

The Board would suggest to the Company the creation of posts as Junior Yard Foremen in the grade of Rs. 50 to Rs. 75 to cover the cases of such employees as Gouri Sankar Dass whose competence as Yard Foreman the Company wishes to test.

Issue No. 4.

Should all members of the establishment be paid one month's salary as bonus each year at the time of the Pujas?

Should they be permitted to participate in the Company's extra wages scheme?

The Board is of opinion that the demand for one month's salary as bonus each year is unreasonable.

On the alternative claim the argument is put forward that as the Company's profits are earned by the combined efforts of the workmen on the one hand, and the clerical and supervisory staff on the other, there is no justification for any discrimination in the matter of the extra wages earned by the joint labours of both.

The Company justifies the discrimination on several grounds. It is contended that the conditions of service are entirely different, the establishment enjoying a security of tenure denied to the labour which first comes under reduction in times of depression: that the extra wages scheme was devised to satisfy labour's demand for an increase in wages: that it is desirable to retain a discretion in the hands of the management in rewarding meritorious work on the part of the higher grades; and that if the principle were conceded it would be difficult to define its application in respect of the Calcutta and London staff.

The Board finds no valid reason to confine the extra wages scheme to those employees who are on the daily labour muster rolls, to the exclusion of the monthly rated staff. Such a distinction undoubtedly operates to the prejudice of certain classes of the employees such as the Supervisory and Junior Operational staffs. On principle there can be no justification for their exclusion. It is not necessary to extend the principle to the Calcutta office, for it is possible to draw a natural line of distinction between the employees at the plants and those at the Calcutta office. The Board therefore recommends that the establishment be allowed to participate in the scheme from the present financial year, *i.e.*, from the 1st April 1938.

Mr. K. C. Mahindra dissents from this recommendation in his separate minute.

Issue No. 5.

Are members of the establishment entitled to overtime pay?

Should they be treated as workmen and paid overtime on the same scale?

The claim for overtime was limited to the clerical staff.

The Company challenged the establishment to point to any concern, either public or private, which paid overtime to its clerical staff. No instance was quoted—and the Company stated that it did not propose to create a precedent in this respect.

The Board finds that the hours of work of the clerical staff are normal, and any extra hours are covered by the conditions of their employment. It is therefore unable to make any recommendation that the clerical staff be paid overtime, and sees no reason to accept the plea that the clerical staff should be treated as labour.

Issue No. 6.

Should the shiftmen be allowed 24 hours off between shifts each week? If so, how is this to be arranged?

The establishment claims that each shiftman should get 24 hours off between shifts, and suggests that the shift cycles be arranged to allow of this being done.

The Company urges the practical difficulty, and offers to consider any alternative scheme that the establishment might evolve to solve the problem. No alternative scheme has been put in.

The scheme now followed was arranged in consultation with the Factory Inspector. In operation it means that once in every three weeks, when he works back from "C" shift through "B" shift to "A" shift, a shiftman does not get 24 hours off between shifts.

As no alternative scheme has been put forward, the present scheme must be maintained.

The tentative suggestion that the Company might engage a "relieving" force is not practically feasible.

Issue No. 7.

Should the establishment staff be paid acting allowance as labour?

This claim has been confined to the clerical staff. The establishment is desirous that a clerk acting for another shall be paid acting allowance, that he shall receive the minimum pay of the grade in which he is acting.

The Company objects on two grounds:—

(1) that members of the establishment are on a monthly rate,

(2) that, just as their hours are elastic, so, within limits, the nature of their work is elastic,

and further asserts that acting allowance is unknown in Calcutta establishments.

The rules in force in the Tata Iron and Steel Company are as follows:—

"Any employee belonging to the superior or clerical staff, when acting in a higher post for a month or more, shall draw the pay of his substantive post plus 20 per cent. of the pay of the post in which he is acting, or if such post is on a graded scale, 20 per cent. of the minimum of the grade, provided that the total emoluments so drawn shall not exceed the pay of the higher post or the minimum of the scale of the higher post if such post is on a graded scale."

"No acting allowance shall be given as provided in the above rule unless the post in which an employee is acting involves the undertaking of higher responsibility or more arduous work than is involved in the substantive post of the employee, *e.g.*, a clerk on Rs. 63 in a grade of Rs. 55—4—75 will not get any acting allowance if he acts in the place of a clerk on Rs. 71 in the same grade, as such work does not involve the undertaking of higher responsibility or more arduous labour."

The Board is of opinion that when an employee belonging to the clerical staff acts in a higher post for a month or more, and that post involves the undertaking of higher responsibility than is involved in his substantive post, he should receive, as acting allowance a sum which, together with his substanive pay, will amount to the minimum of the scale of the higher post.

Issue No. 8.

Have there been any instances where members of the staff have not been allowed five minutes grace in daily attendance, but have been fined a day's pay for such late attendance?

The establishment claimed that no "grace" at all was allowed to the staff, and that any late attendance was punished by a fine which frequently amounted to a day's pay.

The Company contended that five minutes' grace was allowed but that late attendance above that grace was punished, first by a warning and then by the imposition of a small fine. A statement was filed showing the fines imposed from January, 1935, to date. (Appendix, page 167.)

For the establishment five witnesses were examined (Appendix, pages 125-126). Their evidence did not support the case set out. S. Ghati of the maintenance shop says he was once late between 1931 and 1933—he cannot remember the year. He was five minutes' late and was fined 6 annas. He was then drawing Rs. 15 per month as an apprentice. G. C. Sadhu of the General Stores draws Rs. 63 per month. He admits that he is generally late in attendance, ten or twelve times a month, by ten, fifteen or twenty minutes. Sometimes he is fined 8 annas and sometimes 4 annas a month. S. K. Roy of the Accounts Department used to be late two or three times a month in 1936. At first he was warned and then fined 8 annas a time for three or four months, since when he has checked his fault. He was then drawing Rs. 43 per month. Dakshina Lal, who draws Rs. 16 per month in the Accounts office says he was once late by two minutes in 1934 and was fined Re. 1. Kapildeo, drawing Rs. 18 a month in the same office, says he was once late by two minutes in November 1934, and was fined Re. 1.

The evidence adduced does not establish the grievance recited. The Board observes that since January 1935 only in the case of G. C. Sadhu have the fines for late attendance exceeded 8 annas per month. He was visited with fines of Re. 1 on three occasions, in August 1935 when he was late 12 times during the month, in September 1935 when he was late 7 times, and in January 1937 when he exceeded the "grace" allowed on 14 occasions.

This matter has ultimately been left to the discretion of the Board, and the Board sees no occasion to pursue the matter further.

Issue No. 9.

Is any distinction made between members of the Covenanted staff and the establishment in the matter of medical aid?

Have members of the establishment been forced to buy outside the ingredients of prescriptions which are supplied free to the Covenanted staff?

The Company claims that it knows of no distinction between the two classes of employees in the matter of medical aid.

The grievance of the establishment is of a somewhat peculiar nature. It is conceded that the staff get free medical advice and free hospital treatment. But the complaint is lodged that if a doctor prescribes a certain medicine, and one of the ingredients is not available in the Company's hospital, the patient has to purchase it himself from outside, bring it to the hospital, and then have the prescription made up.

The evidence led (Appendix, pages 122, 124) does not support the grievance as framed. Two witnesses were examined, T. C. Ghosal and H. P. Goswami, but their evidence did not sustain the grievance. T. C. Ghosal said that he had been obliged to purchase injections and tonics from outside at his own expense. H. P. Goswami spoke of an illness of more than two months' duration in 1934 when he was on leave. No particulars were afforded of the peculiar grievance in either case. The Company cannot be expected to provide tonics and proprietary medicines, nor does it undertake to do so.

H. P. Goswami, as the clerk who posts the bills in the Bill Register, stated that he was in a position to prove that all the bills for all the medical expenses of the covenanted staff were paid by the Company, but he did not particularise this general statement.

In the result the Board finds no evidence to support the grievance framed, and no evidence to rebut the Company's claim that in this respect no distinction is made between the covenanted staff and the establishment. It is satisfied with the Company's assurance that no such distinction is made.

Issue No. 10.

Have there been any instances where old employees have been superseded by new appointments?

The Company called on the establishment to give particulars of instances where such supersession had taken place.

The case of Chandra Bhusan Das, pay clerk, Accounts Department, was cited, and it was stated that he had been promoted to Head Pay Clerk superseding Profulla Ghosh.

Neither Chandra Bhusan Das nor Profulla Ghosh was examined. In their stead Ajit Mukherjee was called upon to give evidence (Appendix, page 125). He only joined the Company on the 21st July 1938 in the Accounts Department, and is on three months' probation. He cannot state in whose place he was engaged, nor can he speak of the other clerks in his department.

As no other evidence was tendered in support of this grievance, the Board can only find that the grievance has not been proved.

Issue No. 11.

Have there been any cases of incivility on the part of officers towards members of the staff?

Has the Company failed to take appropriate action on such cases?

This grievance was not pressed. The Company declared that it had never approved of and would never tolerate incivility on the part of its officers. The establishment was satisfied with this expression of the Company's attitude, and withdrew from prosecution of this grievance.

Issue No. 12.

Should preference be given to the sons and relatives of members of the staff at the time of new appointments?

The Company agreed that, in deciding between two candidates of equal merit otherwise, preference should be given to the one with a relative already in the service of the Company, in accordance with the existing practice. It reserved the right, however, to place the

new entrant in whatever position it chose, holding it undesirable both in the interests of the Company and of its employees, that relatives should be serving in the same department.

The establishment accepted this statement of the Company's policy in the matter of new appointments. No further decision by the Board is therefore necessary.

Issue No. 13.

Should employees who have passed through the Company's Technical School, be taken on the staff establishment roll?

This issue was framed on the claim of the establishment that labourers on the muster roll should be taken in as supervisors when vacancies occurred.

The Company pointed out that the majority of the men attending the classes were already on the establishment roll.

The Company undertook to give consideration to such cases, but could not guarantee employment. This undertaking was accepted by the establishment.

Special Issue A.

Are the members of the establishment staff entitled to join the Labour Federation?

The determination of this issue has been objected to both by the Federation and by the Company. The position of the Company is made clear in the following letter:—

Directors' Bungalow,
Kulti.

Burn & Co.

7th September 1938.

The issue "A" as framed reads as follows:—

"Are members of the establishment staff entitled to join the Labour Federation?"

The Board of Conciliation has been set up "to go into the various points in dispute between the parties." The materials before the Board for the purpose of framing the issues are—

(*a*) Terms of resumption, dated the 17th July 1938. (Appendix, page 96.)

(*b*) Joint statement by the Labour Federation and the Company, dated the 17th July 1938. (Appendix, page 95.)

(c) Statement of the case by the Labour Federation. (Appendix, pages 99 and 100.)

(d) Statement of the case by the Company. (Appendix, page 100 onwards.)

Both in the terms of resumption and the joint statement [(a) and (b) above] the Company has specifically excluded from the purview of the Board the question whether the establishment staff can be members of the Labour Union or not (*vide* clause 9 of the terms of resumption, and paragraph 4 of the joint statement).

The Labour Federation neither in their statement of the case, nor in the subsequent arguments has asked the Board to frame an issue on this subject.

I agree that in the Labour Federation's notice to strike prominence is given to the demand that the "Company should recognise the establishment employees as the members of this Labour Federation." It is also arguable that unless this particular "grievance" is ventilated it may continue as a source of misunderstanding between the management and the employees which it is desirable that the Board should endeavour to remove. From the point of view of conciliation and avoidance as far as possible of future friction I agree that the issue "A" as framed above should be considered by the Board.

There remains however one difficulty. The findings of the Board, constituted as it is under the Trades Dispute Act are not mandatory, but will be recommendations for the settlement of the dispute. But in the opening paragraph of the joint statement referred to above (b) there is the unqualified statement that both the parties to the dispute "agree to abide by the decision of the Board." And as the questions arising under issue "A" as above have been specifically reserved by the Company, it is to be understood that the findings of the Board on this issue will not be "binding" on the Management.

I suggest therefore that the report of the Board should be drawn up in two sections—one dealing with such issues and findings thereon which will be binding on both the parties, vide paragraph 1 of the joint statement, and the second section dealing with such issues and findings thereon where there is no such agreement of prior acceptance.

K. C. Mahindra.

The observations which follow are therefore to be regarded as "obiter dicta" on the part of the Chairman, and not binding on either party.

It is indisputably desirable that the establishment should have some organisation to represent its interests. It is equally undesirable that that organisation should be the organisation which represents the interests of labour, for the interest of the labour force and the supervisory staff must often differ. Not only is this inevitable in theory, but it has proved so in actual experience.

The establishment is divided into four branches. First, the uncovenanted supervisory staff, in direct charge of labour; second, the clerical staff, the work of which is often of a confidential nature;

third, the junior operational staff, forming the link between the supervisory staff and labour; fourth, the Watch and Ward, responsible for the maintenance of order.

The Company insists that its establishment staff shall not join the Labour Federation. It takes its stand on the firm ground that it cannot risk any clash between an employee's duty to the Company and his duty to the Federation, nor can it view with equanimity membership of the same Federation with the same interests by the supervisory staff and the labour it supervises.

There can be no community of interests between the labour and the clerical staff or the Watch and Ward. So far as the supervisory staff is concerned it is quite clear that a man in some authority, who, by virtue of his position gives orders to the labour which may subsequently form a cause of difference between the Company and the Federation, should not be allowed membership of the Federation.

There is only one solution of the difficulty—the formation of a separate union for the supervisory, clerical and Watch and Ward staffs. New recruits to these branches will be able to join the new union, such workmen as may be transferred from the muster roll to the establishment being granted the option of either remaining on the muster roll and retaining membership of the Federation, or joining the establishment and becoming members of the new union. Such members of the establishment as have already joined the Federation will be at liberty to resign. In the discussion before the Board the Federation stated that it would accept such resignations notwithstanding anything in its rules.

Some difficulty arises in the case of the junior operational staff. They are members of the establishment and do enjoy some authority. Yet, in distinction from the supervisory staff proper, they are "intimately allied to labour" and primarily men of the muster roll, and should be allowed to remain members of the Federation.

The above report contains an account of the proceedings of the Board, and of the steps taken by it to ascertain the facts and circumstances relating to the dispute submitted for its determination. It recites the different items of dispute and contains the finding and recommendation of the Board on each such item. It is now submitted to the authority by which the Board was constituted.

II.—Minute by Mr. K. C. Mahindra.

PRELIMINARY.

I had originally no intention of dissenting from my colleagues on any major conclusions and if I feel constrained to append this minute, it is because the arguments adduced in support of conclusions in a few issues do not appear convincing to me and in a few instance I feel that the problem has not been tackled as envisaged by the authority under which this Board of Conciliation was constituted. Section 7(1) of the Trade Disputes Act, 1929 reads:—

"Where a dispute has been referred to a Board under this Act, it shall be the duty of the Board to endeavour to bring about a settlement of the same and for this purpose the Board shall, in such manner as it thinks fit, and without delay, investigate the dispute and *all matters affecting the merits thereof* and the right of settlement thereof........."

My interpretation of this section is that the Board was enjoined not only to bring about a settlement but to investigate into the merits of each term of the dispute and give its verdict thereon. In the present instance, by mutual agreement, work was resumed pending the constitution of the Board and, further, both the parties to the dispute had agreed to accept the ultimate findings of the Board. Under these circumstances I consider full emphasis was desired, under the provisions of the Act, on the merits or demerits of the respective claims put up by the two parties. I feel that this aspect of the investigation has not been fully explored and in few instances conclusions have been reached without detailed examination of the merits of the rival proposals. I desire, accordingly on this score, to divide this minute into two sections; one part dealing with the issues where, without dissenting from the conclusions of my colleagues, I consider that a fuller investigation would have led to a proper appreciation of the Company's standpoint, and the second part dealing with certain issues where I definitely dissent from their judgment.

I.—EXPLANATORY.

A. Provident Fund (Hirapur Issue No. 3 and Kulti Issue No. 2).

The Company declared in 1937 its intention to constitute for the workmen "some form of savings fund to which both the Company and the workers contribute." This arrangement has a dual aspect—the savings aspect and the contributory aspect. My colleagues paying little or no attention to the savings aspect, and directing their scrutiny solely to the contributory aspect have found that the agreement of 1937 has not been literally implemented and have proceeded to the conclusion that as the workmen claim a contributory fund, the same should be instituted. The Company in the statement of their case invited the Board to investigate into the virtues of the provident bonus scheme which it had instituted and asked for the Board's judgment on the relative merits of the scheme as put by the Company and a contributory provident fund scheme as claimed by the workmen. The Company stated in conclusion that it

had no objection to replacing the bonus scheme by a contributory scheme but it wished it to be widely known that in the opinion of the Management the former scheme was in reality more beneficial for the workmen. My colleagues did not go into the merits of the two proposals and they have simply accepted the offer of the Company to replace their present scheme by a provident fund (contributory) scheme. I consider it was the duty of the Board to give their considered opinion on the merits of the respective proposals, before coming to a decision on this issue.

The provident bonus scheme was instituted by the Company in November 1937, to come into operation with effect from 1st April 1938. Its main provision may be summarised as follows:—

"On retirement a workman shall receive as provident bonus a sum equivalent to 5 per cent. of the total wages earned by him in the last year of his service multiplied by the number of whole completed years of service."

The draft outlines of the proposal were communicated to the President of the Labour Federation and his comments are contained in letter No. 929/37A. of 29th September 1937, addressed to Mr. Leslie Martin:—

"The present scheme fails to be a provident fund both in the sense in which we had discussed at the conference held at Hirapur on 7th August 1937, as also under the Provident Fund Act in that it does not take into consideration nor provides for the workmen's contributions— the tentative scheme is only one-sided and the *raison d'etre* of the scheme, *i.e.*, to provide for the workers' needs in old age, is lost sight of. The scheme does not encourage thrift nor compulsory saving."

Mr. Martin's reply of 27th October 1937 to Mr. Homi contained the following observations:—

"*Retiring gratuity and provident bonus.*

While agreeing with you that the scheme suggested by us is not a provident fund as generally understood in that the workmen will not be compelled to save so much as they would do if obliged to themselves contribute, apart from that they will get much the same benefits and as far as the Company is concerned the cost of our present proposals will be about the same. I cannot help feeling that you have not carefully considered the significance of our proposals. As an illustration, take a workman starting on a salary of Rs. 40 per month or Rs. 480 a year. On his contributing 5 per cent. of his salary, *i.e.*, Rs. 24 to the provident fund the Company's contribution will be an equal amount up to the end of the year. His total fund at the end of one year is Rs. 48 and this sum earns interest until the date of his retirement. The accumulation during the period of his service follows the same rule and if at the end of 15 years the workman is in receipt of a salary of, say Rs. 60 per month, his provident fund, allowing for accumulation of interest as well as a gradual increase in salary will be somewhere between Rs. 720 and Rs. 1,080. In this provident fund roughly one half will represent his own savings.

Under the proposals which we have drafted, the workman will receive 5 per cent. of his salary during the last year of his service, which we would assume in our illustration to be Rs. 60 per mensem multiplied by the number of years of his service (15). Carrying the above illustration further, the Company pays him as provident bonus at the time of retirement a sum of Rs. 540 which roughly represents the cost to the Company. This sum as suggested above would be about the same as the workman would receive from the Company if there had been a provident fund instead of the suggested proposals.

So far as the Company is concerned, by the institution of a provident bonus they do not save anything; on the other hand, as I have told you, the cost of administration of a provident fund will be heavy as you must also remember that from the nature of operations at the works there are bound to be large fluctuations in the labour roll, and which would necessitate the handling of an enormous number of accounts. As the incidence of such costs must be borne by the provident fund, we reckon that the workmen will suffer so far as their total emoluments are concerned at the end of their period of service."

It will be observed that Mr. Homi himself has stated in the above correspondence that the *raison d'etre* of the scheme is "to provide for the workers' needs in old age". From personal knowledge I know it for a fact that contributory provident funds have not, so far in practice, succeeded in attaining this object, for in 85 per cent. of the cases within my knowledge of provident funds covering about 20,000 members, the individual fund is continuously being mortgaged to the hilt and when old age arrives there is hardly any "provision" left. The Management after careful deliberation decided to place the savings aspect of the arrangement in the forefront and devised a scheme which, in my opinion, really attains the object which both the employers and workmen have in view.

In discussing the merits of the two proposals the attention of the Board was directed to the following important features:—

"*Difficulties inherent in the contributory provident scheme.*"

(1) The maintenance of over 15,000 accounts, which, owing to temporary but enforced absenteeism characteristic of the industry, would in a short time increase to 20,000, will involve heavy administration expenses. The provident fund maintained by the Tatas covers a little over 19,000 accounts and their expenses are Rs. 24,000 a year. It is reckoned that Provident Fund Accounts for Hirapur and Kulti workmen would cost about Rs. 18,000 annually, which will bear very heavily on the income of the workmen's fund.

(2) The costs of administration are a legitimate charge on the fund. The Company does not know of any private or commercial contributory fund where the costs of administration are not borne by the fund.

(3) The appointment of trustees, the method and manner of their election, the question of investment of funds, etc., are problems not easy of solution in the case of a worker's provident fund.

(4) One of the prominent features of a contributory provident fund is the restriction imposed on payment of employers' contributions —restrictions which are based on length of service and satisfactory conduct. For instance, in case of "Tata's" provident fund a member

is not entitled to receive the full amount of Company's contribution unless he has put in 15 or more years of satisfactory service and provided his services are terminated otherwise than for misconduct.

Even under the Provident Fund Act of 1925 the termination of services within 5 years renders liable to forfeiture that portion of the member's fund which is contributed by the employing authority.

(5) In a provident fund scheme provision has to be made for withdrawals or advances—and if it is a recognised fund under the Income Tax (Provident Funds Relief) Act, withdrawal is governed by the rules specially framed for the purpose. It has been pointed out to the Management that a workman's provident fund possesses the merit of providing the facility of easy borrowing on cheap terms for the members thereof. The Company considers this to be a grave defect of a provident fund for workmen. The cardinal idea of a provident fund is compulsory saving for old age and this idea is defeated if continuous drafts are made on the fund to meet demands, howsoever temporary. It has been experienced by the Management that this essential virtue is not fully grasped even by a higher cadre of employee who is supposed to possess a greater sense of responsibility than what the average workman does, and that in one particular fund aggregating over Rs. 6 lakhs more than Rs. 4½ lakhs is pledged as security against loans. A workman who receives his provident fund slip at the end of the year can prove for all ostensible purposes that his creditworthiness has increased by the amount of the fund at his credit. No matter what restrictions one may impose in respect of assignments or pledges or liens, this increase in his creditworthiness cannot be denied and as such his ability to borrow from the money-lenders has increased. The Company does not know any effective remedies which would prevent an aggravation of the borrowing habit which would almost be the certain result of a provident fund scheme.

(6) It has been suggested by the Labour Federation that a provident fund scheme be framed on the same lines as the provisions and rules laid down by the Provident Fund Act of 1925.

The special features of this Act are:—

(a) Compulsory participation by the employees.

(b) The member's fund is not capable of being assigned or charged.

These provisions can be repeated in any private fund rules quite easily but the protection given under (b) above does not get over the real difficulty outlined in paragraph 5 above.

"Merits of the Provident Bonus Scheme."

(7) It is quite simple in operation. In the scheme which has been introduced by the Company a workman receives on termination of his service (unless due to dismissal for misconduct or misdemeanour) a sum equivalent to 5 per cent. of his wages in the last year of his service multiplied by the number of years of service.

(8) The cost of this scheme to the Company is more than would be the cost of a contributory provident fund, based on the same percentage.

(9) There are no costs of administration as the scheme is very simple from accountancy point of view and involves one arithmetical calculation only when the payment is made.

(10) The restraints usually embodied in provident funds as outlined in paragraph 4 above are absent and as soon as an employee has completed 12 months' service his right to provident bonus is established and there are no qualifications attached to this right.

(11) As the workman receives no credit slip on account of accrual of this right he is unable to borrow on the security of this bonus and accordingly the bonus scheme represents a truer provision for old age than would an ordinary provident fund in actual practice.

(12) A legitimate criticism against the provident bonus scheme is that it does not promote compulsory thrift. No doubt the workman is not compelled to contribute, but the other half of his fund is safe and kept intact until he actually retires, and is not frittered away, through borrowing, before the fund is realised.

(13) The Company has further declared its intention to invite a commercial bank to open a branch office in Hirapur and offer savings bank facilities to the employees. This will serve the purpose of attracting voluntary savings of workmen and will earn for them a regular income.

It might be possible to improve upon this proposal by some sort of an insurance scheme on the lines of the scheme maintained by the Indian Post Office.

I feel that my colleagues have failed to appraise the merits of the provident bonus scheme and their decision to shelve the bonus scheme has been actuated solely by their respect for literal performance of an agreement, irrespective of the ultimate benefits which would accrue to the workmen in either case. The Company has indicated its willingness to replace their bonus scheme by a contributory fund scheme but, in my opinion, this is a retrograde step and will not serve the purpose of providing a fund for old age which is, after all, the only *raison d'etre* of such benefit proposals.

B. Festival Leave (Hirapur Issue No. 9).

The sole deciding factor influencing my colleagues in their decision is the practice obtainable at The Tata Iron & Steel Co.'s Works at Jamshedpur. My objections to the grant of this concession are :—

(1) The claim was only halfheartedly pressed by the Labour Federation. It finds no place in the strike notice. In the gradation of grievances this claim was put in the "C" class by Mr. Bose, the labour Advocate. Accordingly the complaint is not acute.

(2) The works at Hirapur are continuous operation works and is possible that denominational leaves may prove awkward from the operational point of view.

(3) The grant is tantamount to adding two days to the privilege leave. My colleagues have suggested safeguards against such interpretation but I feel that no matter what the safeguards are on paper, in practice the grant will resolve into adding 2 days privilege leave, which is already considered to be on the generous scale. On a reference to the General Manager of The Tata Iron & Steel Co., Ltd., I have been advised as follows :—

"*Festival Leave.*—Originally the idea was that the leave could only be availed of on festival days but as an employee could in practice

obtain leave on any day he wishes by saying, for example, that he wished to perform the sradah ceremony of his father or that he had to perform Satyanarayan Puja, it was thought best to allow these two days festival leave to be added to the two weeks' vacation and to be taken whenever desired. Of course these two days festival leave lapse if they are not availed of within the year and cannot be accumulated like the vacation leave."

I am not in favour of emphasing in any manner whatsoever communal aspects of living in industrial organisations. Nevertheless I recognise the probable impact on industrial relationship of the existing political tendencies in the country and, solely on grounds of expediency, I have subscribed to the recommendation of my colleagues on this issue.

II.—DISSENT.

A. Establishment Leave (Issue No. 1).

Beyond the mere setting up of a claim for privilege and casual leave of one month and 14 days, the Advocate of the Labour Federation did not adduce any arguments for the change, nor did he proffer any evidence in support of the contention that the existing leave benefits were niggardly and inadequate. Every worker desires a change for the better in his service conditions and in what he receives for his work. But it is one thing to desire a change and another thing to earn it.

Twenty-four days' leave in the year for this category of employee is, in my opinion, ample. That Jamshedpur offers something different and more ample is no argument, that the Government of India allows its servants one month's leave is also no argument, industrial concerns set up in a world of profit-economy and no State support, have no taxpayers to fall back upon in case of deficits and short-falls. In Western countries which provide the inspiration and guidance for extension and amelioration of workers' living conditions, the maximum leave period is three weeks for the establishment staff. I do not know of any industrial manufacturing concern in Bengal which allows its establishment staff leave with pay for more than three weeks in the year.

Besides, the conditions of living—wages, housing, educational and medical facilities, recreations, etc.—differ in each organisation and judgments based entirely on mere comparison of one item of living cannot be accepted as just and accurate findings on the matter at issue.

I do not consider any case has been made out for altering the present rules, and I therefore dissent from the recommendations of my colleagues on this issue.

B. Establishment and Extra Wages Scheme [Issue No. 4 and Kulti Issue No. 1 (8)].

This issue arose incidentally and did not form part of the major grievances. The original demand was for one month's salary as Puja bonus each year. The present practice is to pay a bonus to the establishment staff as and when profits permit, at the discretion of the Company. In the past, the Company has paid such bonuses to the

establishment staff in 1927, 1928, 1929, 1930 and 1937, that is, in every year when the Company made a profit. The amount of the bonus varies according to the years of service and the merit of the individual's work during the year.

When the original claim for one month's Puja bonus was argued before the Board, no evidence was produced of any real grievance on this score and the demand consisted merely of converting the Company's discretion about bonus payments into a privilege to be incorporated in the terms of service of the establishment staff, irrespective of the Profit and Loss Account of the Company.

The alternative claim did not figure in the picture until after the Advocate for Labour Federation felt nonplussed at his inability to adduce any arguments in support of his claim and the alternative demand was put in his mouth, so to say. The alternative demand is for participation in the Company's extra wages bonus scheme.

My colleagues justify the granting of this concession on the ground that the Company's profits are earned by the joint labours of both the workmen and the establishment staff and therefore on principle there can be no justification for the exclusion of the latter category of employees. In making this recommendation my colleagues have apparently forgotten to take note of the fact that the extra wages scheme was promulgated with the purpose of giving labour special emoluments in times of prosperity and this was done specifically to meet labour's claim for a general increment of wages when trade is good. This is recognised by the Board in its discussion of Issue No. 1 (Demand for 25 per cent. general increment). No claim has been made and no evidence brought forward to show that the wages of the establishment staff are low. In fact their service terms are superior in many ways to those obtainable elsewhere, even as compared to Jamshedpur, for the establishment staff at Hirapur receive free housing, free electric light, and water, etc., which their confreres at Jamshedpur do not receive.

I cannot help feeling that my colleagues have been guided in their decision by the practice adopted by the Tata Iron & Steel Company, whose profit sharing scheme embraces all their permanent employees—from the General Manager down to the menial servant. If such be the case and Tata's practice (which was introduced only a year ago) was their sole guide, I submit that my colleagues would find it difficult to meet the charge of mental inertia, inasmuch as they have refused to take into account not only local conditions but also the general factor of efficiency on which subject opinions may honestly vary according to one's experience.

I summarise my objections to the extension of the extra wages scheme as follows:—

(1) The genesis of the extra wages scheme is the formulation of a method by which workmen would receive higher emoluments. As would be clear from the arguments under Hirapur Issue No. 1, the demand for increase in wages of the workmen was satisfied by the extra wages scheme.

(2) No attempt has been made to prove that the establishment suffer from a low level of wages.

(3) The alternative issue was framed on a stray suggestion and does not appear in the original statement. Mr. Bose did not press for

it seriously, for even in his final arguments, while emphasising the need of a Puja bonus, he said "Puja comes every year, but extra wages scheme—??".

(4) Conditions of service of the workmen and the establishment staff are entirely different as, e.g., during depression times it is the workmen who come under reduction first. Tenure of service is more secure in the case of establishment staff.

(5) The discretion in the payment of Puja bonus is advisedly maintained by the Company inasmuch as the merits of work done by this class of employee become more and more specific and individual as the higher grades are reached as compared to the gang or mass work put in by the workmen. Bonuses accordingly should vary with the merit of work done, hence the justification for discretionary powers in the hands of the management for awards which are extra-contractual.

(6) If the claim for participation were held valid it would be difficult to define its application particularly in respect of the Calcutta and London staffs. Owing to the high degree of centralisation there are several administrative departments which cater for several joint stock concerns under the same Managing Agents (*e.g.*, share, cash, despatch, etc.), and it is difficult to allocate one particular set of staff to one Company.

My colleagues have recommended that it is not necessary to extend the principle to the Calcutta Office, but they give no reasons for this recommendation. If the one justification for extension of the scheme lies in the fact that it is the joint labours of all employees which yield profits, then exclusion of any one cadre of employee cannot be upheld. There is this apparent contradiction in the policy which has been advocated. Further, my colleagues have instanced the case of the Junior Operational and Supervisory Technical staff who are intimately allied with labour and accordingly their exclusion may be reckoned as borderline cases which are thereby prejudiced. The obvious recommendation should therefore have been the transfer of such staff to the muster roll and thus provide the enabling measure for their participation in the extra wages scheme.

The Indian Labour Commission of 1931, while discussing profit sharing schemes, gave their considered opinion that "in the present stage of industrial development, such schemes are unlikely to prove either useful or effective," and the Commissioners went on to recommend efficiency or production bonus in place of profit sharing schemes. In the case of establishment staff where individual merit and efficiency is an important and comparatively easily assessable quantity, a uniform all-round application of profit sharing bonus scheme cannot be productive of any greater efficiency or even contentment, which really are the two aims of such schemes. I am of opinion that the scheme instituted by the Tata Iron & Steel Company fails in this respect and accordingly is not a good example to follow. Even in the United Kingdom similar schemes do not embrace all the cadres of employees. "At the end of 1937, the total number of undertakings practising profit sharing in Great Britain and Northern Ireland was 410. Several firms had two or more schemes in operation for different categories of employees. These 410 businesses concerned employed about 429,000 work people, of whom only 264,000 were entitled to participate in the benefits of the schemes." (*The Ministry of Labour Gazette, London, July 1938.*)

For reasons stated above I dissent from the recommendations of my colleagues on this issue. I am doubtful whether all the members of the establishment staff would like the change, as people who would stand to lose by the change would be those who possess a distinguished record for long and meritorious service.

C. Compensation to Retrenched Employees (Kulti Issue No. 6).

Paragraph 3 of the terms of resumption relates to the case of 700 and odd workmen who were discharged owing to the blowing out of furnaces and closing down of coke ovens. It states *inter alia*:—

"When work starts on this furnace and the coke ovens they will be re-employed . . . . . These men will get no wages or compensation for the period of time that they will be out of work, but in case of those who will be re-employed their continuity of service will be recognised. This clause shall apply if the furnace starts within 9 months. If the work starts after 9 months, these workers shall be paid such compensation, if any, as the Board shall determine."

I cannot comprehend my colleagues finding that they "see no reason to distinguish the cases of these workmen from those referred to in paragraph 4" (*i.e.*, the cases of 800 and odd men who were discharged on account of being surplus). Surely if these 700 and odd blast furnace and coke oven workmen are not re-employed because of the decision of the Company not to relight the furnace, the loss of their service is due, not to their being surplus, but due to there being shortage of work.

Furnaces and coke ovens must periodically be closed down when their useful life is finished or fresh brick lining becomes necessary. This periodical shut down is inherent in the conditions of the industry and must accordingly be inherent in the conditions of employment of workmen engaged thereon. If, after repairs, trade conditions justify, the furnace is blown in and the persons rendered enforcedly idle are re-employed. The Company has agreed to allow such men the benefit of continuity of service despite the break. But if trade does not justify reopening of the furnace, it means that the group of employees concerned lose their jobs due to trade depression and scarcity of work. Under these circumstances it would be difficult to justify a further imposition on the employers in the form of "compensation" to be payable to the workmen.

On a point of principle, as long as employers carry out their contractual obligations and give to retrenched employees all their dues, including pay for the notice period, there can be no valid reason for any other "compensation". If this proposal to pay compensation were accepted it would mean that retrenchments done owing to shortage of work would involve a double burden on the Company. This position the employers would find difficult to accept.

I fail to see any similarity in the cases of the two groups of workmen, except that notices of discharge in either case have more or less coincided and this coincidence in dates cannot be held to be a valid reason for equal treatment in respect of so-called "compensation". I submit that if the right of the employers to regulate the number of men needed for their operations is not to be questioned—a right which has been specifically acquiesced to by even the Labour Federation (*vide* Kulti Union's letter of 23rd June 1938), and further when even the

"methods and pace of reductions", on which the trade unions take their stand are beyond the purview of the employers, dependent as they are on the physical life of the furnaces, I submit that under such circumstances the question of compensation can hardly arise. I accordingly dissent from my colleagues and find that no compensation should be payable.

III.—CONCLUSION.

I should like to make a brief reference to two other matters which do not strictly come under the purview of the Board, but where I feel that the Board should indicate the right action and the right procedure :

(a) Both the Company and the Labour Federation have signified their acceptance of the Board's recommendations. The terms and incidence of such acceptance should in my opinion be made more explicit. For instance, I envisage the settlement to hold good for a certain definite period, during which issues now raised and agreed upon could not be re-opened.

This Board has been set up, after a period of grievous loss and suffering to both the parties, to investigate and settle all the major grievances and when the Board's findings are accepted by both the parties it is only reasonable to hope that a period of comparative peace and settlement will follow. Numerous other questions will engage the attention of the Union and the Company but these should not develop into major disputes, for it is presumed that this Board has dealt with all such major matters exhaustively for some time to come. I recommend that the questions now decided should not be re-opened for a period of 5 years. I also take it for granted that the two branches at Kulti and Hirapur of the Labour Federation would become registered bodies in Bengal within a reasonable time and that their day-to-day management, at any rate in so far as contact with the Company is concerned, would be conducted in a more responsible manner than has hitherto been the practice. I am referring to the inchoate manner in which evidence was tendered before the Board, the lack of courtesy in correspondence and the numerous complaints one receives about the working of the Union Offices at the two places.

(b) Under paragraph 10 of the terms of resumption the two parties have agreed to the procedure to be followed in respect of future disputes. This is the first instance, at any rate in Bengal, when by agreement the processes of negotiations and conciliation have been placed in the forefront and it is definitely settled that no strikes or lock-outs should take place. The iron and steel industry is of growing national importance and for Bengal it is a key industry with a great future. The workmen and the employees represented in the Indian Iron & Steel Co., Ltd., have agreed to the procedure of utmost peace and I submit that the Government should interest itself in these processes and provide legislative sanction.

The merits of the proposal require no commendation, its justification lies in the possible danger of exploitation by outside parties who for their own selfish ends may desire to upset peaceful settlements.

III.—Minute by Mr. M. Homi.

Issue No. 1 (Hirapur)—General Increment.

A. Should a general increment of 25 per cent. over the present scale of wages be sanctioned?

Has the demand of such an increment as put forward in 1937 been met by the Company's extra wages scheme and participation in profits?

Alternatively

B. Was there any general wage cut or scaling down of wages in 1930-1932?

If so, have the cuts been restored?

If not, should they be restored now?

I prefer to deal with the questions above as a whole. I answer this issue A in the affirmative but I put the rate of general increase at 20 per cent. or two annas in the rupee, because—

(a) In the present circumstances, the iron and steel industry in India is in a prosperous state and can bear the burden of a general increase in wages. The profits made last year amount to some one crore seventy-three lakhs and fifty thousand (Rs. 1,73,49,804) and the increase in wages at both the places—Hirapur and Kulti, would cost a mere seven lakhs on the existing wages (Rs. 7,00,000) or 4 per cent. of the total profits.

(b) From no divident during six years 1931 to 1936, the Company paid last year (1937-38) 35 per cent. dividends and the year before that (1936-37) the dividends declared were 20 per cent.

(c) The Company's contentions that the shareholders have received only 1·8 per cent. return on their capital for the last 20 years has no bearing on the subject. In times of depression, a demand for increase in wages would be declared ridiculous. In prosperous times, increase in wages cannot be delayed by a mathematical calculation, which can prove most anything. The apprehension of coming depression is no argument, either.

(d) The Company's statement that the present wages are fair and compare well with other places has yet to be proved. No evidence on this point has been adduced nor any statistics produced. On the other hand, the Federation had declared that there had been a wage cut or scaling down of wages in 1930-32, but though the Union was unable to establish this satisfactorily as to the percentage of the cut imposed or if it was general, yet there is one thing to be said and that is that the Company has not categorically denied that there was either a wage cut or a scaling down of wages. It has said that in some cases "men on higher rated jobs were offered work on lower paid jobs in order to provide them with some sort of work and that 25 per cent. of such reductions would represent a grossly exaggerated figure."

My view is that it has not been found possible to make a proper comparison of the present wages with those prevailing in 1930-32.

This inability is due to the fact that the employers definitely rendered no help to the Board in determining this question—all they did was to ridicule this suggestion of reduction and to place some 300 muster roll and other books before the Board from which the labour representatives were asked to hunt up matters that might usefully support their contentions and that too, in less than a few hours in a day or two. This process has been very unsatisfactory and in my view unfair. The employers were in a position of greater knowledge and greater resources than a labour union. It is clear that partial admission of scaling down of wages even in one single instance places the onus of proof on the employers and as these conciliation proceedings were instituted on the agreement of both the sides to refer the dispute to a Conciliation Board, the Board could arrive at a just conclusion only by securing information and materials from both the sides instead of putting one side to the test and the other resting with the apologia that no case had been made out for the demand. It has not been stated to the Board that any of the scaled down wages had ever been restored to their original level, and that would certainly make out a case for increment.

The position has therefore been very unsatisfactory. The Federation had found itself unable to accept the offer of the Board for the appointment of a Commissioner to find out the materials for reduction of wages from the books of the Company. The cost involved in such commission would have been prohibitive and the time involved would have been equally great. The other alternative would be for the Government to depute a Special Officer to investigate the allegations and come to a finding itself or submit the materials to the Board for a decision. But as I have stated, even this may not be necessary for the Company's admission that there were instances where the wages have been scaled down and its silence on the subject of such restoration raises a presumption that cannot be ignored and would go to support the argument of the Union and to make out a case for increase in wages.

Now coming to the question whether the introduction of the extra wages scheme by the Company has met the demand of the workers for an increase in their wages, I answer the question in the negative. There were two demands before the Company in 1937—increase in wages and a share in the profits made by the Company. One was not at the expense of the other nor agreeing to accept the latter (profit sharing scheme) can be taken as any indication that the former (straight increase in wages) had been given up.

It has been stated by the Company that the prosperity may be only transient and periods of depression may soon set in. It may be so and yet it may not be so. The argument is not necessarily correct. Even if prosperity is of a temporary nature, there is evidently no reason why the workers should not join in this gain. Wages suffer whenever there is a decline in industry and there is no reason why workmen should not benefit when prosperity starts.

Further, to my mind, in order to ensure a period of complete industrial peace and good will, an increase in wages has been very necessary, for experience has shown that no matter how great strides are made in the improvement in service conditions and additions of amenities for the workmen, nothing seems to take the place in the hearts and minds of the workmen of the absence of any immediate, tangible monetary gain that even one pice of increase in their wages

would seem to fill. This psychological aspect ought not to be ignored in the relations between Labour and Capital and I desire to lay special emphasis on this point.

It has been suggested that after the grant last October (1937) of an ad interim bonus under the extra wages scheme, there was no further correspondence over the subject and that acceptance of the additional money under that scheme meant a giving up of that claim to general increment. That can be a correct argument as between two individuals and in a court of law. The application of the same line of argument to the case or relationships of labour and capital would be fallacious. Their relationship and claims stand on an entirely different footing. They approach more to the relations between two or more states—, political entities—than between two individuals and their disputes do not share the form nor decisions in a Court of Law. No claim can ever be given up nor that a claim kept in abeyance can ever be destroyed. Each party waits for the opportunity to deal with the other, in other words, claims are pushed as and when the conditions are favourable for their realisation.

In brief, I hold that a claim for increment of wages on the basis of two annas in the rupee would not be an intolerable burden upon the resources of the Company and what may happen when a depression takes place is no ground nor argument to deny the workmen this rise in their wages.

These remarks hold good in the case of the Kulti Works, where of course no question of reduction—partial or general—has been raised nor have to be dealt with and the recommendation equally applies there along with Hirapur for a straight general increase.

Issue No. 4 (Hirapur)—Sickness Benefit.

Three sub-issues have been framed in respect of this issue, viz.—

(*a*) Has the Company carried out its agreement of 1937 in regard to sickness benefit?

For reasons stated below, I unhesitatingly declare that the Company has not implemented its agreement.

(*b*) Was that agreement subject to the rules already in existence?

It was not and never intended to be, is my definite view.

(*c*) If the rules conflict with the agreed principle, should the principle or the rules prevail?

There can be only one reply to such a question and that is that the rules are ancillary to and do not and cannot be permitted to override the principle.

A brief résumé of the whole history behind the settlements will be of interest and help considerably in coming to a just finding on this issue.

A strike took place at Kulti Workshop on the 19th June 1937. A settlement was reached on the 26th June 1937. One of the terms and conditions of the settlement was embodied in Article No. 21 under head "Sickness Benefit"—"The present arrangement for sickness benefit will continue in operation, namely, on total unfitness for work when certified by the Company's doctor, a workman shall receive full

pay up to one month of his illness and half pay for the second month of his illness. Co-operation of the labour is invited to prevent malingering."

At the time of this Kulti settlement, it was felt that some adjustment was necessary in the light of this settlement for the Workshop at Hirapur (which was then under one and the same management as at Kulti) but no definite date was fixed for such discussion. In the meantime, a strike took place at Hirapur on the 16th July 1937. It lasted for three days and the workmen were advised by the Federation to go back to work unconditionally on an assurance being given that their grievances would be heard. At first July 31st 1937 was fixed as the date on which the discussions were to take place. An advance copy of the subjects to be discussed was sent at his request to Mr. Peeling, Works Superintendent, Hirapur, on the 26th July 1937. It was framed on the model of the Kulti settlement and contained all the essential principles embodied therein regarding terms and conditions of service, since it was felt that two sets of rule could not be permitted under one and the same Company or Administration. Unfortunately it was impossible for Mr. Homi to come to Hirapur on that date (31st July 1937) as he was isolated by floods in the river Suvernerekha from all means of communication and conveyance. Accordingly a fresh date—7th August 1937—was fixed up on which to discuss matters relating to Hirapur labour and that was done on that date. The discussions started from 10-30 a.m. and lasted till 10-30 p.m. Present were Mr. Martin, Chairman, Board of Directors, Mr. Peeling, Works Superintendent, Hirapur and Mr. Homi, President, Labour Federation. The formal replies to the various points were sent to Mr. Homi for signature by Mr. Peeling on 13th August 1937 and Mr. Homi returned the documents duly signed about the end of the month. At the time of discussions on the 7th August, Mr. Homi was, for the first time, shown a circular dated the 6th August 1937, *i.e.*, of only a day previous, dealing with Casual Leave and Casual Sick Leave Rules and Special Sick Leave Benefits Rules and this was said to have been brought out to implement the Kulti Settlement Terms of 26th June 1937 and the same set of rules was drawn up for Hirapur as was for Kulti, which could only have been done on the underlying desire of both the parties—the Company and the Federation—for a uniformity of service conditions applicable to both the places, and which, so far as the Federation is concerned, can be unhesitatingly proclaimed as the cherished end. A very lengthy set of rules could not have been seriously studied or digested nor could a considered opinion have been possible thereon in such a short time available as was on the 7th August and this is made plain in letter No. 830-37A. of 30th August 1937 to the Company from the Federation. It runs as follows:—

"At the time of our general discussions on matters relating to labour on the 7th instant, at Burnpur, I had stated that we would carefully examine the Leave and Sickness Leave Rules that you had made and make our considered representations thereon, since I had these rules given to me at very short notice. I am taking the opportunity to do so now..................".

It should be noticed that in both the settlements, two separate and unconnected items figure—one of privilege leave and another for sickness—items 8 and 21 in the Kulti Settlement and items 4 and 5 at Hirapur and they have not been and had never been meant to be

dependent one upon the other. It should be further noticed that since the Hirapur settlement followed the Kulti settlement, the claims put forward at Hirapur were based on the principles of the agreement reached at Kulti. In other words, there never was desired nor ever intended that the terms and conditions of service should be anything but uniform at both the places. An attempt has been made to distinguish between "sickness benefit" and "sick leave" but with all due respect to this opinion, it must be said that there is nothing in it, at least, no such thing was contemplated at the time of the discussions. "Sickness benefit" cannot be derived until a man "falls sick" and during that period, the man must be and is on "sick leave" and since the man is paid even though he does not work during that time, the monetary return to that man constitutes for him a "benefit" which is designated as "sickness benefit." In other words, the basis for "sickness benefit" is "sick leave" which he gets when he falls sick. Every privilege that a workman gets over and above his wages constitutes a benefit for him, and is grouped under that head.

It is further argued that "sickness benefit" can only be construed as referring to a continued sickness, which may continue for more than two months and that the Company's rules, which provide for a sickness for a continuous period of over 14 days (Rule No. 3 of Special Sick Leave Benefits) are really very generous and more than meet the demand as set out in paragraph 5 of the settlement, which is for a sickness of a month and more. I am not impressed with this generosity and I can hardly feel that the Company will make, and continue in, the mistake of being generous in this way. I have not met a capitalist of this type. But a possible explanation of this may be found later on in this minute of dissent.

Now coming to the circular itself, it is clear that the privilege leave of 15 days in a year has been split up into casual leave and casual sick leave, none of which figure in the terms of settlement, either at Kulti or at Hirapur, and a protest was lodged at the first opportunity in the letter referred to above (No. 830/37A. of 30th August 1937 for Hirapur and No. 903/37-A. of September 3rd 1937 for Kulti). It reads as follows:

"*Rule 2.*—We are not in accord with the breaking up of the privilege leave as contemplated in article No. 4 of our settlement into these classes. Sick leave has been placed in a class by itself, *vide* Article No. 5 of the settlement and no differentiation should have been made in the privilege leave which has been meant to enable a workman to have a respite from the daily grind, etc., etc.

If this leave is to be whittled down by any temporary or short term of sickness, the privilege or benefit vanishes and the object of the scheme frustrated. As a matter of fact privilege leave and casual leave are two distinct things and your circular has obviously mixed privilege, casual and sick leave all together..........................and the 15 days' privilege leave that we had put up as an issue was never contemplated to include casual sick leave."

In the same letter, observations have been made regarding special sick leave benefits, which are as under:—

"*Rule I.*—Should be omitted in the light of our observations on the score of casual sick leave. There should be no differentiation between casual and special sickness. A sickness is a sickness whether it lasts for a day or a month or even two and the sickness benefit that

we had contemplated in article 5 of our settlement was meant to cover sickness in general irrespective of any period."

The Kulti letter was in a similar vein and in identical language. Then followed a long and wearied course of correspondence and negotiations with Kulti and Hirapur between both the local and central unions and the management for the purpose of bringing about modifications of these rules to carry out the original intention and the principle behind it. The Federation wrote a letter No. 121/38A. on the 21st January 1938 to the Chairman of the Board of Directors, to which a reply was received on the 24th January 1938 among others to the following effect:—"I have your letter No. 121/38A., dated 21st idem. I note the points you mention in your letter and have sent a copy to our Works Superintendents at Hirapur and Kulti with a request that they should personally look into these matters. I have further requested them to communicate with you direct in reply thereto."

Then followed interviews with Mr. Thornton at Kulti, whereafter Mr. Thornton, the Works Superintendent, writes to say that he is trying to get in touch with Mr. Martin on these matters and hopes to let us know at an early date and followed by another letter, in which he states that he is glad to inform us that the matter has been settled and this was followed later on by a revised circular, dated 17th March 1938 wherein all mention to sickness for a period of 14 days and over entitling one to benefits under the scheme were omitted and the view point and the contentions of the Labour Federation were upheld. In other words, a belated justice was done and be it said to the credit of the Company that full amends were made and that some 2,000 persons who had qualified for the benefit but had not received same due to former interpretation were fully recouped.

But the position at Hirapur did not undergo any change. In other words, what was intended at Kulti, though withheld for a while were fully conceded but the Hirapur claims, modelled and based on Kulti settlement and put up with that intention, still continued denied to the workmen. A stand was taken by the Company that these sickness leave rules, even as they were, were very generous over anything existing, that they had led to malingering, an opinion hazarded by the Works Superintendent even when the cases were certified as unfit by the Company's Chief Medical Officer, an *ex*-I. M. S. man, that Hirapur was more healthy than Kulti and on the Company taking the question of leave, sick and casual, as a whole, an entirely unwarranted and mistaken stand, since both these questions were put up, dealt with and settled separate and apart.

In the terms of settlement, the demand and the reply are as under:

Sickness benefit.—Workmen shall be entitled, of all classes, to a sickness benefit of full wages for the first month of sickness—to half the wages for the next month of continued sickness, and thereafter according to the descretion of the management.

Reply of the Company.—Agreed to and rules are already framed for the purpose.

It will be seen that what the Company had agreed to was the demand as framed and put up to it on 7th August 1937, *i.e.*, the principle of the demand. And the Company stated that it had prepared rules for the purpose on 6th August 1937, meaning for the

purpose of carrying out the principle in actual operation. It cannot be said for a moment that the demand was accepted by the Company subject to the rules already framed. The demand was agreed to and rules are framed for the purpose of carrying out the demand. One cannot agree to the rules that have the effect of nullifying the demand and yet say that the demand has been agreed to. The language of the reply does not seem to us to be open to the interpretation put upon it by the Company.

Even granting that the phraseology of the reply is disputable, without admitting same, the difference can be settled by finding out the intention underlying the demand and of this, in this case, there is no doubt, but that the Hirapur intention was the Kuiti intention, for—

(*a*) Sickness benefit originally existed at Kulti.

(*b*) Kulti settlement was first arrived at on 26th June 1937 and Hirapur settlement came afterwards on 7th August 1937.

(*c*) Identical and common circulars were issued by the Company at Kulti and Hirapur, being No. W./Cir./4892 of 6th August 1937.

(*d*) Kulti circular was withdrawn and replaced by another dated the 17th March 1938, after an agitation that was identical at both Hirapur and Kulti.

It is argued that the Kulti circular was modified in the light of the legacy received by it from the old Bengal Iron Company's Accident and Sick Rules of 18th February 1921. This circular or its contents was never produced by the Company nor seen by the President of the Federation when he conducted negotiations for settlement at both the places and it was produced for the first time during the deliberations of the Conciliation Board. But this circular has no meaning. Labour is concerned with the latest settlement with the Company and as arrived at on 26th June 1937 and on 7th August 1937. It is however significant that even inspite of the legacy received by the present Company from the old Bengal Iron Company, it tried to interpret its agreement of 1937—which is very clear—in a way not warranted even by the phraseology.

Article 21 of the Kulti settlement of 1937 says:

"The present arrangements for sickness benefit will continue in operation, namely, on total unfitness for work when certified by the Company's doctor, a workman shall receive full pay up to one month of his illness and half pay for the second month of his illness."

Was there any warrant for the Company for framing rules whereby "if any person (*vide* Rule 3 of its Circular of 6th July 1937) is certified sick by the Chief Medical Officer for a continuous period of over 14 days, he or she shall be entitled to receive the following sick benefits:—

(*a*) Full pay for the period of sickness up to a maximum of one calendar month from the date on which the sickness commenced.

(*b*) Half pay for the immediately succeeding month or portion thereof if illness has continued."

The question naturally suggests where did the Company get the clause "for a continuous period of over 14 days" from. It does not exist

even in the legacy, of which Rule No. 3 of circular, dated the 18th February 1921, says:

"Injury sustained by workman or woman during his or her working hours and while on actual duty and which in the opinion of the Company's Senior Medical Officer is sufficient to cause total temporary incapability entitles the injured person to—

(a) Full pay for one month.

(b) Half pay for the succeeding month of such incapacity together with free diet allowance should the diet be of a special nature and so ordered by the Company's Senior Medical Officer.

(c) Any further benefit will be treated on its merits as a special case.

Rule No. 9 extends the same benefit to workers returned as sick. It says: Patients returned as sick will also receive the benefits described in paragraph 5, provided the sickness is not of a contagious variety or obtained through lack of reasonable care on the part of the patients."

Here also it will be noticed there is no 14 day clause and that sickness even if it is for any period from one day to one week or up to one month entitles the workman to claim sick leave pay, for of course, the workman must be on leave during that period. It is, therefore, impossible to ascertain wherefrom the Company secured this 14 day clause unless it be that it was found necessary to introduce this clause with a view to maintain the maximum period of leave benefits of all sorts within a period of one and a half month per year, which was the maximum allowable under the rules of the old Bengal Iron Company, to which it had succeeded, whereas under the new settlement with labour in 1937 at both the places the leave benefits of all sort had mounted to two months in a year as maximum. And yet this 14 day clause had been kept in operation from 1st August 1937 to 17th March 1938 until the march of events could no longer permit its retention at Kulti.

The Company has not placed before the Board any reasons for not carrying out the terms of its agreement—and the nature of the Hirapur agreement has got to be judged from the nature and history of the Kulti settlement—and the arguments like Hirapur being more healthy than Kulti, or that even the existing terms are more generous than what obtains elsewhere or that even at the plant of the Tata Iron & Steel Co., Ltd., there are no sick leave rules, have little weight in explaining the failure to implement the terms agreed upon. There is nothing strange in an employer being sometimes under the dire necessity of agreeing to terms which are far in advance of any existing practices and the workman can only progress through the establishment of precedents where he finds the soil fertile and the employers amenable to reason or under stress of circumstances. The gratuity and the profit-sharing schemes were borrowed from the Tata's (the latter was the inspiration of the Labour Federation) and planted into Hirapur and Kulti and it may be, to-morrow the sickness benefit will be transplanted at Jamshedpur. If the negative argument was allowed to prevail that what does not prevail elsewhere need not be given anywhere, human progress will be at a standstill. In some cases a direct jump has got to be made without taking the intervening steps

and Hirapur had to jump on to full privilege leave and sickness benefits while Kulti merely stepped on to a mere extra 15 days privilege leave, with pay.

I am unable to agree with my colleagues either in their arguments or in their conclusions. Indeed, on that basis, it would appear that only a continued sickness of one month and more and nothing less than that that can come within the meaning of Article 5 of the settlement—a position that is bound to land us in ridicule. The workers are fighting for getting more than what is conceded them and the Company is not fighting for less than what they are at present giving. It is this half-way house position of the Company that is at present under assault and the solution of the problem lies in the deletion of the objectionable clause relating to 14 days and over of sickness in the rules framed under Article 5 of the settlement and not in any extension of concessions under Article 4 thereof.

I, therefore, am of view that the Company has not implemented its agreement relating to "sickness benefit, Article 5 of its settlement" at Hirapur and urge that the rules framed thereunder should be so modified as to bring it in line with the Kulti settlement and thereby carry out the original intention behind the negotiations.

Issue No. 6 (Hirapur)—Fortnightly Payments.

I cannot agree with the views of my colleagues. The workmen have found from actual experience that " fortnightly payments" in the strict sense of the term have operated to their disadvantage and confusion. The workman is mostly illiterate and his natural intellect is slow. It confuses him when he is paid at any odd date of the month, say for a period from 3rd to 16th of a month or from 5th to 18th of another month or from 30th of one month to 12th of another month and so on, for the Company makes payments for periods varying in dates on fixed days of the week, which again may fall on any odd date. His credit with the shopkeepers and calculation of interest on loans are all in the doldrum. Without placing itself in the position of the workman, it is not possible for the Board to assess his mental processes and reactions. It is sufficient that he has raised an outcry and as early as December 1937, this matter had been brought to the notice of the Company, *vide* minutes of discussions of 28th December 1937, paragraph 8, between the Federation and the Company at Kulti. The Company agreed to look into the matter, but like many things, it has stood there ever since. It is essential that the wage period shall be fixed and in its simplest form, *i.e.*, two periods in a month, 1st to the 15th and 16th to the 30th or 31st of every month. Objections taken as to what happens if the month is of 28 days or 29 days as in some February or even 31 days as in alternate months have no substance. They simply form part of the wage period, one day more or one day less. The Company emphasises on its day of payment, regarding which the workmen are indifferent. Their proposition is fair and simple. For wage period from the 1st to the 15th, they want payment from the 22nd to the 25th of that month and for the wage period 16th to 28th or 29th or 30th or 31st, they want payment from the 7th to the 10th of the succeeding month. It is stated by the Company that it takes them two to three days for disbursement of wages and that it should have at least seven days to prepare their rolls. The demand of the

workmen exactly tallies with the Company's requirement and no special hardship is or would be entailed on it if it switches on to bi-monthly payments. At Kumardubi and elsewhere, such systems prevail and can be operated at Hirapur and Kulti as well. The Company's objections are academical. There can be no apprehensions from the provisions of the Factory Act and in fact, its representative admitted it was not an insuperable obstacle. The objection on the score of the day of payment falling on a Sunday is a really naive one—the solution is plain, payment can be accelerated or delayed by one day, provided always that the provisions of Payment of Wages Act are not infringed and no such infringement need ever arise. The objection on the score of difficulty in calculation of overtime or of the cost of printing new registers are equally feeble and cannot have been seriously put forth. It is a well known fact that capitalists are averse to any innovations and for them the *status quo* is an ideal form of existence. In any event, since the difficulties experienced as attendant on the system of fortnightly payments of wages could not have been foreseen at the time of the ballot, there is no reason for the continuation of a system that has undoubtedly operated to the workmen's hardships and confusion even if there has been a ballot thereon. A ballot on the amendment would be equally emphatic and unanimous.

I, therefore, am of view that the Company would be well advised to look to the facility and convenience of its workmen rather than take its stand on propositions that to us seem to have more argumentative value than substance. Bi-monthly payments are, therefore, unhesitatingly recommended.

Issue No. 7 (Hirapur)—Unskilled labour wages.

This issue has been urged in an alternative form, *i.e.*, should the wages of unskilled labour be raised for men from 8 annas to 10 annas or should the wages of these classes of worker be kept same at Hirapur as at Kulti?

I don't think much argument is needed over this issue. I will deal with the latter alternative only. At Kulti the cooly-labour is paid at the rate of nine annas per day and women at the rate of six annas per day. The rates at Hirapur are eight annas for men and six annas for the women. If the Federation had its way, it would have gone in for a straight fifteen rupees per month for women employees, as has been fixed at Cownpore and the rates of men employees varying in proportion. As it is, at Hirapur the rates are six annas for women, in line with Kulti. The only difference to be looked to is in the case of men employees. I propose that the rates at both Hirapur and Kulti should be the same, viz., nine annas for men employees of this category. It is conceivable that the skill of one man may differ from the skill of another, but I have been at a loss to understand that there can be a difference even among unskilled labour. I rule out this argument. The same amount of energy is involved in shovelling or digging or raising an object at Hirapur as at Kulti or for that matter anywhere. And Kulti and Hirapur are two Works, only about nine miles apart, under the same management and in the same district, doing practically same type of work, so far as unskilled labour is concerned. There can be no reason for this difference. It has been suggested that the rate of Kulti coolies was raised at the time of the strike in June 1937 from 8 annas to 9 annas by a misapprehension or mistake that the rate at

Hirapur was 9 annas and the rates were then brought in line. I do not desire to dispute or say anything against this thesis. All I can say is that that was the first time I heard this during the proceedings of the Board. But as one having taken part in the settlement of both the Kulti and Hirapur strikes in 1937, I may be allowed to say that had the position been so, I would have still urged and taken the one anna increase for these people and brought the rate to nine annas, for I was determined to secure for these poor class of labour a raising of their minimum wage rate and would not have rested till I had received it. In other words, the strike would have continued on this issue with what results, we now cannot say. But I would not have advised resumption till satisfaction was obtained on it.

Further, the Company cuts the ground under its own feet by quoting this "mistake" for the basic principle or idea underlying its quotation was that the Company then agreed to make the rates at Kulti uniform with that at Hirapur. This is exactly what the Federation is asking for—a uniformity of wages for unskilled labour at both the plants. In 1937, it was a case of Kulti brought up in line with Hirapur. In 1938, it is Hirapur that we want to bring in line with Kulti.

I find no substance in the Company's objection that it can get all the labour it wants at a lesser rate than it gets now, for the rate of agricultural labour in the vicinity is lower. That is the case everywhere, industrial labour always earn a higher rate than the agricultural labour, but that has been no argument for giving less rates and ultimately, it has been found that industrial labour always goes up. It never stays on a level with agricultural labour and conditions also differ.

At the Works of the Tata Iron & Steel Company, cooly labour, women, get seven annas for the first year of service and thereafter seven annas six pies and cooly labour, men, get nine annas less three pies. But there has been a history behind this latter which does not affect our argument for a rise in the rates of men unskilled labour, at Hirapur.

I hold that the rates of men employees—unskilled—at Hirapur should be the same as at Kulti, *i.e.*, they should be paid nine annas per day.

Issue No. 9 (Hirapur)—Sunday allowance.

I dissent from the views of my colleagues.

It is a noted fact that Sunday is a holiday all over the country, and is spent in marketing or recreation or relaxation. A large number of people can and do gather for every purpose other than of daily toil. If on that day, which is an "off day" for a workman (and it mostly affects general shift people, *i.e.*, workmen who work from morning to evening) he is called upon by his employer to attend to the latter's necessity, which he can only do by sacrificing his convenience and his engagements, it is just and fair that the workmen should be compensated for such loss by way of an extra payment and it provides no consolation to be given some other day, either before or after such Sunday, as an "off day." On the evidence on record, Bansi Ghati and Nathuni stated that they were paid overtime, meaning an extra payment or allowance for work on a Sunday, whereas Ojha, Budhu, Ghosal and Beroo said they received no allowance and Bansi Ghati also says sometimes he did not get the allowance, but a mere "chuti" or leave later on. Evidently,

there is no uniformity of procedure and we will like to see a uniform system adopted of giving everybody, who falls within this category, an extra payment for such work on a Sunday, based on the Company's partly existing practice on the principle that the employer must pay extra remuneration if he calls upon his workmen to work in supersession of his scheduled timings as he has to do for work done beyond such time.

It is true that there is no such allowance paid at the Works of the Tata Iron & Steel Co., but it cannot be overlooked that elsewhere in the Asansol area, there is a practice of paying double or one and a half times the usual wage when called upon to do so on a Sunday.

I answer the issue in the affirmative and it is just and fair that the workmen should be paid for the loss of convenience comprised in his sacrifice of his engagements, associations, recreations and relaxations.

Issue No. 10 (Hirapur)—Lady Doctor.

The Company's reply has been very vague—"a new hospital is being built and when this is completed, medical facilities will be extended." At no time during the deliberations of the Board, did it proffer to explain that this reply did contain such an assurance that a lady doctor will be appointed or that it had such a proposition in its mind. It resolutely refused to clear up what sort of investigation its Works Superintendent was conducting to ascertain the views and necessities of a growing town like Hirapur in respect of a lady doctor or whether a questionnaire was issued or the Chief Medical Officer was consulted and at what stage that enquiry had rested at the time it was discussed at the Board. It is also remarkable that such an enquiry had been vested not in its Chief Medical Officer but in the hands of a layman like the Works Superintendent, which with all due respect to the capacity and intention of this gentleman, it must be observed, could not be calculated to inspire any confidence in the ultimate result.

The observations of the Royal Commission on Labour are explicit and hardly leave room for doubt or for any enquiry as to the need of a lady doctor in the place of the size and importance like Hirapur and that such an appointment should have been made long before the workmen took up the question. When an employer chooses to locate his industry in a virgin soil apart from the vicinity or proximity of an existing or established township, it is plain he is under a moral and material obligation, nay it becomes his primary duty and in his own interests, towards his employees to look after their health and that of their immediate family members. The witnesses before the Board have related their personal difficulties in cases of sickness of their womenfolk. Only three witnesses have been examined and I take it that was to save the Board's time and I have no doubt that many more could have been produced to repeat the same story. The statements of the witnesses have left no doubt regarding the appointment of a lady doctor:—

"Indian women are generally unwilling to avail themselves of the services of a male doctor and wherever a hospital organization of any size exists, whether it be provided by an employer or a local body, the addition to the medical staff of a woman doctor is to be commended."

I am, therefore, extremely reluctant in view of the persistent refusal of the Company to clearly state its position to leave the matter of such an appointment to the descretion of the Company and I am of opinion that a lady doctor should be forthwith appointed and need not wait upon the completion of its new hospital extensions.

Issue No. 11 (Hirapur)—Strike Pay and/or Lock-out Wages.

The Labour Federation, Burnpur Branch, issued a notice on the 25th May 1938 on the Management of the Indian Iron & Steel Co., Ltd., to redress the grievances mentioned in the said notice within ten days' time of the issue of the notice, failing which there would be a complete cessation of work. The notice in the first instance was meant to be a strike notice, *i.e.*, in case there was no redress of the grievances, there would be a strike. The time limit given was 7 a.m., of the 5th June 1938, Sunday.

On the 28th May 1938, the Works Superintendent of the Hirapur plant wrote to the Union the Company's considered reply to the points raised in the strike notice. A perusal of the reply will disclose the utter absence of any desire for understanding or even of a justification for not implementing some of the terms and conditions of the settlement of 1937, August 7th, which had been undoubtedly delayed or withheld. Both the sides thereafter rested, so to say, on their oars. For the Union it can be said that reply being so very unsatisfactory they could only wait for the day on which they were to demonstrate their determination to cease work, but it is difficult to understand the attitude of the Company, whose normal duty one would think would be to continue operation, resting quiet and making no move to avert the impending crisis. Either they were informed (or misinformed) that a strike would not take place or they were determined to face it, which would mean the normal and natural resolve to crush it. The ice was, however, broken on the 3rd June 1938 by the President opening negotiations at Calcutta pursuant to prior arrangements with the Managing Agents. That same evening the Chairman of the Board of Directors Mr. B. N. Mukerji, another Director Mr. K. C. Mahindra a partner of the firm of managing agents (our colleague on the Board) and Mr. M. Homi, President of the Labour Federation, Jamshedpur, all left for Kulti to confer on the spot. Negotiations were continued on the 4th and 5th June and up to 4 a.m. of the 6th June 1938, Monday, as is shown in the Company's statement of its case before the Board. Before coming to the course of negotiations on which something has to be said I want to apply my mind to the strike notice. The question that arises is—"Was there justification for the notice"? Looking to the events prior to and subsequent to the cessation of work, one would feel there was ample reason for not only this strike notice, which was meant to give to the Management an opportunity to carry out its undertakings, but enough justification as well to go on strike on failure to receive redress. If once the justification for striking is shown and established, the question of strike pay is automatically solved and answered in the affirmative.

Mr. A. K. Bose, Advocate for the Labour Federation, has stated that so long as there was one legitimate grievance unsettled, the workmen were justified in going on strike and therefore, should receive strike pay. I think this forms the crux of the situation and I desire to concentrate attention on this aspect of the question rather than on any

exaggerated nature of the claims put forward from either side from condemnation to justification. Several items of grievances have been enumerated some of which have been old and others that seem new, but which have no other significance than that in times of crisis, all the ills are sought to be cured all at once and would appear to be not a bad method either.

One of the items of grievance was provident fund. In the settlement of August 1937, the Company had approved of the principle of some form of savings fund to which both the Company and the workmen should contribute. The scheme was to be ready by September 1937. Instead of the provident fund, the Company substituted in its place a provident bonus scheme, which, without entering into the question of its merits or demerits, was decidedly not the provident fund scheme, as agreed upon between the parties. The Company has admitted this, but has urged that its scheme was more beneficial to the workers—an assertion that is open to arguments. In this connection, the Board has observed: "The Board finds that whatever the merits of the provident bonus scheme may be, it does not implement the agreement of 1937 or carry out the principles of mutual contributions." Here, therefore, is a definite finding that the Company had failed to implement its agreement as has been asserted by the Union and consequently, a definite inference that the workers had a just grievance to take any action they considered fit and necessary to enforce the agreement. If strike was considered to be the only method, no argument can now be raised, nor with enough grace, that negotiations should have first taken place or that the Union should have initiated same to afford the Company an opportunity to justify its departure from its undertakings. That position would be queer and I am struck by its naievèté and were it not seriously put forth, I would have hardly taken notice of it The onus for justification for its one-sided departure from agreement rested with the Company, as also the intiation of negotiations for convincing the workmen that its scheme was superior to the one agreed upon. But as I have observed, the Company's attitude had not been one of accommodation and no grievance can be made that "all avenues to a settlement had not been fully explored."

I hold that the workmen have not violated the agreement, if it existed, of fully exploring all avenues to a settlement before a strike was resorted to, for the onus of initiating negotiations on matters which had been already agreed to between the parties, but not acted upon by the Company, rested and could only rest on the Company, in whose mouth it cannot now lie that such a drastic action like a strike should not have been resorted to.

I further hold that the notice to strike was a proper notice, in that ten days time was given the Company as was arranged and agreed to between the parties.

I moreover further hold that since the Company had not implemented its undertaking given as long ago as August 1937, to institute a provident fund, the workers had a just grievance on that score.

An attempt has been made from the Company's side to show the various reasons which had prompted the Company to institute the provident bonus scheme in place of the agreed provident fund scheme but these have left me cold. Nothing can make up for the breach of agreement, however advantageous it may be urged such a breach was in the interests of labour and one cannot deny to the workmen the

right to take his stand on a principle when every day he is quoted some principle or other in justification of the employer's action. The primary responsibility for giving the workmen cause for discontent and quarrel on this score rests with the Company and it is useless to urge that the workman has not attached much importance to this breach or that he has acquiesced therein and so on, for labour once rebuffed cannot be expected to go from door to door endlessly and being poor, cannot every time stop work on individual issues. Labour has, of necessity to wait. I, therefore, hold that the workmen had a just grievance in this instance and that so long as there was one legitimate grievance unsettled, the workmen were justified in going on strike and, therefore, should receive strike-pay.

But as the strike-notice shows, there were more than one such just grievance under which the workmen were living and in support is urged another, besides the provident bonus scheme, the "fixing of a grade scale and the grant of acting allowance."

In the settlement terms of 7th August 1937, the principle for the establishment of a grade scale and standard and uniform rates of wages for various classes of work had been agreed upon and it was stated that a scheme was being drawn up by the Management. Nine months later (on 3rd May 1938) the President of the Labour Federation had to draw the attention of the Works Superintendent, Hirapur, that this item of agreement had not yet been implemented. He was assured that the scheme would be out on the 18th May 1938. Yet in reply to the strike-notice of 25th May 1938, from Hirapur, the Works Superintendent again replies:—"Lists are in course of preparation and it is hoped to complete them and put them into effect within next 2/3 months." And yet in the same letter, elsewhere, the Union has been asked to accept the Company's statement: "The Managing Agents now authorise me to state and their action has the approval of the Board of Directors that the Company has faithfully carried out the policy and the measures as announced in respect of the various points discussed at the request of Mr. Homi at Hirapur on 7th August 1937." Before the Board the Company has admitted delay and the result of such delay during the intervening months has been well set out in the Union's Memorandum of the 23rd June 1938 to the Chairman: "...... My Committee regrets that though assurances were given from time to time in carrying out the undertaking, the enormous delay in this respect has had a very disturbing effect on the workmen in general, combined as it did with the difficulty in respect of getting acting allowances, as also to a continuous deferment of the hopes in the minds of some of the workmen of an advance in their wages on such fixation or revision of wages..................The uncertainty from your side in this respect had put my Committee in the wrong and had made its task difficult in interpreting the Management to the workers."

In the matter of this grade scale, it is not difficult to realize and I hold, that the workers had a just grievance and their patience in waiting for 10 long months before they took action, cannot be now penalized by complaining that the Management did not get a further few months through the process of "exploring all avenues to a settlement." The action of the workmen was justified by the action or lack of action on the part of the Management, which had resulted in a patent breach of agreement and I hold that a case has been made out for the grant to the workers of their wages for the period of the strike. And the wages shall be paid in full.

I arrive at the same conclusion also in the case of the acting allowance issue. Here also the Company admits delay before the Board, which has felt that there is substance in the submission of the Federation that workmen may have been penalised in this matter (*i.e.*, in respect of its claims to receive acting allowance) by the failure of the Company to prepare the grade scheme earlier and has urged payments with retrospective effect from 1st April 1938.

The strike-notice of Hirapur contained in item No. 9 "Electric flood-lights arrangement between the blocks of quarters." This question was taken up in the settlement of 7th August 1937, in clause 23—"The areas occupied by blocks of quarters shall be flood-lit at nights or other arrangements made to light up the localities." The Company's reply had been—"A scheme is in hand for outside lighting of the areas." Ten months later the Company gives the same answer to this item in the strike notice—"The Management has in view provision of better lighting in the labour quarters areas, but this cannot be done until the power house extensions are completed and the town development scheme is put under operation." Before the Board, the Company stated that the new power house extensions will not be ready till June 1939 and that the areas would be lighted completely by September-October 1939. I have no hesitation to feel that few would venture to criticise the attitude of the Union or the workmen for permitting themselves to nurse a grievance in this respect. The areas have continued to remain in utter darkness to the discomfort and peril of the workmen living roundabout. It cannot be denied that the workmen had and have a just grievance in this respect.

The same complaint of failure to implement the terms of settlement is made by the Union in relation to the grievances of the establishment staff. From the agreement of 7th August 1937, it will be seen that the Company had agreed to discuss the question of the Gurkhas (Watch and Ward) and of the staff regarding their eligibility to join a labour union. Item No. 30—"Discussion arose as to the eligibility of Gurkhas for membership in the Union and this will be discussed again." Then again, the footnote to the agreement reads as under: "A list of grievances of staff which was handed over to Mr. Homi was delivered. Grievances were not discussed and the question as to whether the Company will employ staff who are members of a union was raised but not pursued. This can be discussed again."

But no effort was made by the Company to discuss on these matters. It might be argued that the Union did not do it either. But that makes no difference. The *status quo* did not go against the interests of the Union, whereas before any change was imposed in the *status quo*, the Company was bound, under these terms, to discuss with the Union. Instead, in about November 1937, the Company launched a drive to coerce the establishment staff to leave the Union without prior discussion on this subject with the Union and in the case of the Gurkhas, in about January 1938, definite rules were issued compelling the Gurkhas to leave the Union and never a discussion was held on the subject with the Union.

Other items of broken engagements can be cited from the strike notice and the terms of agreement and as we have stated, the onus of discussion to explore all avenues of settlement lay on those who have failed to implement express agreements. In such instances, it is not a case of negotiations for exploring avenues of settlement, but it is a case of discussions in justification for failing to implement the terms

of settlement and this burden falls on the Company and the Company alone, which, there is no evidence to show, it has ever cared to discharge.

Besides, it would be manifestly unfair to the workmen to decide the arrangement regarding prior negotiations as meaning that the union or the workmen were under an obligation to correspond and converse *ad infinitum* while the employers were at liberty *ad libitum* to introduce any rule or take any action that adversely affected the earning powers of the workmen or their service conditions.

Taking into consideration all the circumstances stated above on the subject of non-implementing the terms of settlement, a complete justification would appear to have been provided for the strike notice and that the notice having been drawn up in accordance with the arrangement between the Company and the Union, viz., ten days' notice, it would appear that the workmen have completely established their case for the payment to them of the strike wages.

The Labour Federation has laid a claim that in response to the strike notice issued by it on the 25th May, the Indian Iron & Steel Co. locked out the workers on the night of Saturday the 4th June before the strike became effective on the morning of Sunday, the 5th June.

On the receipt of ten days' notice, the Company began setting its house in order preparatory to a struggle. Its blast furnaces were not only banked but water-sealed and its coke-ovens luted up. It was in a position to face the united workers with equanimity and confidence. Its plant had been placed beyond damage and this it was able to do, of course, with the help of the very workers with whom it was going to enter into a prolonged struggle. It took offensive against them on the night of Saturday, the 4th June, last shift and wanted to lock them out. The workmen, however, made a dash and entered the gate and thence to their respective places. There was no work for them, however, and they were given their attendance nevertheless. On Sunday, the 5th June, most of the general shift workers did not attend, being their "off day" and as a matter of fact, the whole plant having been put in a dormant state there was no necessity for the full complement of even the shift men. The Company could well afford to push them out. The general shift workers having finished by the evening of Saturday, the 4th June, came to work on the morning of Monday, the 6th June, and it is admitted that the Company drove them away.

The negotiations were, in the meantime, proceeding and the Company's own statement of case admits that the negotiations continued at Kulti on 4th-5th and until 4 a.m. of the 6th June 1938 when Mr. Homi left. It is also admitted by the Company and in the words of the Board: "It may be true and the Company does not deny it, that some workmen were turned away on the morning of the 6th June." There is clear inference and but one inference, as also the actual state of affairs, that the workmen had not left their work even though the strike notice was to expire and had expired on the morning of the 5th June and that could have been possible only because there were negotiations going on and no definite decision one way or the other had been reached. Until the nogotiations had definitely terminated and it is admitted by the Company, that they were going on up to 4 a.m. of the 6th June, it cannot be said that they had failed and the hope was still there that they may succeed and as a natural

consequence, nothing can be done to jeopardise the chances of settlement. The Federation is not wrong when it stated that there was both an implied and straight understanding that the works will not be closed pending negotiations. It is unfortunate that the position and constitution of the Board led to a situation which has prevented bringing very vital evidence before the Board, since two of the most active participants in these peace negotiations are members of the Board and they could not appear as witnesses before it without breaking up the Board. Agreeing with the Federation Advocate Mr. A. K. Bose's contentions, I find there is enough documentary evidence and inference that the show-down did not take place till after Monday 6th June 1938 and prior to that every effort was made to arrive at a settlement. The Company's attitude on the morning of the 6th June determined the course of events. They turned away some of the workmen and the cessation of work—actual and real—took place from that date and owed it to the Company. A lock-out had ensued. In the memorandum of the 23rd June 1938, from Hirapur to the Chairman of the Board of Directors, the Union had made its position perfectly clear and had given the last moment offer from the Union to keep the wheels moving: "My Committee feels that had your Company accepted the offer of our President and even the last moment offer of early Monday morning, the 6th inst., when the show-down had not taken place, the situation could have still been saved, etc. ...."

The Company has not contradicted this statement, neither in its reply to this memorandum nor at any other time and distinctly shows that the strike, whatever and whenever it was scheduled to take place, had been kept in abeyance pending negotiations, in which the Company's attitude proved very unhelpful. Here, therefore, the Board has enough evidence before it to come to the conclusion that the Company had locked out its workers and that without giving them ten days' notice as was agreed upon between the parties. Even one single man, when he presented himself for work, having been refused work, the action would be tantamount to lock-out or in the alternative to breach of agreement to serve 10 days' notice, in either case, being liable to payment of their wages.

The attention of the Board has been drawn to the two notices issued by the Works Superintendent of Hirapur Works on the 5th June 1938 and with due respect for the opinions of my colleagues, I do not feel that there was no particular implication in the changed wording of the second notice. I hold that the second notice was issued to counteract the effect and in reply to the protests that the Company had locked-out as a counterblast to the strike threat from the Union. It is impossible to escape from that impression and no explanation has been forthcoming why a change was made in the phraseology of the second notice, if the first one was adequate and not defective.

I, therefore, hold that even as a lock-out contention, a case has been made out for payment of lock-out wages on the plea that the Company had locked out just as a case had been made out for strike wages, on the plea of there being justification to strike. But there also exists a third consideration, which unfortunately, I as a member of this Board, am precluded from stating in these notes as this is within my special knowledge but which has so far not been available to our Chairman and that is relating to the extreme reasonableness and solicitude of

the Federation offer to save a deadlock, but which received not the consideration it deserved. I can speak no further on this aspect in these notes until my colleague also takes the opportunity to do so, but I do claim that that would also go to establish the workers' claim to payment of wages for the period of enforced idleness.

Issue No. 3 (Kulti)—Nandlal Gossain.

I beg to differ from my colleagues on the subject of justification of this man's dismissal and this I do with the utmost respect for the opinions of our Chairman, who has been a judicial officer almost all his life.

Lance Naik Nandlal Gossain of the Watch and Ward Department at Kulti speaks of the incident of change duty as having taken place on the night of the 19th April 1938 and he is corroborated therein by Lance Naik Lalit Bahadur, who though a witness for Nandlal, bears all the stamp of a witness for the Company in whose service he still is and whose statement that he changed duties on his own initiative and not under instructions of Subedar Balbahadur as was claimed by Nandlal, has been believed in by my colleagues. Lalit Bahadur further corroborates Nandlal's statement that he worked as usual on the 20th, 21st and 22nd April by stating in reply to the Chairman's questions that Nandlal worked for two or three days afterwards. This statement is enough clue to the fixing of the date of incident to the 19th April instead of the 21st April. No materials have been placed before the Board of a convincing evidentiary value and which makes difficult an exact ascertainment of the facts. Mr. Wickham (Assistant Labour and Welfare Officer)'s statement that "I called for an explanation from him (Nandlal). I held an enquiry next day on the morning of the 22nd April" meaning that the incident took place on the 21st April, does not help us much, since his recollection that the "selling of tickets took place before the 21st April. I don't remember if it was on a Saturday. It was definitely before the 21st" is open to contradiction by an entry in the Subedar's book produced by Mr. Wickham himself, where it is noted, presumably in the Subedar's own handwriting, which runs as follows:—

22-4 —Mr. Wickham gave for collection A. T. Fund.

Gurkhas Jats Madh.	L/N Nandlal had the above previously and collected money from Gurkhas without permission. Nothing has been informed by N. C. O. In future no one is allowed to collect any subscription without permission.

Mr. Wickham's memory cannot, therefore, be taken as a safe guide and the statements of Nandlal and Lalit Bahadur before the Board remain that the incident took place on the 19th April and that Nandlal worked for two or three days thereafter. This does not necessarily conflict with, in fact it coincides with, Mr. Wickham's statement that Nandlal was allowed to work pending receipt of orders from Mr. Gupta, the Labour & Welfare Officer who alone had the power to take desciplinary action in such cases. The delay of two or three days in passing an order on the spot and by an officer who could be instantly availed of would lead one to suppose that the so-called dereliction of

duties was not taken in seriously and probably no action have been taken but for another incident, which it is my view, finally determined the action and attitude of the authorities towards Nandlal.

On the 22nd April, Mr. Wickham distributed among his Watch and Ward staff tin boxes and flags for collection of contribution towards the King George V Anti-Tuberculosis Fund. It was found by the Subedar, according to the entry by him of 22nd April referred to above and to his great chagrin that money had already been collected from the Gurkhas by Nandlal with boxes and flags received from the Secretary of the Labour Federation and this evidently set off Bal Bahadur and his superiors. It was a well known fact and had been admitted by Mr. Thornton that it was somewhere in January 1938 that the Watch & Ward department was transferred from the daily muster roll on to the establishment section. It was presumed by the Company that a change in their rule or procedure, *ad libitum*, should also be automatically followed and accepted by the Labour Federation in so far as it affected the status of its members, who should on the introduction of this rule cease to be members of the Federation. The Federation, however, did nothing of the kind nor did the Watch and Ward resign as desired by its officers. In this incident of the collection of contributions by Nandlal, Bal Bahadur or may be the Company, saw a good opportunity of killing two birds with one stone. An obstreperous supporter of the Labour Federation like Nandlal would be disposed of and probably others would be frightened into resigning from the Union. Nandlal was marked down because of the collection incident of the 22nd April for dismissal on the ground of the incident of the 19th April. It may be remarked in passing that the Company did not examine Bal Bahadur Subedar, who was present all along during the hearing of Nandlal's case before the Board.

It is also a noteworthy fact and as admitted by Mr. Wickham, that no formal written charge-sheet was drawn up against Nandlal. One would think that natural justice would call for such a procedure and it would have been in the best interests of the Company as well to have done so. Moreover, the Company was, under its own terms of settlement with the Labour Federation, bound to give every one of its employees in writing the nature of the offence for which it wanted to take disciplinary action against him and to receive in writing his explanation. This omission has been very serious and I feel that irrespective of the merits of the case, the failure to observe the procedure laid down for dealing with delinquients, is a sufficient ground, in my view, for setting aside the order of discharge upon Nandlal.

But as I have stated previously, it is patent that Nandlal collecting for the Anti-Tuberculosis Fund under instructions of the Federation finally determined the attitude of the authorities towards him and as such Nandlal had a legitimate grievance against the order of discharge. Nandlal, being on the establishment staff, was besides entitled to one month's notice of discharge or pay for one month in lieu of such notice, but he was given only seven days' notice-pay, which was also against the arrangement with the Labour Federation in respect of employees on the daily muster roll, to whom 10 days' notice is allowed or 10 days' pay in lieu of the notice.

Nandlal's persistency in seeking justice seem to have further offended the authorities, who, in their efforts to eject him from his quarters, had obtained the assistance of the Criminal Courts and had him bound down to keep the peace. Nandlal had refused to vacate

the quarter on the advice of the Union, who had taken up the matter with the Company for adjustment, but the Company had flatly refused to discuss establishment questions with the Union.

Issue No. 4 (Kulti)—Are the Kulti workmen entitled to strike pay?

On the 29th May 1938, the Labour Federation, Kulti Branch, served the Company with a notice that unless certain of their grievances were redressed, by the 5th of June 1938, there would be a general strike. The immediate cause of discontent was the reduction at the end of May in the number of men enforced by the Company necessitating the loss of employment of some 800 odd men.

This reduction came very soon after a previous reduction of some 250 odd men towards the beginning of May 1938 and which had created a furore among the workmen. The President of the Labour Federation met the Works Superintendent of the Kulti Plant on the 13th May 1938, when to add to the existing discontent, he was informed of the Company's contemplated retrenchment of some 800 odd more men due to their being surplus to its requirements and of reduction of an additional 720 odd men on the score of their services not being necessary due to the shutting down for repairs and re-lining of one blast furnace and one battery of coke ovens. The President of the Federation on the 13th May 1938 drew the attention of the Works Superintendent to the frequency of these reductions and asked him why he had not thought of effecting all these reductions all at one time, since it would take exactly the same argument, energy and time to explain to the workmen the necessity of reduction if their number was 200 or 2,000, but it was decidedly impossible to help the Company ever and on as against workmen who were likely to be panicky and not likely to be always amenable to reason, the more so since neither the workmen nor their union had any hand in ascertaining or determining the necessity or otherwise of such reduction. It was further suggested that before the contemplated reductions were decided upon, an advance intimation was to be given to the Federation or its President so that they would be able to get in touch with the workmen over the matter.

A personal letter, undated (Appendix, page 164), from the Works Superintendent to the President, Labour Federation, expressed satisfaction at this "brain wave" and desired to know further in the matter, presumably when to enforce the contemplated reduction. Without waiting for a reply nor having ever stated when the proposed reduction was to be brought into operation, a few days later, on the 26th May 1938 notices of reduction began to be issued and a panic prevailed among the workmen. The local Union tried its best for two days to explain to the workmen the necessity for being patient, but it was mobbed by bands of infuriated workmen who continued to raid the Union offices, asking it to declare an immediate strike. On the 28th May, a wire was sent by them to the President at Jamshedpur as follows: "Thousand reduction. Come immediately. Labour terrified." On receipt of this message, the President wired to the Works Superintendent as under: "Kulti office alarmed 1,000 reduction. Urging circumspection. Times critical. Well advised delay programme." On the same day—28th May—the local Union wrote to the Works Superintendent protesting against this reduction to which

a reply No. X. 1130 of the same date was received from the Works Superintendent: "We now note that you are unable to accept these reductions and can only refer you to our X. 1102 of the 26th May (Appendix, page 165) where the position was clearly explained and much regret we are unable to modify our action in any way."

On the 29th May 1938, in sheer desperation in order to ward off a lightning strike, which the workmen were determined to stage, the Union officials issued a notice to the Company of its intention to strike on and from the 5th June on which date the bulk of retrenchment was to take effect. To the President's wire, a reply was received on 30th May complaining of breach of agreement not to strike before all avenues of negotiations had been explored and declaring the Company's inability to postpone reductions in principle. The Union officials also waited upon the Works Superintendent on the same date (30th May 1938) with a view to prevail upon him to modify his decision, but to no effect.

It will be clear from the foregoing that the Company showed no inclination to stop the reductions nor even to postpone same pending any adjustment that might be effected by negotiations or otherwise and that they were determined to push forward this reduction programme regardless of any protests or opposition. It is not known to what extent the Company inferred support to their reduction programme from the Works Superintendent's talk with the President of the Federation, but it was clear no action would have been advisable before further views had been exchanged and it is not enough to say that the Company had discharged its responsibility by merely passing a hint of some programme of future reduction it had in mind.

The position could, therefore, be summarised thus:—That the Company started reduction notices from the 26th May 1938 and determined to carry it out inspite of efforts made through letters and interviews from Union officials—both local and central. It is difficult to feel what further negotiations were left open to the Union or could have been undertaken in face of a positive and persistent non-possumus. There does not seem to be any cogency in the Company's plaint that negotiations had not been exhausted. It is quite possible and that was what was felt at that time that any reference made to the Head Office at Calcutta would have been equally fruitless, since the Head Office could not but have supported the local officials, who would have been only acting with its concurrence—the more so in that notices had actually been issued and withdrawal could not have been done without implication of diminution of prestige, on which rock 99 per cent. of negotiations are known to fail.

To our view there is no substance in the Company's plea of failure on the part of the Union to fully explore all avenues of understanding, which it may be confidently put, were closed by first of all issue of notices of reduction without completely taking the Union into confidence (we expressly differentiate reduction between a mere hint of possible action from a full and complete statement and settlement of reduction, how many, when and why) and later on completely banging the door by plain refusal to be moved.

Further, one must feel that the obligation to "make every effort to arrive at a settlement" cannot be one-sided but must be reciprocal and the employers cannot merely reiterate a persistent NO to all advances and still claim that the labour side has not exhausted all means of understanding. So much, then, on the alleged failure to negotiate prior to taking action.

Coming now to the subject of breach of agreement regarding ten days' notice agreed upon between the parties, the position should be viewed from the attending circumstances. There is no doubt that such an agreement existed, but the situation was rendered beyond control of the Union by the action of the Company which should have known of the possible consequences of these notices for its experiences of only a few weeks previously when the other reduction had taken place should have wised it of the unfailing excitement that was bound to follow. The Union found itself, between two conflicting loyalties—on the one hand it had the insistent clamour of its constituents to declare an immediate strike and on the other hand, there was its obligation to the Company to give ten days notice. If it took no action on the demands of the workmen—its members—the Union exposed itself to the risk of being disowned by them as also of precipitating the very action it was anxious to avoid and on the other hand, the employers would be accusing it of breach of its agreement. The Union took the lesser of the two risks, viz., a strike on less than the stipulated basis, but still sufficient notice to the Company to take its precautionary measures; it turned the excitement and wrath of the workmen into constitutional channels of a proper warning notice to strike. Accordingly a notice was issued on the 29th May 1938 terminable on the 5th June 1938, *i.e.*, of seven days' duration only instead of the stipulated ten. The objection of the Company to this notice seems to us to be mere academic for mere stand on the letter of the agreement will hardly help it. The object of every notice to the employers is to permit him time to take necessary precautionary measures for ensuring the safety of his plant, which, on a lightning strike or shut down without warning, might suffer incalculable damage. (I have always personally refused to believe that any employer can, without much violence to his conscience, assert that he had no warning that the workmen will strike work. It is part of his business to find out the trend of the workmen's thoughts and feelings and possible action on their part as also to intelligently anticipate the consequences of his own action.) It cannot be said that seven days were insufficient to the Company to take these precautionary measures. As a matter of fact, the plant was put into condition to meet the threat of cessation of work in less than that time and it must be remembered that seven days notice was at one time agreed upon in the Kulti settlement of June 1937 and that could not have been done unless the Company had felt itself capable of managing its affairs within that period.

Looking to this aspect of the question, I feel that there is not much weight in the Company's argument that the notice was not proper, except that it must be conceded that it fell short of a technical requirement, although it had all the meaning a notice is supposed to have. I, therefore, find that the Kulti Union's notice to strike, although not technically proper, yet was all that the Union could do to give under the circumstances confronting it as a result of the employers' action and that the employers had all the time available to them, if not more, to put their house in order for the purposes of meeting the threat.

Apart from the formality of an ultimatum, the question now to be discussed is whether there was justification or valid reasons for issuing such notice. This question is answered in the affirmative. It is a well known fact that strikes or labour troubles in this country represent the explosion of pent-up forces of discontent on more than one disability or grievance and that one single cause, often of a very minor nature acts as a match on the accumulated powder. So it was at Kulti—the

strike notice itself indicates it. Paragraph 1 thereof says: "All the demands of the employees according to the settlement between Mr. T. L. Martin and Mr. Homi, President, Labour Federation, Jamshedpur, that have not been given as yet, must be given soon." In these were comprised "provident fund" instead of which the Company had given him a provident bonus—grade scale had not yet been established though it was nearly a year after the settlement—privilege leave and other privileges were reckoned as accruing on a service of twelve months from 1st August to 31st July of any year and not on straight twelve months' service of the workmen and so on. Even the sickness benefit scheme as settled was granted in full only after a persistent agitation of nearly nine months. These would go to show that the workmen were permitted to remain in a "continuous grouse" or another and all these have been admitted by the Company by later rectification. The workmen's minds were under a heavy strain when retrenchment was further added to these. The match was provided by the Company over the powder it had accumulated. The workmen had felt that the negotiation method had failed for it had led to nothing but endless arguments and procrastination. It will be noticed that all these grievances were later on conceded by the Company and even in the case of those involved into retrenchment, agreement had been ultimately reached on the basis of the proposal put forward by the Union in the first instance during the negotiations prior to the expiry of the strike notice and later on in the terms of resumption arranged for through the mediation of the Honourable Minister for Labour, Bengal Government. The workmen had gained their point and it cannot be stated that there was no justification for their action. An earlier solution of these problems had lain entirely in the hands of the Company and would have prevented a lot of avoidable hardship both to the workmen and to the Company.

On these circumstances, I have no hesitation to find that—

(*a*) the strike notice was justifiable in that negotiation method had failed;

(*b*) the strike notice, though technically defective, was correct under the circumstances, for a strike on 10 days' notice would have been meaningless since it would have meant cessation of work after retrenchment had actually been effected;

(*c*) subsequent events indicate a complete vindication of the workmen's attitude in that his demands have been acceded to by the Company.

On these basis, I find that the workmen at Kulti have made out a case for the payment to them of the wages for the period of 45 days during which they had to stage a shut-down in order to obtain a redress of their grievances.

Issue No. 1 (Establishment)—Sick Leave.

I am in complete accord with my colleagues on the Board's considered finding regarding this issue with this proviso that I am in favour of allowing an accumulation of such leave up to the maximum allowed for a period of two years. This will bring it in line with Article 8 of the Kulti settlement.

MANECK HOMI.

25th October 1938.

Appendix.

I.—Settlement terms, Kulti, 28th June 1937.

1. *Restoration of 1932 cut.*—It appears that there is considerable misunderstanding in the minds of the workmen. The cut in wages made in 1932 has been completely restored. It should be noted that this cut was made only in some Departments and did not affect all the labour in the works. For instance no cut was imposed on labour getting nine annas or less per day. Any specific cases of individual hardship may be reported to the Works Superintendent for necessary action.

2. *Sunday allowance.*—The significance of this system is not yet understood by the present Management nor is it considered desirable to reinstitute a practice which is bound to lead to dissatisfaction.

3. *Notice.*—In future labour with 12 months' service or over will be entitled to receive one week's notice of termination of service or one week's pay, that is six days' pay in lieu of such notice. It is understood that labour will likewise give similar notice of termination to the Company.

4. There shall be fixed a standard rate of wages for skilled and semi-skilled labour and a grade scale for every type of work done by this class of labour. This rate shall not be varied and no recruitment shall be done at a lower rate than the one fixed.

5. Acting allowance shall be granted when an employee on a lower rate of wages works in place of a higher rated one. This shall be automatically done without the workman applying for the same.

6. Workmen required to do overtime will be given full consideration should they express inability to continue the work. Provisions of the Factories Act in respect of hours and payments will be strictly in force.

7. It is the intention of the Management to continue their investigations into alleged cases of bribery and corruption and the fullest co-operation of the labour in rooting out this evil is invited.

8. The management has agreed to sanction to employees with an unbroken service of 12 months or more privilege leave on the following basis:—

Fifteen days' leave with full pay shall be granted for every completed year of service. In addition the employees will also be entitled to leave without pay for another 15 days making a total leave period of 30 days per year. Unbroken service means a period of service uninterrupted by discharge or resignation. Leave may be accumulated up to the maximum allowed for a period of two years.

9. Denominational holidays with full pay consideration postponed.

10. The Management regrets they are unable to sanction any general increase of wages at present.

11. It is the declared policy of the Management that no women employee shall henceforth be paid less than six annas per day and no male unskilled labour shall be paid less than nine annas per day.

In the case of the sweeper staff the rate for male and female sweepers will be respectively not less than Rs. 14 and Rs. 11 per month.

12. *Provident Fund.*—It is the intention of the Management to constitute a provident fund for the workmen. The main principle in which it will operate will be on the basis that the workmen shall contribute a certain proportion of their earnings to the fund and the Company shall contribute an equal amount. The Company's contribution will be payable on completion of 12 months' service. Details are being worked out and the scheme will be announced later.

13. *Gratuity.*—The consideration of the gratuity system as presented has been deferred to a later date.

14. The Management is agreeable to pay wages fortnightly instead of weekly if such is the desire of the workmen.

15. *Maternity Benifit.*—The existing maternity benefit rules will be extended to cover a period of four weeks before and four weeks after confinement.

16. It is the intention of the Management to institute a bonus scheme under which the workmen will share in the prosperity of the Company. Details will be announced later. Representations from the workers will receive due consideration before the scheme is finally formulated.

17. It is the policy of the Management to centralise the labour recruitment and as soon as they are able to make necessary arrangements the present system of departmental recruitment will be abolished

18. It is agreed that in cases of disciplinary action taken against a workman, the workman will be given an opportunity of knowing his fault and being heard in writing by the Departmental Manager. No rate shall be reduced as a disciplinary measure.

19. The Management are already in communication with the Public Health Department in regard to the construction of rest houses for women employees.

20. Provision for improving the facilities in respect of drinking water will be made.

21. The present arrangements for sickness benefit will continue in operation namely on total unfitness for work when certified by the Company's doctor, a workman shall receive full pay up to one month of his illness and half pay for the second month of his illness. Co-operation of the labour is invited to prevent malingering.

22. The Management will assist in the formation of a Co-operative Credit Society which shall be registered and will be agreeable to assist in the recovery of loans from the workmen.

23, 24, 25 and 26. The Management have under consideration an extensive plan for improving the housing conditions of the workmen. This will embrace living quarters, latrines, roads, etc., etc.

27. *School.*—The Management will endeavour to round off the existing inequalities between the workmen and outsiders in respect of their contributions to the school fees.

28. The Management has never been averse to the formation of a union amongst the workers. The Company will recognise a properly constituted and registered union. The union shall have the right to individual and collective representation on behalf of its members.

29. The Company will assist in the collection of subscriptions for the union from the wages of members if permissible under the law.

30. Recognition of the union by the Company implies that none of the executives of the union shall suffer any disability by reason of their connection with the union.

All Company's officers will be instructed accordingly.

31. Instructions have already been issued by the Management that there will be no victimisation of any sort for the recent troubles.

32. All men who have been discharged within the period 12th to the 19th June inclusive shall be re-employed.

33. The Management agree that no reduction will be made in any staff unless previous intimation is given or when the job is completed. The Works Superintendent has been instructed that no man shall be dismissed on the ground of reduction in staff when his place is to be filled by fresh recruitment.

34. The Management does not recognise that any payment is due to workmen who went on strike for the period they have kept away from work. It has been represented to the Management however that numerous cases of hardship and suffering will accrue and as a purely voluntary measure the Management will be pleased to grant a compassionate allowance to the extent of four days' wages to the workmen payable during the first ten days of July. In return the Management expect that the workmen will co-operate whole-heartedly and endeavour to make up for lost production.

T. Leslie Martin.
M. Homi,
President,
Labour Union, Jamshedpur.

The 26th June 1937.

II—Settlement terms, Hirapur, 7th July 1937.

Points discussed at the request of Mr. Homi at Hirapur on 7th August 1937.

PRESENT.

Mr. T. L. Martin.

Mr. H. V. Peeling.

Mr. M. Homi.

1. A general increment of 25 per cent. over the present scale of wages shall be sanctioned.	See Note later to 31 and 32.
2. There shall be a uniform rate of wages fixed for uniformity of work done.	Agreed and already in practice.

3. There shall be a standard rate of wages fixed for various classes of jobs and a grade scale fixed for each class to which the workers will attain at stated periods.	Principle agreed and being drawn up by Management.
4. Privilege leave of 15 days with full pay shall be granted for every completed year of service instead of 14 days as fixed at present and another 15 days leave without pay during the same period.	Already drawn up and put into practice. As regards clause 9 of Companys' leave rules any man going on leave for seven days or more will state on the leave application form whether he wishes his outstanding wages to be paid before going on leave. As regards clause 8, the same is introduced with a view to discourage employees in overstaying leave without permission and not with a view to penalise them or to rob them of their privileges. However, in the light of objections raised, the Management desires to give this a trial after which the matter will be reconsidered in the light of its operation and effect.
(*a*) Four days' leave with full pay shall be granted every year as holiday leave to every community on their respective sacred days.	No decision reached at present.
(*b*) Leave shall be granted within 5 days of an application for the same and no more or less leave shall be granted than is asked for.	This does not state clearly what was intended and the following rewording was arranged and agreed to— "Leave application shall be disposed of within five days of any application being made and leave shall be granted by Managers at the date and for the period asked for provided the applicant can be spared."
(*c*) No final settlement of accounts shall be forced on any worker unless he desires same at the time of proceeding on leave.	This is dealt with under 4 above.
5. *Sickness benefit.*—Workmen shall be entitled, of all classes, to a sickness benefit of full wages for the first month of sickness; to half the wages for the next month of continued sickness and thereafter according to the discretion of the Management.	Agreed to and rules are already framed for the purpose.

6. A scheme be fixed for a provident fund on the following basis :—	
The workmen and the Company shall alike contribute 1-12th of the workmen's wages every month and the amount allowed to accummulate for a year when it shall become due for payment. Interest shall be paid on the whole amount if the workman does not withdraw it at the end of the year. The fund shall be a first charge on the assets of the Company. The fund shall not be subject to deduction or forfeiture when the employee leaves the service of the Company for any reason whatsoever.	The principle of some form of savings fund to to which both the Company and the worker contribute is approved. The proposal will incorporate some form of scheme for gratuity dependant on long service. The scheme is being worked out and will be ready by about the end of September 1937.
7. A system of gratuity for old employees shall be established on the the following basis :—	
To every employee of ten years and over of service, a payment of one month's wages for every completed year of service shall be paid to him on his leaving the service for any cause whatsoever or to his dependants in case he dies.	
8. A system of bonus shall be granted depending on the profits earned by the Company during the previous year and shall be announced at the time of the yearly general meeting.	It is the intention of the Management to institute a bonus scheme under which the worker will share in the prosperity of the Company. The scheme will be ready by about the end of September latest.
9. A system of departmental or production bonus shall be introduced.	Not applicable at Hirapur.
10. Duty hours shall be from 7 a.m. to 11a.m. and from 12 noon to 4 p.m.	This will be looked into, but no request of this sort has ever been made before. Further, it is generally desirable that the morning period of work should be longer than the afternoon period.
11. Sunday off. If a man is required to work on Sunday, which is his off day, he shall be paid double the wages for that day.	This is covered by the Factories Act and followed. The Factories Act provides for 1½ times wages for Sunday work and this is being followed. The Works Superintendent is looking into the application of this.
12. Saturday half-day. The half-day shall mean work up to 11-30 a.m. and not up to 1 p.m.	Only affects the General Office and is outside the range of present discussion.

13. Acting allowance shall be granted when an employee on a lower rate of wages works in place of a higher rated one. This shall be done without the workmen applying for the same, but shall be done at the time of taking attendance.	This has been adopted.
14. No one shall be compelled to work overtime and all over-time shall be paid for. No one shall be compelled to work more than 8 hours as his standard fixed duty hours.	Workmen required to do overtime will be given full consideration, should they express inability to continue the work. All overtime is paid for as provided for in Factories Act.
15. Disciplinary measures shall not be taken against any man without a charge sheet being given him stating in writing the offence he is charged with and asking him to show cause why action shall not be taken against him. The Departmental Head shall alone award the punishment after deciding. No fines shall be imposed under any circumstances and no rate shall be reduced as a disciplinary measure.	Priniciple approved. Mr. Homi will send a sample of the proposed charge sheet. For offences not punished with discharge, suspension, demotions and fines are legitimate disciplinary actions in case of default by workmen. No rates should be reduced as a disciplinary measure.
16. Men who have been dismissed or whose rates have been reduced shall be reinstated.	Too vague for consideration.
17. Maternity benefits shall be granted at the rate of four weeks before and four weeks after confinement to every woman worker of one year and over of service on 1st June 1937 and who reports to the management about her claim.	Agreed to with effect from the 1st of August 1937.
18. Rest houses shall be constructed and located at suitable places inside the plant for women employees and they shall be fitted with sanitary latrines and good baths. Creches shall be located, if necessary, for taking care of babies.	No rest house has been found necessary for women inside the Works. The shed outside can have a portion screened off for women only. No babies are allowed inside the Works and creches are superfluous. Latrines are already provided. Plans are already in hand for bathing arrangements.
19. The Management will arrange for the location of a hotel for good, clean, cheap food for its employees inside the Plant.	The Management will look into this if it is shown to be necessary.
20. The Management will help in the formation of Co-operative Credit and Loan Societies and introduce a system of collection of loans from the wages of the workmen and pay them to the Societies concerned.	The Management will assist in the formation of a Co-operative Credit Society which will be registered and will be agreeable to assist in the recovery of loans from workmen.

21. A central employment bureau shall be established through which all recruitment shall be done. No departmental or direct recruitment should be done by the foreman or boss.	For the size of the plant recruitment is not on such a scale as to necessitate a central employment bureau. The Management propose to advertise at the gates vacancies available and let the Departmental Manager choose from candidates available.
Preference shall be given in recruitment to old employees, then to relatives of employees and then to new raw hands.	Agreed that when engagements are being made old employees with good records should receive preference to new raw hands. Any cases of corruption brought to the notice of Management will be severely dealt with. Cannot consider employment of relatives as such, but only on merit.
No reduction of staff shall be made a reason for dismissal if that place is to be again filled up.	
22. All wages shall be paid fortnightly instead of weekly as at present.	The Works Superintendent will arrange for a vote of labour and, if they favour fortnightly payment instead of weekly payments, fortnightly payments will be adopted.
23. The Company will arrange for a programme of building more quarters for the employees and shall construct special double units for family accommodation.	The quarter question is not an acute proposition at present and the Management have in mind the provision of further blocks of labour quarters.
Water connection shall be fitted up in quarters. The quarters shall be fitted up with electric lights. The areas occupied by blocks of quarters shall be floodlit at nights or other arrangements made to light up the localities.	Putting in water taps in all quarters is out of the question with the available water supply. The Management have in mind the provisions of additional hydrants near quarters which will be in as early as possible.
Quarters shall be built with raised and higher plinth levels so as to prevent rain-water from entering the rooms.	The Management has under consideration plans for the location of bathing places at suitable places in the town. Attention is already being paid to this item.
There shall be more windows in each quarter and the height of the ceilings shall be increased than at present.	As regards lighting all quarters there is not adequate current supply at present. A scheme is in hand for outside lighting of the areas. Extra windows are already being put in.

24. Workers engaged in hot jobs shall be provided with ice and soda and shall also be given shoes and gloves free of cost.	These are already arranged and ice and soda and boots are already provided. Gloves are not necessary—hand leathers are provided.
25. The Management will arrange for the establishment of a free night school for their employees.	Fees of Re. 1 and Rs. 1-8 per month are charged but a student will be permitted to continue free in case he puts in an attendance of 80 per cent. and has passed his examination satisfactorily. This fee is not for purposes of revenue, but is to stimulate interest and value in minds of the students. If it can be shown that the fee has acted as a deterrent, the Management is prepared to consider other alternatives.
26. The children of employees of the Company shall be admitted free of cost in schools.	Further details are required and it will be further discussed.
27. The Company will recognise a branch of the Labour Federation, Jamshedpur, as a representative trade union of their employees and will not set up or encourage or connive at the formation of any other trade union amongst its workmen. The union shall have right to collective and individual representation. 28. The Company will collect subscriptions on behalf of members of the union from the wages of their employees on receiving a suitable authority on that behalf from the workmen and pay over same to the union. 29. The Company will see to it that none of the executive of the union suffers any disability by reason of his activities in connection with labour organisation and neither the Company nor its officers shall carry on any subversive propaganda against the union. The union shall be given a suitable quarter for its office.	The Company will recognise a properly constituted and registered union. The union shall have the right to individual and collective representation on behalf of its members. The Company will assist in the collection of subscriptions for the union from the wages of members if permissible under the law. Recognition of the union by the Company implies that none of the executives of the union shall suffer any disability by reason of their connection with the union. All Company's officers will be instructed accordingly. A suitable quarter will be allotted for the union Office. It is necessary, however, that the Company should still maintain direct contact with its workmen.

30. Among the Gurkha durwans all promotions shall be made from the ranks and no outsider shall be brought in for that purpose. The pay of the Gurkhas shall be restored to the previous level.	As far as possible this is the Management's policy in respect of promotions. Previously Gurkhas were employed with Army certificates at Rs. 23-8 and Gurkhas without certificates at Rs. 21. It has now been decided that only Gurkhas with Army certificates will be employed and the standard rate for this will be Rs. 23-8. Discussion arose as to the eligibility of Gurkhas for membership of the union and this will be discussed again.
31. No woman shall be employed at a lesser rate than annas seven and no coolie labour shall be employed at a lesser rate than ten annas. 32. The rates of pay of the Sanitary Staff shall be raised and shall not be less than the pay given to unskilled men and women labour.	Will be considered again along with Item 1 when the details of the proposed bonus scheme are known. It should be possible for the scheme to be prepared by the end of September at the latest.
33. The workmen complain of lack of proper medical assistance as also of proper medicines prescribed to them. This shall be attended to.	Extra compounders and medical attendants are taken on as required as sickness increases. Proper medicines are always in stock and prescribed.
34. Vacancies in higher ranks shall be filled up by promotions from the lower ranks as a rule.	Principle agreed to and has been followed for years.
35. Good roads shall be built in between and towards the approaches of quarters.	Being arranged under new general town planning scheme.
36. The weight of materials lifted by women employees shall be limited to a fixed maximum average and no sardars shall be permitted to use coercion to get more lifted.	Care will be taken to see that there is no overloading and sardars will be instructed accordingly.
37. A system of attendance bonus shall be introduced to encourage and reward regular attendance.	Does not arise at the present juncture as it is the duty of the person who takes a job to put in regular attendance.

A list of grievances of staff which has been handed to Mr. Homi was delivered. Grievances were not discussed and the question as to whether the Company will employ staff who are members of a union was raised but not pursued. This can be discussed again.

IV.—Strike Notice, Hirapur, 25th May 1938.

No. L. F. 287/B, dated Burnpur, 25th May 1938.

From—Mr. T. C. Ghosal, Honorary Secretary, Labour Federation, Jamshedpur, Burnpur Branch,

To—The Works Superintendent, Indian Iron & Steel Company, Ltd., Hirapur Works, Burnpur.

I am sending herewith the resolution of a mass meeting of the workers of Hirapur Works held on the 23rd May 1938, at Burnpur at 5-30 p.m.

Please acknowledge and oblige.

Copy forwarded to (1) Mr. T. L. Martin, Chairman, Board of Directors, Indian Iron & Steel Company, Ltd., and (2) Mr. Maneck Homi, President, The Labour Federation, Burnpur.

Extract of the resolution of the general meeting of members of the Labour Federation, Burnpur, held in the maidan at Burnpur on the 23rd May 1938, at 5-30 p.m.

Resolved that this mass meeting of the workers of the Hirapur Works condemned the action of the Works Superintendent in trying to ignore the "Terms of Settlement" made between the President, Labour Federation, and the Chairman and the Works Superintendent of this Company on the 7th August 1937, and hereby calls upon this Company to sanction and bring in force all the demands (specially mentioned below) of the employees at once, and also it is resolved that the Company should recognise the establishment employees as the members of this Labour Federation which is interposing by the Works Superintendent at present; and it is further resolved that the employees never wish to have any reduction by the whims of the Works Superintendent in such flourishing condition of the Company.

Therefore this mass meeting is of opinion that the resolved demands should be fulfilled at once, failing which a complete shut down of the Works should be staged as a demonstration. That a notice be and is hereby given to the Company for 10 days to this effect from the 26th May 1938.

The points of special demands:—

(1) General increment of 25 per cent. over the present wages.

(2) To establish grade scale and uniform rate of wages.

(3) Sickness benefit—first month full pay and subsequent month half pay.

(4) A scheme for a provident fund as asked previously.

(5) Acting allowance should be on the present rate and not the minimum one.

(6) Rest house for both male and female workers fitted with lights and water taps.

(7) Fortnightly payment should be on every 15th and 30th day of each month.

(8) Accommodation of sufficient quarters.

(9) Electric flood lights arrangement between the blocks.

(10) A passed lady doctor is urgently required.

(11) The wages of sanitary staff and unskilled labour should be raised.

(12) Wages should be paid to the durwans, office chaprasis and staff for the overtime work.

(13) To settle all the grievances of the establishment staff which was submitted to the Works Superintendent by the President, Labour Federation, on the 8th August 1937.

(14) Nine discharged hands of the Laboratory Department should be reinstated from the date of dismissal.

V.—Strike Notice, Kulti, 29th May 1938.

No. 334, dated Kulti, the 29th May 1938.

From—Mr. Amadulla, Vice-President, Labour Federation, Jamshedpur, Kulti Branch,

To—The Works Superintendent, Indian Iron & Steel Company, Kulti.

We have the honour to inform you that to-day all the employees of this Company passed the following resolutions in the general meeting:—

(1) All the demands of the employees according to the settlement between Mr. T. L. Martin and Mr. M. Homi, President, Labour Federation, Jamshedpur, that have not been given as yet, must be given soon.

(2) The recent reduction that you are giving notices to the labourers for the termination of their service is quite unjustified, for you are retrenching the workmen whose service is more than 7 or 8 years but keeping those whose service is only 8 or 10 months and one week also.

(3) If the Company has got no work then why it is so that when a workman applies for leave is not granted, saying that if you will go on leave the work of the Company will suffer. We are ready to go on leave for three months but not ready to see the break in our services. It is mentioned in our settlement that a man having service of 12 months is entitled for his leave wages and sick wages, but the Manager refused to pay these benefits to those workers whose service is more than 17 months or 18 months saying that he is not entitled to these benefits as his service is not of 12 months.

It is mentioned in settlement that no Committee member will be discharged then why is it so that our Committee members have been discharged?

The Management exercises tyranny over the employees by shortening the services of the workmen—one whose service is 18 or 19 years his service is reduced up to 9 or 10 years.

When you are going to reduce men as the result of closing down No. 5 furnace for normal repairs I have to say that you will require more men than at present to repair it for the work will be increased. Then why there arose the necessity of reducing men? In your letter No. X 1102 it is mentioned—"When this reduction has been completed it will be not necessary to make any further similar major reductions". But you promise such in every reduction but even then you made reduction in every month.

In the first reduction of the workmen of the Extension Department it was also promised that they will be taken within a month but up till now they are idle. Now we hope that they also be taken to their works.

When the Company has got no work in reality at its disposal and stands in need of reduction and there is no one whose service is of one year and wishes to reduce such men whose service is 3 or 5 years. In that case we are ready to go on leave for three months one by one but not ready to see break in our service in any way.

You effected this reduction of 800 workmen according to the advice of Mr. Harnam Singh, attached more importance on the advice of a single man, then why is it so when all the employees of this Company do not agree to this reduction and you are going to reduce the workmen?

In conclusion we have to assure that if you will settle our all the above-mentioned grievances favourably up to the 5th of June 1938 otherwise all the employees will sit idle with those workmen who have been retrenched and this is our final notice.

Hoping the above-mentioned grievances will be favourably dealt with.

VI.—Settlement of the Kulti and Hirapur strike.

Joint statement by the Labour Federation and the Managing Agents of the Indian Iron & Steel Company, Ltd.

The parties to the dispute agree to the appointment of a Board of Conciliation by Government to settle their differences and to abide by the decision of the Board.

Pending such adjudication, work shall be resumed simultaneously at Hirapur and Kulti. In the case of men retrenched at Kulti owing to surplus labour, numbering some 820 odd, the Company will compensate them at the rate of one month's pay for every year of completed service put in by them, besides all other payments which the Company has already notified to pay under the Service Rules.

In the case of some 700 odd men of the Blast Furnace and Coke Ovens at Kulti that have been retrenched due to repairs, the Company undertakes to take back as many of them as it requires when this Blast Furnace resumes operations and if this resumption takes place within nine months of the shutting down of the plant their services shall be counted as continuous, with the exception of the period they have been out of service due to repairs. In case of those men who will not be taken back, the Board will decide what compensation should be paid to them.

Without in any way whatsoever prejudicing the contention of the Company that the Establishment Section cannot be members of the Labour Union, the Company has agreed that the six Chemists and the three Laboratory Assistants at Hirapur, who have been discharged, will be taken on the pay roll of the Company as from the date ot resumption and their case will be decided by the Board as to whether they had been rightly discharged or not. In case the Board finds that there has not been sufficient justification for discharging them, they will be restored to their jobs and paid for the period they have been out. Should the Company decide not to take them back, the amount of compensation, which should be paid to them, shall be ascertained by the Board.

In other matters comprising the points raised in the strike notice or those arising out of the strike, the Board shall adjudicate and give its decision.

The Board will consist of one representative from labour, one from the employers and one nominee of the Government of Bengal.

Biren Mookerjee.
M. Homi.

1938.

VII.—Terms of resumption of Work, 17th July 1938.

The following are the agreed conditions leading to the resumption of work at Kulti and Hirapur on Thursday morning 21st July 1938:—

(1) The Government will constitute a Board of Conciliation to go into the various points in dispute between the parties.

(2) Work shall be resumed both at Kulti and Hirapur at the same time. The men will be allowed seven days' time from the date of resumption to rejoin their work.

(3) As regards Kulti, the 700 and odd people, who have been discharged owing to the blowing out of furnace and the closing down of coke ovens, are held to have their services terminated from the date of discharge. It is agreed that when work starts on this furnace and the coke ovens, they will be re-employed. The Management will maintain a list of persons who have been discharged and they will be appointed by the Management in order of priority according to the period of service put in by them. The Management will supply a copy of the list to the Federation. If more persons have to be employed they will be employed from the list of hands who have been now retrenched or have been retrenched in the past. These 700 and odd men will get no wages or compensation for the period of time that they will be out of work, but in case of those who will be re-employed, their continuity of service (less time that they have been out of work) will be recognised, together with all the privileges to which they are entitled. This clause shall apply if the furnace starts within nine months from the date of resumption of work. If the work starts after nine months, these workers shall be paid such compensation, if any, as the Board shall determine.

(4) As regards the 800 and odd men who have been discharged on the ground of retrenchment, they will be paid by the Company besides the following sums which the Company has already notified to pay, namely, (1) 10 days' pay in lieu of notices; (2) provident bonus;

(3) profit sharing bonus; and (4) gratuity if a man has earned it, an additional sum ex-gratia equivalent to one month's wages (26 days of existing wages rate) for every completed year of service put in by him as compensation for loss of service.

(5) It is agreed that above compensation will not form a precedent, but it will be paid in case of the major reduction of a similar nature which the Company has in view.

(6) As regards Hirapur, the six Chemists and three Khalasis, who have been dismissed, will be placed on the pay roll of the Company as soon as the work starts. It is open to the Company not to give them any work. If the Board finds that they have been rightly discharged, the Company will be entitled to discharge them from the date of the Board's findings. If the Board finds that there was no reasonable justification for their discharge, the Company will take them back in their service. If these persons are found to have been wrongfully dismissed, they will be held to have been in the service of the company all along and shall be paid their wages accordingly. If the Management proposes to discharge them, the Management shall pay such compensation as the Board shall determine.

(7) All men will be taken back to work in their original jobs. There are, however, some men at Hirapur - their number not exceeding six—in the establishment staff inside the Works who are holding position of trust and responsibility and who have not in the Company's opinion discharged their obligations towards the Company and whom the Company does not feel it can put back in their original positions, regard being had to the safety of the plant. The cases of such men will be put before the Board for approval of the Management's action in not reinstating them in their original positions. This procedure will also be applicable in the case of certain men of the clerical staff whose number will not exceed six and who are also in the same category of positions of trust and responsibility.

(8) The Board shall frame all issues which it considers necessary for a proper adjudication of the dispute between the employers and the Labour Federation, as well as take into consideration the case of the six Chemists who have been discharged and the grievances, if any, of the establishment staff. It shall come to a finding on these issues and make its recommendations in addition to the question of compensation referred to above.

(9) It is agreed that these terms are being arranged for the purpose of immediate resumption of work. The fact that the grievances, if any, of the establishment staff are also being considered will not be taken to mean any concession on the part of the Management on the question as to whether the establishement staff (less those who are actual workmen, if any) can be members of the Labour Union.

(10) It is agreed that in future in case of disputes arising between the Management and the Federation, the Federation through its President shall first discuss the matters in dispute with the Management and vice versa with a view to arriving at a settlement. If no settlement is arrived at, the matters in dispute will be submitted to Government for conciliation and mediation. No strikes or lock-outs shall take place, or notices of strikes or lock-outs served as long as the conciliation proceedings are in progress.

17th July 1938.

(*iii*) The replacement by so-called apprentices of places of helpers who have been retrenched as surplus staff to the prejudice of the retrenched men.

(*iv*) And any other matter arising out of the strike as may be placed before the Board.

XI.—Preliminary Statement of cases of the Indian Iron and Steel Company, Ltd.

In the matter of the Indian Trade Disputes Act, 1929,

And

In the matter of a trade dispute between Indian Iron & Steel Company, Ltd., and certain of its employees.

Preliminary statement of case.

1. *Introductory.*—The Company was incorporated in the year 1918.

Until the year 1937 it carried on business at its Works at Hirapur near Asansol, which consists of two large modern blast furnaces, having a total capacity of about 43,000 tons of pig-iron per month.

The management is in the hands of Messrs. Burn & Co of No. 12, Mission Row, Calcutta, who have been the Managing Agents since the incorporation of the Company.

The Company is now also the owner of the Kulti Iron Works, situate about 7 miles from Hirapur. These Works were formerly owned by the Bengal Iron Company, Ltd. Until 1931 Messrs. Martin & Co. who are closely associated in business with Messrs. Burn & Co. were the Managing Agents of the Bengal Iron Company, Ltd. They ceased to be Managing Agents on 31st December 1931 and during the period 1932-36 neither Messrs. Burn & Co. nor Messrs. Martin & Co. were concerned with the management of the Kulti Works. In 1936 an amalgamation was put through and the Bengal Iron Company, Ltd., ceased to exist and the Indian Iron & Steel Company, Ltd., became the owners of the Kulti Iron Works. Since January 1937 the management of both Works has been in the hands of Messrs. Burn & Co.

The approximate number of persons in the employ of the Company at the Works are as follows:—

Kulti—

9,500 Industrial workmen, 600 establishment staff, and 210 Watch and Ward.

Hirapur—

2,200 industrial workmen (at present 4,000 are employed which is above the normal roll).

370 establishment staff, and 180 Watch and Ward.

Establishment staff comprises supervising, operating staff and clerks.

2. *Labour conditions.*—On 19th June 1937 the labour at Kulti went on strike. The immediate cause was the suspension by the Acting Foreman of a workman employed on a moulding machine. The strike was settled after eight days.

On 16th July 1937 the labour at Hirapur also went on strike owing to the suspension of a workman. This was settled after three days.

Prior to this, there had been no strikes at Hirapur.

Both were lightning strikes. No attempt was made by the workmen to submit their grievances.

Mr. K. C. Mahindra, on behalf of the management went to Kulti and interviewed the labour. They informed him that Mr. Homi would represent them. Mr. Homi came to Kulti and the workmen held a meeting and appointed him as their representative. The labour were not members of any trade union.

Mr. Homi represented that the workers had various grievances, and discussed them with Mr. Leslie Martin, the Chairman of the Company, and Mr. K. C. Mahindra, and on 26th June 1937 terms of settlement were signed. A copy is annexed. (See page 83 onwards.)

The same procedure was followed in the case of the Hirapur strike, except that Mr. Mahindra was not present at the discussion. Terms were signed on 7th August 1937. Copy annexed. A list of grievances of the establishment staff of Hirapur was also submitted. These were not discussed. Copy annexed. (See page 92.)

In the second half of the year 1937 the Labour Federation, of which Mr. Homi is President, established branches at Hirapur and Kulti, and the labour joined the Union. The Company encouraged the formation of a trade union so that labour could have proper representation, *vide* annexures.

From July 1937 until the beginning of June 1938 normal conditions prevailed at both Works. Interviews and correspondence took place from time to time between Mr. Homi or the local officials of the Union with the Works Superintendents, but no major question arose.

3. *The recent strikes.*—On 25th May 1938 the Secretary of the Burnpur Branch of the Labour Federation forwarded to the Works Superintendent of Hirapur a copy of a resolution of the Hirapur labour passed at a meeting held on 23rd May 1938 making various demands and giving 10 days' notice of a strike in the event of non-compliance. A copy is annexed. (See page 93.)

The reply of the Works Superintendent was sent on 28th May 1938. Copy annexed. (See page 107.)

On 29th May 1938 the Vice-President of the Labour Federation (Kulti Branch) wrote to the Works Superintendent of the Kulti Works reporting resolutions passed by the labour, and threatening a strike on 5th June 1938. (See page 94.)

The Works Superintendent met the Secretary of the Union and certain members of the Committee on 30th May 1938 and on that date replied by letter. Copy annexed, page 109.

In November 1937 the Schemes for retiring gratuity, provident bonus and extra wages were framed. These were discussed with Mr. Homi, and it was agreed that no strike should take place except after all possible means to adjust genuine differences had been exhausted, and if these efforts failed 10 days' previous notice of intention to strike must be given to the Company.

On 6th April 1938 the agreement was confirmed at an interview between Mr. H. V. Peeling the Works Superintendent of Hirapur Works and Mr. Homi.

The Branches of the Labour Federation in giving the strike notices violated the first part of the Agreement. In the case of Kulti, the notice was contrary to the second part of the agreement, as the notice given was less than 10 days.

In the letters, dated the 28th May 1938, and 30th May 1938—copies annexed (pages 107 and 109)—the Works Superintendents of both Works protested against the breach of the agreement, but no notice was taken of the protest.

4. *Cause of recent strikes.*—The Company decided to reduce the cost of the Laboratory Department at Hirapur and to dispense with the services of six chemists and three khalasis. This was purely a matter of retrenchment.

The chemists are members of the establishment staff, and as the Company will not recognise the Union as entitled to represent members of the establishment staff, the chemists may have reported to the union that they had been dismissed on this account and that it was a case of victimisation.

It will be noted that the dismissal forms the *last item* on the list of grievances.

It is not known whether the chemists and khalasis, or any of them, were members of the Union.

In the case of Kulti, the Management had decided early in the year 1938 that it was necessary to effect a reduction in the labour. Notices were served on the men in May 1938.

On reference to the letters at pages 93 and 94, it will be seen that the Hirapur meeting was held on 23rd May 1938 and the Kulti meeting on 29th May 1938. The Kulti strike was to commence on the same date as the Hirapur strike.

The Company is in a position to prove that the Union was aware long before 23rd May 1938 that the Company intended to retrench at Kulti.

5. *The negotiations—3rd June 1938.*—Mr. Homi discussed terms with Mr. Biren Mookerjee and Mr. K. C. Mahindra at Messrs. Burn & Co.'s Office, Calcutta.

All three left Calcutta for Kulti.

4th to 6th June 1938.—Negotiations continued at Kulti on 4th-5th and until 4 a.m. on Monday 6th June. Mr. Homi left on 6th June. He expected to return on 9th June. Mr. Mookerjee and Mr. Mahindra remained at Kulti.

9th June 1938.—Mr. Homi arrived at Kulti and addressed meetings of the labour. He left again without communicating with Mr. Mookerjee and Mr. Mahindra.

11th June 1938.—Mr. Mookerjee and Mr. Mahindra left for Calcutta.

At this stage it should be pointed out that the officials of the Burnpur and Kulti Branches of the Labour Federation, although they had issued the strike notices, took no part whatever in the negotiations. In the absence of Mr. Homi, no progress could be made.

11th to 20th June 1938.—No negotiations took place.

20th June 1938.—Mr. Homi telephoned to Messrs. Burn & Co. and offered to come to Calcutta on 21st.

21st June 1938.—Mr. Homi arrived and discussed matters with Mr. Mookerjee and Mr. Mahindra. He left in the evening and it was arranged that further discussions should be held at Burnpur and Kulti at which the members of the Executive Local Committees should be present.

22nd June 1938.—Mr. Mookerjee and Mr. Mahindra went to Hirapur and a meeting was held and subsequently a meeting was held at Kulti. The local executives were present, but no advance towards a compromise was made.

23rd June 1938.—As arranged at the meetings on 22nd June both branches of the Union submitted memoranda of the points at issue (*vide* pages 111 and 113). Mr. Homi called at 7 p.m. and discussed the memoranda with Messrs. Mookerjee and Mahindra. In the case of the labour, the issues were reduced to five, namely:—

(1) Provident fund.
(2) Acting allowance and grade scale.
(3) Privilege leave (in the case of Kulti).
(4) Sickness benefit (in the case of Hirapur).
(5) Reduction (in the case of Kulti).

Messrs. Mookerjee and Mahindra offered to refer these points to arbitration.

At about 9-30 p.m. Mr. Homi telephoned that the labour would not agree to arbitration unless the Company would accept arbitration upon the question of the establishment staff joining the union.

Mr. Homi returned at 11-30 p.m. and the discussions continued until 2-30 a.m. on 24th June.

24th June 1938.—Mr. Homi left and Messrs. Mookerjee and Mahindra returned to Calcutta.

27th June 1938.—Company sent replies to the two memoranda, *vide* pages 112 and 117.

16th July 1938.—Negotiations were re-opened in Calcutta at the instance of the Government of Bengal; meetings were held on 16th and 17th July at which the Minister was present.

17th July 1938.—Terms for resumption of work agreed and signed. (See page 96.)

21st July 1938.—Work resumed at both works.

6. *The Grievances*—(*a*) *The grievances of 1937.*—On reference to the first few pages of the Annexures, pages 83 and 85, it will be seen that the grievances raised in 1937 were very numerous and of every possible kind. Many of them were granted by the Company.

Items 4, 5, 8, 12, 13, 15, 16, 17, 21 and 23-26 of the Kulti list, page 83, were granted. No. 4 is not yet in effect but will be introduced very shortly. All the others have been introduced. With regard to No. 5—Acting allowance—there is a dispute as to the correct interpretation of the procedure, and with regard to No. 12 the Company has instituted a provident bonus scheme instead of a provident fund.

As will be seen from the Annexure, page 85, the Hirapur demands of 1937 were granted in the case of items 2, 3, 4, 5, 6, 7, 8, 13, 17, 21, 22, 23 and 35. These are in operation except in the case of the following items:—

(3) Standard rate of wages (this will be introduced very shortly).

(23) A Building programme is in hand.

There are disputes with regard to items (5), (6), (13), and (22).

(5) Sickness benefit: The dispute concerns the meaning of the terms agreed.

(6) Provident fund: The same dispute as in the case of Kulti.

(13) Acting allowance: The same dispute as in the case of Kulti.

(22) Dates for payment of wages.

(*b*) *The grievances of 1938.*—The grievances of the Hirapur labour as submitted prior to the strike and those of the Kulti labour are annexed. Appendix, pages 93 and 94.

The demands of the Hirapur labour were a repetition of items 1, 2, 3, 5, 6, 13, 18, 22, 23 and 24 of the grievances discussed and settled on 7th August 1937. As already stated there was no cause of grievance, except possibly in the case of items 3, 6, 13 and 22 for the reasons already given.

In addition the following new demand was made:—

No. 10—A passed lady doctor was urgently needed.

On behalf of the Establishment Staff the following demands were made:—

No. 14—The nine discharged men to be re-instated.

No. 12—Wages should be paid to the durwans, office chaprasis and staff for overtime work.

No. 13—To settle all the grievances of the establishment staff submitted on 8th August 1937. (Appended, page 92.)

The Hirapur demands were formulated at a meeting held on 23rd May 1938. The Kulti meeting was held on 29th May 1938.

In 1937 the demands at both Works included increases in wages and additional benefits of various kinds. There was little difference between the demands. Yet, in May 1938 the Kulti labour, apart from requiring the Company to introduce benefits promised in 1937 which according to them had not been fully brought into effect, made no complaint whatever on the ground of wages and made no demands under the various heads included in the Hirapur notice.

Apart from item No. 1, which is a reference to the benefits promised in 1937, the Kulti demands had reference only to the question of retrenchment.

(c) *The items still in dispute.*—During the prolonged negotiations, the demands of the labour were reduced to those set out in the two memoranda, dated 23rd June 1938, which are annexed hereto. (Pages 111 and 113.)

They were the following:—

Kulti—

(1) Provident fund.

(2) Acting allowance.

(3) Grade scale of wages.

(4) Retrenchment.

Hirapur—

(1), (2) and (3)—the same as above.

(4) Sickness benefit.

7. *Matters for consideration of the Board of Conciliation.*— (1) Presumably, the representative of the labour will raise the matters detailed in paragraph 6 (c).

(2) The points mentioned in the resumption terms agreed on 17th July 1938.

(3) Paragraphs (3)—(5) of the resumptions terms relate to retrenchment at Kulti.

The Company has agreed to the principle of compensation. The Union must officially recognise the Company's right to retrench and undertake not to raise any complaint or to call the labour out on strike when further retrenchments take place.

(4) Paragraph (6) of the resumption terms relates to the six chemists and three khalasis discharged from Hirapur.

The Company has replaced the men on the pay-roll as from 21st July 1938, but has not required them to return to work.

There are certain points for the decision of the Board.

(5) Paragraph (7) of the resumption terms relates to matters arising out of the strikes.

There are various points under this heading which the Company wishes to raise for the consideration of the Board. The Company will file a supplementary statement in this connection.

(6) Establishment staff.—The Members of the establishment staff are not allowed to be members of the same Union as the industrial workers, and the Company will not employ any clerks and, particularly Watch and Ward Staff, who become members thereof.

In October 1937 the establishment staff at Hirapur were notified that membership of a labour union was not permitted and that any of the staff who had joined a labour union should resign membership. Sixty-one of the staff signed a form of resignation of membership which was sent to the Labour Federation. The latter refused to accept the resignations.

The Company then notified the staff that resignations from the Union must be effected by a specified date or, in the alternative, they must resign their post with the Company. The Company received no resignations and again circularised the staff that the Company assumed that all persons who had been members of the Union had resigned and had accepted, as a condition of their continuing in the service of the Company, that they would not join a labour union.

The Company has not in fact received information to the effect that any members of the establishment staff have joined the Labour Federation, save and except statements to this effect in letters from the branches of the Labour Federation.

The grounds of objection are obvious and need no elaboration.

Item 5.—Establishment staff of the Kulti Labour Federation's letter, dated the 23rd June 1938, annexed, page 111, explains the difficulty in which the Labour Federation is placed in connection with the establishment staff at Hirapur.

Grievances of Establishment Staff.

The conditions of service relating to the clerical staff at Hirapur Works are extremely good and the Company is satisfied that they have no cause for complaint.

Mr. Homi handed in a list of alleged grievances on 7th August 1937. They were not discussed. A copy is annexed. They were also referred to in the memorandum of 23rd June 1938 but merely as a passing reference.

In paragraph (8) of the resumption terms it was agreed that the Board should take into consideration the grievances, if any, of the establishment staff. The Company awaits details before making any statement.

Without prejudice to the objection that the Labour Federation is not legally entitled to represent the establishment staff, and in order to enable the Board to deal expeditiously with all matters which may be raised, the Company will not object to the Labour Federation making submissions before the Board on behalf of the establishment staff.

Letter from Works Superintendent, Hirapur, to Labour Federation, Burnpur Branch, dated the 28th May 1938.

No. W/5178, dated Hirapur, the 28th May 1938.

From—The Works Superintendent, The Indian Iron and Steel Co., Ltd., Hirapur.

To—The Honorary Secretary, Labour Federation, Burnpur.

I am in receipt of your letter No. L.F. 287/B of 25th inst. enclosing a copy of the "resolution of a mass meeting of workers". I have also to confirm your visit to me on 26th May intimating that your letter under reply constitutes ten days' notice from the workmen to strike.

I am directed by the Managing Agents to reply that the notice to strike is a contravention of the conditions agreed to by your President, Mr. Homi, inasmuch as it was arranged with him at a meeting held here on 6th April that "before a notice of either a strike or lock-out is given, every effort will be made to arrive at a settlement." Your letter of 25th May is the first intimation to me of your present alleged grievances and, therefore, the union and/or the labour have made no attempt to put forward and discuss their alleged complaints with me before the notice to strike has been given.

The Managing Agents now authorise me to state, and their action has the approval of the Board of Directors, that the Company has faithfully carried out the policy and the measures as announced in respect

of the various points discussed at the request of Mr. Homi at Hirapur on 7th August 1937. In regard to your "points of special demands", I am directed to observe as follows:—

1. *General Increment of 25 per cent. over the present wage.*—The Company has already announced the extra wages bonus scheme under which the workmen have received in October last two weeks' wages as an on-account payment for the year 1937-38. On the completion of accounts for this year and the announcement of final dividend further payments as per scale will be made to those workmen who will be entitled to receive the same. The Company cannot consider any further general increase in wages.

2. *To establish grade scale and uniform rate of wages.*—This principle has already been agreed to. Lists are in course of preparation and it is hoped to complete them and put them into effect within next 2/3 months.

3. *Sickness benefit.*—Rules embracing this principle have already been announced and are at present in force. There can be no further alterations.

4. *Provident fund.*—The Company has already announced the Provident Bonus scheme—a scheme which in the opinion of the management is most suitable and practicable to work from the workmen's point of view and is already working satisfactorily.

5. *Acting allowances.*—The present system of acting allowances will become clear when the scale of wages is introduced.

6. *Rest houses.*—There is already a rest shed outside the Works gate. The Company will investigate the position and, if necessary, will construct another rest shed.

7. *Fortnightly payments.*—Fortnightly wages payments are made on fixed days every two weeks. There is no point in the demand for payment on fixed dates, as 15th and 30th may fall on Sundays.

8. *Accommodation of sufficient quarters.*—During the past two years the Company has spent large sums of money and constructed 37 blocks or 370 units of quarters. They have also in hand at present the construction of quarters for the sweepers class. The position is continuously being reviewed and when necessary, further construction will be taken in hand.

9. *Electric flood lights.*—The Management has in view provision of better lighting in the labour quarters areas, but this cannot be done until the power house extensions are completed and the town development scheme is put into operation.

10. *Lady doctor.*—A new hospital is being built and when this is completed medical facilities will be extended.

11. *Wages of sanitary staff and unskilled labour.*—This is covered by paragraphs 1 and 2 above.

Sections 12, 13 and 14.—With regard to these paragraphs in your letter, this is not the concern of the Labour Union, as one of the essential conditions of employment of the establishment staff, the Watch and Ward, darwans and chaprasis is that they can under no circumstances join the Labour Union. The Company cannot deviate from this policy.

A copy of this letter has been sent to Mr. M. Homi, your President at Jamshedpore.

Strike Notice, Kulti, dated the 29th May 1938.

(See page 94.)

Letter from Works Superintendent, Kulti, to Labour Federation, Kulti Branch, dated 30th May 1938.

No X1140, dated Kulti, the 30th May 1938

From—The Works Superintendent, Kulti Branch,

To—The Vice-President, Labour Federation, Kulti Branch

Your 334, dated 29th May 1938

1 We are in receipt of the above containing copy of resolution passed at the general meeting of your Federation on the 29th instant and have to confirm your visit to us to-day accompanied by your Secretary and certain members of your Committee when you intimated that your letter under reply constituted 7 days' final notice from the workmen to strike on the 6th June that is after termination of work at 4 p m on 5th June

2 We have now to point out that this notice of a strike is a contravention of the terms of settlement agreed to by your President Mr Homi in that before notice of either a strike or lockout is given every effort should be made to arrive at a settlement—it was further agreed that any notice so given would be of 10 days duration Your letter of the 29th instant is the first intimation to the Company of your present alleged grievances and therefore the Union and/or the labour have made no attempt to put forward and discuss their alleged complaints before the notice to strike was given

3 In regard to your alleged grievances we have to state that the Company have faithfully carried out the policy and the measures as agreed in respect of the various points announced and in regard to the particular items which you mention we have to observe as follows —

(a) To the best of our knowledge all the terms of settlement as between the Company and your President Mr Homi have been given effect to If the Company have inadvertently acted in any way contrary in any specific case and you give us details, the matter will receive our full consideration and adjusted as may be found necessary

(b) We cannot agree that reductions which we are now in the process of making both on account of surplus labour as well as that necessary in consequence of the relining and repairs to blast furnace and auxiliary plant so affected is unjustified and in this matter the Company is the sole judge

(c) In regard to the dismissals of long service workmen we shall be glad if you will give us names of the men and departments in which they work but we would point out that though the Company will as in the past so in the future always give special consideration to men having long service, any action they take in this matter is entirely at the discretion of the Company We shall be glad however to look into this in the case of any men whose names you care to place before us. At the same time we must remind you that broken service cannot be taken into consideration.

(*d*) We have no knowledge of any statement having been made of the nature you describe for postponement of leave. Granting of leave must of necessity be based on consideration of certain factors which include the average total absentees on account of normal leave, absence without leave, sickness and accidents, etc. The total absentees under these heads alone average between 1,100 and 1,200 per day. We regret it is not possible to grant three months leave as suggested in lieu of discharges. In this connection we would remind you that the Company have on their own initiative granted a period of one month's grace when calculating workmen's service.

(*e*) There is no condition in the terms of settlement providing for men of less than 12 months service being entitled to leave wages or sick rules and for this purpose the prescribed year is the basis of calculating service under the Leave and Sick Rules as also in the case of provident bonus and extra wages scheme.

(*f*) There is no mention in the terms of settlement that members of your Committee will not be discharged.

(*g*) You are perfectly well aware that owing to the inadequate records maintained by the Bengal Iron Co., Ltd., it is not always possible to state with any degree of accuracy the exact period of employment of long service employees and in calculating retiring gratuity we have invariably computed the amount to be paid calculated on a generous basis and we have on no single occasion deliberately deprived any employee from receiving the maximum which the circumstances of his particular case warranted.

(*h*) We are fully aware of the labour strength required to carry out the Blast Furnace and relining repairs as also repairs to the auxiliary plant and the point you raise has been taken into consideration when making reductions in labour.

(*j*) In our letter X1102 we wrote—

"We hope that when this reduction has been completed it will not be necessary to make any further similar major reductions for some time subject of course to circumstances arising which neither you nor ourselves can at present reasonably anticipate".

We have no knowledge of ever having made any promise or any statement of the nature you outline nor are you correct in saying that we have made reduction of this nature every month.

(*k*) No statement was made at the time of the reduction of the Works Extension Department some months ago that men would be reinstated within one month. In actual fact, however, a number of these men were taken back.

(*m*) The question of termination of employment of men over one year's service has already been dealt with in paragraph (*c*) and that of three months' leave in paragraph (*d*).

4. Your statement that the reduction is being made at the instigation of Harnam Singh is absurd.

5. We confirm having advised you at our meeting today referred to above that we hope to give you details of labour required to maintain the essential service during the strike and you promised to arrange accordingly.

Letter from Labour Federation, Kulti Branch, to the Chairman of the Board of Directors of the Company, dated the 23rd June 1938.

No. 623/38B, dated Kulti, the 23rd June 1938.

From—Mr. Amanatullah, Secretary, Labour Federation, Kulti,

To—The Chairman of the Board of Directors, The Indian Iron & Steel Co., Ltd.

I have been authorised to communicate to you as under—

My Committee has very carefully considered the present situation obtaining at the Kulti Works in the light of the exhaustive discussion we had last morning with you and your brother Director Mr. K. C. Mahindra and the Works Superintendent. Mr. Thornton. and my Committee is of view that in this discussion we have not brought the situation any nearer solution than when the matters were first discussed between you and our President, before the strike notice terminated.

My Committee has desired to recapitulate the position for purposes of a clearer understanding of our view point and for record which I am hereby doing.

1. *Provident fund*.—My Committee, for brevity's sake, refers you to the representation made in this behalf by our brother workers of Hirapur with which my Committee is in complete accord. Here is also the Company's definite agreement in this matter at the time of the settlement between our President and your Company on the 26th June 1937 at Kulti and which we once again put up to you for your earnest consideration

"It is the intention of the Management to constitute a provident fund for the workmen The main principle in which it will operate will be on the basis that the workmen shall contribute a certain portion of their earnings to the fund and the Company's contribution will be payable on completion of twelve months' service. Details are being worked out and the scheme will be announced later."

The workmen feel that the original scheme so unambiguously agreed to, if put into operation, will afford them greater satisfaction.

2 *Acting allowance and grade scale*.—The same representation holds good regarding this as made to you by our Hirapur brothers and the position regarding establishment staff, though not so complicated as at Hirapur, still, in essence remains the same.

3. *Privilege leave*.—My Committee deeply appreciates the relief granted to the workmen by rectifying the previous error in insisting on a workman completing twelve months' service from 1st August of a year to 31st July of the succeeding year to enable a worker to draw his previlege leave by substituting any 12 months' service of an individual worker for drawing such benefit as is usually and normally done elsewhere and indeed at Hirapur even. My Committee hopes that those whose leave had been delayed or refused may be satisfied in this respect.

4. *Reduction*.—My Committee feels that as one of the most potent reasons for unsettling the minds of the workmen which has precipitated the present crisis. My Committee has not desired to dispute the right of the employers to regulate the number of men

needed for its operations but considers itself entitled to represent on the methods and pace of reduction and in this connection once more urges upon you the necessity and desirability of solving this problem by generously agreeing to compensate them for loss of services and prospects brought about without any fault of their own by some mutually agreed upon sum proportionate to every year of service put in, if it has been found impossible to reduce only men who have put in one year and less in service. As an instance we may cite the Tata Iron and Steel Co., Ltd., who in 1928 had permitted the scheme of voluntary reduction on the basis of payment of one month's wages, for every completed year of service. In the case of the men involved in the Blast Furnace and Coke Oven Departments during the period of repairs my Committee feels that the same privilege should be extended to those men who have no chance of being restored to their services on resumption of the operation of the blast furnaces within a prescribed period--say six months or a year—the balance who will resume work to be permitted a continuity of service with the exception of the period involved in repairs.

We commend the scheme for your earnest consideration.

5. *Quarters*.—My Committee feels that there is a very acute shortage of quarters for your employees at Kulti, the position is really aggravating and we urge and desire careful and immediate solution at your hands.

In conclusion, my Committee earnestly hopes that good will and sympathy, of which we assure you of ample proportion from our side, will be brought to bear for the solution of the problems that have presented themselves at this juncture in which effort my Committee assures you of full co-operation.

(4) Reduction.

to independent arbitration either by a nominee of the Government of Bengal or a High Court Judge.

In respect of quarters the Company has already sanctioned new quarters, work on which will commence soon after the rains.

In regard to the establishment staff including the clerks and Watch and Ward men, your Union has been repeatedly advised in the past that it is an essential condition of employment of this staff that they are not to join a labour union.

If any of the employees of the Company ranked under the establishment staff have joined your Union they have violated an essential condition of their service.

Late on Thursday night (23rd instant) your President Mr. Homi declined, on behalf of the Union, to accept the offer of the Management.

Letter from Labour Federation, Burnpur Branch, to the Chairman of the Board of Directors of the Company, dated 23rd June 1938.

No. 623/38-A, dated Burnpur, the 23rd June 1938.

From—T. C. Ghosal, Esq., Secretary, The Labour Federation, Burnpur,

To—The Chairman of the Board of Directors, The Indian Iron & Steel Co., Ltd., Kulti.

I have been authorised by the Managing Committee of the Labour Federation, Hirapur Branch, to communicate with you as under—

My Committee has very carefully considered the present situation obtaining at the Hirapur Works in the light of the exhaustive discussions we had yesterday morning at Hirapur with you and your brother Director Mr. K. C. Mahindra and your Works Superintendent Mr. Peeling and my Committee is of view that these discussions have not brought the situation any nearer solution than when the matters were first discussed between you and our President before the strike notice terminated.

My Committee has desired me to recapitulate the position for purposes of a clearer understanding of our view-point and for record, which I am hereby doing.

I. *Provident fund.*—My Committee is of opinion that the scheme of provident bonus as adumbrated by your Company, whatever merits the scheme may have and we do not deny their existence, does not conform to the terms of settlement arrived at between our President and your Company last August in that your scheme only takes care of the Company's contribution and do not provide for the workmen's share of the saving, which is half the essential part of the scheme, if not the most vital one, agreed upon. We beg to quote the demand as put forward and the agreement made thereon by your Company:—

Demand.—A scheme be fixed for a provident fund on the following basis:—

The Workmen and the Company shall alike contribute one-twelfth of the workmen's wages every month and the amount allowed to accumulate etc., etc......

Company's reply.—The principle of some form of savings fund to which both the Company and the worker contribute is approved. The proposal will incorporate some form of scheme for gratuity dependent on long service. The scheme is being worked out, etc.

The position appears very clear from the above quotation. In regard to the observation made this morning that the scheme as agreed upon involves considerable cost in the maintenance of the accounts—some 14,000 of them—we may be permitted to state that this consideration

never arose during the course of discussions in August last nor we feel would it be fair to ask the workmen to contribute wholly or in part for the maintenance of such accounts or for the Company to abandon the original scheme on the score of the cost involved. We may draw your attention, as has been previously done to the fact that the Tata Iron & Steel Co., Ltd., is maintaining 27,000 separate Provident Fund Accounts and all the formalities attendant thereon and yet the workmen have not been called upon to contribute wholly or in part towards the costs of maintenance nor have their costs, we are informed, been so prohibitive. The workmen feel that the original scheme as contemplated by both the parties will afford them greater satisfaction and will bring the situation nearer solution.

2. *Sickness benefit scheme.*—My Committee is of opinion that the rules as framed have had the effect of practically nullifying the benefits intended to be conferred upon the worker during the time of his sickness. The demands and the agreement in August last were as follows:—

Demand.—Sickness benefit: The workmen shall be entitled, of all classes, to a sickness benefit of full wages for the first month of sickness, to half the wages for the next month of continued sickness and thereafter according to the discretion of the management.

Company's reply.—Agreed to and rules are already framed for the purpose.

It will be observed that the Company agreed to the scheme as put forward on behalf of the workmen. The rules that were stated to have been framed for the purpose were made on August 1st, 1937, six days before the settlement and had no chance of being either carefully examined or of being watched for their effects in actual operation. Even then a reservation was made for further representation on these rules if they failed to carry out the original intention. Correspondence and representations have since then been continuously made for amendment of these rules but to no purpose. It may be interesting to note in this connection that similiar rules were framed for Kulti and that they were ultimately modified in about January last after strenuous representations when these rules were found to have nullified in precisely the same way as at Hirapur, the original intention, but no alterations have been made up till now at Hirapur with the result that though a workman is entitled to get full wages for any period of sickness from one day to one month, in actual operation for sickness less than fourteen days at a time ,his absence on account of such sickness is debited to his privilege leave instead of being credited from the sickness benefit, with the result that at the end of a year of service, a workman finds his privilege leave all gone and is further mulcted by loss of pay in respect of sickness of a total more than fourteen days but less than one month, when it occurs in periods less than fourteen days at a time. You will agree, we hope, that this was never contemplated when the settlements were made either at Kulti or at Hirapur and the workmen felt gratified when the original intention was restored at Kulti by necessary modifications of the rules, which, however, to the great detriment of the workers' interests still continue to be in operation at Hirapur.

My Committee suggests that grateful as the workmen are for the concessions in this direction which probably obtain in very few places in this country, the bringing of the rules in line with those obtaining

at Kulti will go a great way in restoring confidence and will implement fully the original intention behind the demand.

3. *Acting allowance.*—My Committee feels that the workmen have a genuine grievance in this respect in that practically no benefit is received by them even though their representatives had agreed to accept the minimum wage of the grade in which a vacancy arose though they could have insisted on the carrying out of the actual wording of the agreement, which runs as follows:—

"Acting allowance shall be granted when an employee on a lower rate of wages works in place of a higher rated one. This shall be done, etc., etc."

"This has been adopted."

In actual operation, there has been no such result and we have been informed that the acting allowance arrangement could not be fully put into operation as no minimum rates of wages have been fixed because the grade scale of wages of all the workmen have not yet been completed. My committee feels that during the interval there could have been no difficulty in granting such allowances on the existing scales of wages and that the discontent on this basis has been one of the contributing causes for the precipitation of the present crisis.

4. *Grade scale and standard rate.*—My committee regrets that though assurances were given from time to time in carrying out the undertaking—Principle agreed and drawn up by Management—the enormous delay in this respect has had a very disturbing effect on the workmen in general, combined as it did with the difficulty in respect of getting acting allowances as also to a continuous deferment of the hopes in the minds of some workmen of an advance in their wages on such fixation or revision of wages. My committee appreciates the reasons advanced by your Company for such delay and a definite time limit given earlier would have dissipated all doubts and disappointments in this respect. Even as late as on the 3rd May, when our President called on your Works Superintendent, we were informed that these grade scales would be published on the 18th May, and yet on the 28th May we were informed that this would take about two or three months more. The uncertainty from your side in this respect had put my Committee in wrong with the workmen and had made its task difficult in interpreting the management to the workers.

5. *Establishment staff.* My Committee feels that the position in this connection has become very complex and complicated by your Company's insistence that all establishment staff, Watch and Ward and clerks should dissociate themselves from the Labour Federation—nay, it goes still further and asks the Federation to deprive them of their existing membership and wants the Federation to give an undertaking that it will not have any employees of these classes on its membership roll. The position may be recapitulated as under—

When the Kulti settlement took place on the 26th June 1937 no controversy arose on this subject. The question cropped up at the time of the Hirapur settlement on August 7th, 1937. The position then remained as under—

"A list of grievances of staff which was handed to Mr. Homi was delivered. Grievances were not discussed and a question whether the Company will employ staff who are members of a union was raised but not pursued. This can be discussed again."

During the interval several workmen on the muster roll were transferred to establishment section while they were already members of the Federation, as also a large number of establishment staff, Watch and Ward and clerks enrolled themselves as members of the Federation so much so that at the present moment nearly all office chaprasis, establishment staff and clerks and nearly 70 per cent. Watch and Ward can be claimed as members of the Federation who have voluntarily joined and subscribed to the funds of the Union. While my Committee appreciates the reasons behind your view point it cannot help observing that your attitude at present is neither necessary nor urgent and that it constitutes in the first instance an intolerable interference with an individual's freedom of association and any acquiescence by the Union will amount to an acceptance of outside dictation on the Union as to the type or class of affairs of the Union. My committee hopes your Company will appreciate the legal and moral difficulties and obligation of our Union in respect of these members. In the first instance, the Union cannot legally call upon these members to resign or to cast them out and in the second instance if your Company coerces them into resigning at the risk of their jobs (which is problematical) or if your Company dismiss them against their will for continuing to be members of the Federation, the Union will without escape under the legal and moral obligation to stand by such members and in either case, the situation can come no nearer solution the more so that at the present moment all this section has joined in a common cause with the workmen. My Committee feels that had your Company accepted the offer of our President—and even the last moment offer of early Monday morning the 6th instant when the show down had not taken place—the situation could have still been saved but after that date situation has been beyond recall. My Committee feels that you will appreciate the Federation's attitude in that it has not called out Watch and Ward staff considering them as an essential service the same as employees of power house, boiler and pumping plants without, as in the latter case, ceasing to represent their interests through the Union. My Committee feels that insistence at the present moment by your Company on the adjustment of relations of this section of employees with a labour union would but postpone mutual understanding and this would be deeply deplored all round, the more so without restoration of the *status quo* in respect of certain employees of the Laboratory Department whose dismissal has left an impression of their having suffered on the grounds of conscientious objections and principles.

In respect of other materials placed before you alongside of strike notice, my Committee feels that an assurance from you for a satisfactory solution would prove of valuable assistance in paving the ground for an understanding which, I am desired by the Committee to assure you, is uppermost in the minds of the Union.

In conclusion may we hope that the present dead lock may be solved to mutual satisfaction by methods of conciliation and good will that have so far prevailed with both the parties.

Reply of Messrs. Burn & Co., dated 27th June 1938.

The 27th June 1938.

From—Messrs. Burn and Co., Managing Agents.

To—The Secretary, Labour Federation, Burnpur.

Referring to your letter No. 623/38-A of the 23rd inst. addressed to the Chairman of the Board of this Company we have to advise you that after the receipt of your letter we held conversations with your President Mr. Homi on the same afternoon. We offered to submit the issues detailed in your letter under the headings—

(1) Provident fund.

(2) Sickness benefit scheme.

(3) Acting allowance.

(4) Grade scale and standard rate.

to independent arbitration either by a nominee of the Government of Bengal or a High Court Judge.

In regard to the establishment staff including the clerks and Watch & Ward men your Union has been repeatedly advised in the past that it is an essential condition of employment of this staff that they are not to join a Labour Union.

If any of the employees of the Company ranked under the Establishment staff have joined your Union they have violated an essential condition of their service.

Late on Friday night (24th instant) your President Mr. Homi declined, on behalf of the Union, to accept the offer of the management.

Terms of Resumption of Work, 17th July 1938.

(See page 96.)

XII.—Evidence recorded by the Board.

Nand Lal Naik (on solemn affirmation)—

I used to work in the Watch and Ward Department.

On 19th April 1938 my Subedar, Balbahadur, told me to work from 10 a.m. till 12-30 p.m. and from 2 p.m. till 8 p.m. Between 6 p.m. and 8 p.m. I was allowed two hours off to go and take my meal, but I was told to resume my duties before 8 p.m.

I returned from my meal at 7-30 p.m. As soon as I came back Lalit Bahadur told me he had been deputed by the Subedar to take my place, as the Subedar intended to change our duties next morning. So Lalit Bahadur asked me to make over charge to him and to go away, as I had been on duty so long. I made over charge to Lalit Bahadur and then went home.

Next morning I was called by Subedar Bal Bahadur to explain why Dhani Singh had been found asleep on night duty, when I was supposed to be in charge during the night. My belt was taken away from me, I was confined in the guard room for an hour, and was then taken before Mr. Wickham along with Dhani Singh and Lalit Bahadur. I stated in my defence the explanation I have given here, and was then allowed to go.

I worked as usual on the 20th, 21st and 22nd April.

On the 22nd April I was given a card and a tin box to collect subscriptions for the Anti-Tuberculosis Fund. I was given them by the Secretary, Amanatullah. This is the card I got (shown). I collected suscriptions from 8 a.m. till 4 p.m.

When I had almost finished, Subedar Balbahadur came and asked who authorised me to collect subscriptions. I said I had got the tin box from Amanatullah. At this he got angry and threw away the box and the coins inside it. I picked up the box. The Subedar told me to report to Mr. Wickham next morning in office.

On the 23rd morning when Mr. Wickham came to office, my Subedar complained that, in spite of his orders, I was not disassociating myself from the Labour Union. He stated that he did not want such a man in the Watch and Ward. I claimed that I was innocent, but was asked to go away. At 3 p.m. I received a notice of discharge.

Before this the Subedar had twice asked me to sever my connection with the Labour Union, and threatened me. I petitioned the Labour Union on that account.

Cross-examination.—I did say that it was on the 19th that the incident over the change over in duties took place.

It was on the 19th that Lalit Bahadur came to me and ordered me to change over duties. It was not on the 21st.

I was on my way back from the bazar and met Lalit Bahadur in the bazar. It was there that he told me that the Subedar had changed the guard.

I served four years in the Army.

It is not true that I was on duty at the main gate on the 21st. I was on duty on the 19th. I was in charge of the Strong Room on the 19th. I had never been in charge of the main gate before.

I got no written order from Lalit Bahadur releasing me from duty on the 19th. It is not the custom to give such written orders.

Before I was on duty at the main gate I used to sell ice in the morning and evening for the Company. I did this for 15 days. I used to make over the money to Balbahadur. This I did as part of my duty in the Watch and Ward. Before this I was on patrol duty.

I do not know what time Lalit Bahadur was on duty before.

Lalit Bahadur told me it was the order of the Subedar. Lalit Bahadur is not my superior officer, but I acted on his order when he said it came from the Subedar. I did not ask the Subedar Balbahadur if the order had been changed, but I did ask Balbahadur Naik.

I served in the Assam Frontier Rifles.

It is not a fact that I ever took thumb impressions on a blank sheet of paper to frame a petition against the Subedar.

Lalit Bahadur said the Subedar had made the change because I had worked double time.

My daily duty is eight hours.

That morning I sold ice from 10 a.m. till 12 noon. When I went to the Subedar to hand in my money at noon, he ordered me to go on duty till 4 a.m.

On the 20th the Subedar asked me why I did not return to duty. He said that it had been his order that I was to go on duty till 4 a.m. next morning, but I had gone off at 8 p.m. the previous night. Lalit Bahadur said he had changed with me at 8 p.m. The Subedar said he had given no such order to Lalit Bahadur. I said that the quarrel lay between the Subedar and Lalit Bahadur.

I would accept a statement from a man who came and said he had orders to relieve me. I would accept it without question.

The Subedar took away my belt, and the belts of Lalit Bahadur and Dhani Singh. We were all put in the guardroom. The Subedar complained to Mr. Wickham I was put on duty at No. 5 gate.

I was dismissed for collecting money without the permission of the Subedar.

To Chairman.—I am 26 years of age, and am a native of Nepal. I enlisted at the age of 15 or 16, and was in the army for three years. I have lost my certificate of discharge. I lost it crossing a river. I left the army of my own accord after serving the term for which I enlisted.

After leaving the army I went home. I did nothing between leaving the army and joining this company. I joined the company for the sake of my belly. I came because some of my fellows told me about the company. I did not show my certificate when I was engaged. I had lost it before.

Lalit Bahadur actually did my duty on the 19th.

In the army a man has to stay on duty till relieved under an order of his superior officer. It is not so under this company.

After my discharge I submitted a written complaint to the Federation.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Lalit Bahadur (on solemn affirmation)—

On the 19th April last I met Nanda Lal in the basar at about 7-30 p.m. I was guard of the Treasury. Arman Singh Havildar had given me orders to relieve Nand Lal at 4 a.m. I got the order at 4 p.m.

I was about to start when Subedar Balbahadur asked me where I was going. I said that though my duty would not commence till 4 a.m. I was going to sleep at the gate as I had no one at home to wake me up in the night. Balbahadur said that as I had this difficulty, he would change my duty from the next day.

Nand Lal and I changed duties that night. I told Nand Lal that I was there and would do his duty, and he could go home. I did not tell him it was the Subedar's order. I did Nand Lal's duty for him.

Next morning I was summoned before Mr. Wickham. I was questioned why we had changed our duties. I answered that I had gone there for my duty, and that, as there was no point in two men remaining there, and as I had to stay at the gate, I did Nand Lal's duty.

Both Nand Lal and I were given work that morning.

I do not know on what day Nand Lal collected. I gave him two annas and got a ticket. I do not know if Balbahadur took him to task.

Cross-examination.—Nil.

To Chairman.—I am 40 years of age. I served in the Army in a Frontier Regiment for six years.

I am not sure about the date on which this happened. I do not know if it was the 21st and not the 19th.

Next morning Nand Lal, Dhani Singh and I were deprived of our belts from 7 a.m. till 9 a.m. Then the three of us returned to duty.

Nand Lal worked for two or three days afterwards.

Nand Lal collected subscriptions after this incident.

Din Ali (on solemn affirmation)—

Aziz Mistri went on leave. He is a mason. I worked for him for 15 days. He used to get Rs. 1-6. My pay is 12 as. 6 p. I did not get the pay drawn by Aziz, though I asked for more. I got no more than my own pay.

Kartick Mistri also went on leave in the same month, and I did his work for 15 days. He was drawing Rs. 1-3. I was not given any more than my own pay though I told the Sahib about it.

Cross-examination.—I never worked for a man called Farukh. Farukh was working in a different place from me.

To Mr. Mohindra.—Farukh was there along when I was working. He used to get 12 as., two annas more than I was getting.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Amanat Hossain (on solemn affirmation)—

I worked in the machine shop and get Rs. 1-3-3 as my pay. When Hamid was away I got no more than my ordinary pay. I cannot say how much Hamid drew (witness says 5¾ annas—which is taken as meaning Rs. 1-5-9).

I worked for Hamid for 15 days. I worked on the same machine as he did, only his is a big lathe and mine a small one.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Dhani Singh (on solemn affirmation)—

My home is at Pratapgarh in the district of Allahabad.

I went home when the strike was on.

On the 15th July I came back again. I went to Barakar and there fell sick. My whole body was swollen, and my eyes as well. On the 2nd August I came to my foreman with a doctor's certificate, but I was not taken on again.

I used to be a hammerman in No. 4 rivetting shop.

Cross-examination.—I have been staying at Kulti from the 2nd August up to yesterday. I sent these two letters (shown) from Barakar. I sent one in a registered cover on the 17th August. I dated the letters from Barakar as I was staying at Barakar.

To Mr. Homi.—Barakar is 2 miles from Kulti. I used to reside at Barakar when I was working at Kulti, and used to attend my work from there every day.

Chairman.

The 2nd September 1938.

Haman Ojha (on solemn affirmation)—

I am working in the Electric Department at Hirapur as a lineman. My ticket is No. 452.

I have often had to work on a Sunday. When I have worked on a Sunday my ticket is not punched on the Sunday but is punched on the following Monday. If I work on a Sunday, then I get Monday as an off day.

My ticket used to be marked "E", now it is marked "EC". It has been marked "EC" for the last two weeks.

My "EC" ticket has been punched for Sundays since 18th August.

I have received no allowance for working on Sundays.

Cross-examination.—Nil.

N.B.—Mr. Peeling explains that "EC" denotes "Electric Construction" and has no sinister connotation.

T. H. Ellis,
Chairman.

The 2nd September 1938.

T. C. Ghosal (on solemn affirmation).—

I am employed in the Electric Department. I am on the Re. 1-12 rate. My ticket is No. 240E. Sunday is my "off" day. I am working every Sunday, but get no allowance. I only draw the single rate, and my ticket is not punched on Sunday.

I have been married 10 years. I have two children. Three brothers are dependent on me: one brother is married and I support his wife too.

We are in great need of a lady doctor, and the need has been acute from 1934. Sometimes I get medical attention from the Company's doctors, and sometimes I call in outside doctors. I want a lady doctor to attend to my wife and to my brother's wife.

In November 1934 my wife suffered from internal complaints during the time of her pregnancy. She was then in the 6th or the 7th month. I consulted the Company's doctors, but got no satisfaction from their treatment of the case. So I consulted the wife of Dr. Choudhury at Asansol. She is a Lady doctor. I called her in as my wife was troubled with excessive bleeding. I then had to take my wife to the Lady Dufferin Hospital in Calcutta. I took her in June 1937 when she was again pregnant, and bled excessively. Since then she has been all right.

I have taken prescriptions from the Company's dispensary. I have also had to procure medicines from outside at my own expense, such as injections and tonic mixtures.

Cross-examination.—I would rather have my wife treated by a lady doctor with L.M.F. degree, than by the Company's doctors.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Buddhu Ram on (solemn affirmation).—

I work in the blacksmith's shop on a pay of Re. 1-9. My ticket is No. 355. I get an "off" day on Sunday. I have to work on Sunday though it is an off day, but I do not get any allowance for it. My ticket is not punched on a Sunday. I leave it at the gate and it is punched on the Monday. I do not have to work on Monday. I go on Tuesday and get the ticket back.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Banshi Ghati (on solemn affirmation)—

I am an outdoor mistri, working in the blacksmith's shop. I am a fitter. I draw Rs. 2-4. My ticket is No. 354.

I now get off on a Sunday. Before the strike I used to have to work on Sundays. I used to get overtime or else get "chhuti" on Monday.

When I worked on Sunday I used to get an overtime slip. When there was less work I used to get "chhuti" on Monday.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Beroo (on solemn affirmation)—

I work in the T. B. H. Department. I draw Re. 1-5. I am a tindal serang. My ticket is No. 783.

Sunday is my "off" day. Sometimes I have to work on Sundays but I get no allowance for it. My ticket is not punched on Sunday for Sunday work, but on Monday.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Nathuni (on solemn affirmation)—

I am a Boiler Fitter, working in the C. O. Boiler. My rate is Re. 1-8. My ticket is not punched till Monday.

Cross-examination.—Nil.

To Chairman (on an examination of his ticket which he carried in his breast pocket).—My ticket has not been punched for Wednesday afternoon as I went out by a different gate. I get my "overtime" for Sunday on Wednesday and that is why I went out by a different gate. I get the overtime separately.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Nabba Khan (on solemn affirmation)—

I work in the C. O. B. Department. My ticket is No. 9. I draw Rs. 70 per month. I am a "ganger" in charge of the boiler gang.

Last year my wife fell ill at Burnpur. I spoke to the Chief Medical Officer about her. He sent the nurse. My wife was suffering from some internal complaint. The nurse told me to take my wife to hospital for a medical examination. I did not allow my wife to go as I observe strict *purdah*. I called in a lady doctor, Mrs. Choudhury. I paid her Rs. 4 for each visit, with Rs. 2 as taxi hire. She paid seven visits to my wife.

Cross-examination.—Nil.

To Mr. Mohindra.—Under no circumstances will I allow my wife to be examined or treated by a male doctor.

T. H. Ellis,
Chairman.

The 2nd September 1938.

S. N. Gupta (on solemn affirmation)—

I draw a salary of Rs. 43-8, and am working in the L. W. O. Department.

In 1933 I had occasion to call in a lady doctor. My wife was pregnant and there was excessive bleeding. I was advised by the Chief Medical Officer to call in a lady doctor from Asansol. I did call in the lady doctor from the Government Hospital at 9 p.m. She stayed till 5 a.m. In the meantime my wife was delivered of a dead child. There was a lady doctor then in the Government Hospital but I cannot say if she is there now. I paid the lady doctor's taxi hire.

Cross-examination.—I have had no occasion since to call in a lady doctor. I have 3 sons and four daughters. I call the company's doctor whenever my wife and children are ill. I have been in the company's service for 11 years. Two daughters and one son were born in my native village. The other children were born here in Hirapur. I have only had to call in a lady doctor on this one occasion.

T. H. Ellis,
Chairman.

The 2nd September 1938.

H. P. Goswami (on solemn affirmation)—

I am employed in the Establishment. I get Rs. 63 per month as pay. I go to the Company's Hospital when I am sick.

In 1934 I was ill for a long time. I had to take medicines which were not available in the Company's dispensary. I had to procure them from outside. I was ill for more than two months. I suffered from some internal complaint. I was on leave. Employees on leave get medical treatment from the company's doctors if they are in the station.

The Company pays all the medical bills of the covenanted staff. It pays their bills even for treatment in Calcutta. It pays bills for treatment in the Presidency General Hospital.

I do know this as all the bills pass through my hands.

I do not know if the uncovenanted staff get the same treatment.

Cross-examination.—I am the Day Book Clerk. I enter the bills in the register. I can only speak of the bills that come up to me. I can speak of some of the bills that have been paid by the company for the medical treatment of the Covenanted staff. Other clerks handle the bills but they finally come up to me.

All the bills finally come to me and so I can say that the Company pays all the medical bills of the covenanted staff.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Ajit Mukherjee (on solemn affirmation)—

I joined the Company on the 21st July 1938 in the Bill Section of the Accounts Department. I draw Rs. 80.

I do not know in whose place I was taken on. Abhay Mitra is still a bill clerk. I do not know what pay he draws. There are five bill clerks including myself. I cannot say what pay is drawn by the other bill clerks. I don't know what is the highest pay drawn by a bill clerk. None of the other four bill clerks were recruited after me. I can't say if it was made a grievance that Abhay Mitra was superseded by me.

At present I am a probationer. I am on three months' probation. I passed the Intermediate Examination. I was with Williamson Magor before. I applied in Calcutta for my present post. I was interviewed by Mr. Mahendra. He engaged me.

T. H. Ellis,
Chairman.

The 2nd September 1938.

Witnesses examined on the 5th September 1938.

Kapildeo (on solemn affirmation)—

I work in the Accounts Office. I get Rs. 18 a month. My hours are from 6-30 till 11-30, and then from 1-30 till 4-40, 5 or 6 p.m. there being no time limit.

In November 1934 I came late by two minutes one day when I was rejoining at 1-30. I was fined Re. 1 and was threatened with discharge when I wanted to argue the point.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

Dakshina Lal (on solemn affirmation)—

I work in the Accounts Office. I draw Rs. 16 a month. I joined on Rs. 14 and have had a rise from that sum of Rs. 2.

In November 1934 I was once late by two minutes. I was fined Re. 1.

On 7th December 1935 I was fined 4 as. I do not recollect what my fault then was, but it was not for coming late.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

S. K. Roy (on solemn affirmation)—

I work in the Accounts Department. I get Rs. 43 per month.

In 1936 I used to be late two or three times each month. I used to be one or two minutes late, but not more than that. I was warned for a time and then I was fined. I was fined 8 as. a time for three or four months. I had my family living with me, that, and the fact that the railway crossing was often blocked used to make me late. I have checked my fault since then.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

G. C. Sadhu (on solemn affirmation)—

I work in the General Stores, and draw Rs. 63 per month. I have been working for the Company for the last 20 years.

I am generally late in attendance. I have been late ten or twelve times a month. I have been ten, fifteen, or twenty minutes late. I live at a distance, that is why I am late. Sometimes I was fined 8 as., sometimes 4 as.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

S. Ghati (on solemn affirmation)—

I work in the Maintenance Shop. I get Rs. 1-3 a day. I am still on the muster roll. I was in the Establishment till October 1936, then I was put on the muster roll.

I was once late. I cannot remember in what year it was, but it was between 1931 and 1933. I was late by about five minutes. I was fined 6 as. At that time I was getting Rs. 15 per month as an apprentice.

Cross-examination.—Nil.

T. H. Ellis,
Chairman.

Captain Wickham (on solemn affirmation)—

To Chairman.—I am Assistant Labour Welfare Officer. I have been in the job since 4th November last. I am in charge of the Watch and Ward.

Nand Lal Naik was in the Watch and Ward. He was dismissed on the 23rd April for disobedience of orders. He had been ordered to remain in charge of the main gate from 4 p.m. till 4 a.m. He changed his duty with another man, Lalit Bahadur, without reference to any of his superior officers.

I called for an explanation from him. I held an enquiry next day, on the morning of the 22nd April. I think he admitted the charge. After my enquiry I sent him back to work again, as I had to send the papers to my immediate superior Mr. Gupta. Orders were finally passed by Mr. Gupta. Nand Lal was sent back to work pending receipt of orders.

It is not true that he was dismissed for selling Anti-Tuberculosis tickets without the permission of the Subedar.

To Mr. Kitching.—The selling of tickets took place before the 21st April. I don't remember if it was on a Saturday. It was definitely before the 21st.

To Mr. Bose.—The Subedar is Nand Lal's immediate superior.

The report that Nand Lal had changed his duty was made the following day.

I have no power to suspend a man pending enquiry.

I sent a report in writing to Mr. Gupta on the day after the offence. It was Subedar Balbahadur who reported against Nand Lal.

It is not usual to report such offences during the night.

I did not ask Balbahadur why he had not reported the offence to me during the night.

I did not take any written explanation from Nand Lal. The Subedar's report against Nand Lal was a verbal one.

There is an order of the Company that no member of the Watch and Ward can be a member of the Labour Federation.

Nand Lal made no allegation against the Subedar in his explanation.

I took no written explanation from Lalit Bahadur.

I took the statements of no persons save those of the Subedar Balbahadur, Nand Lal and Lalit Bahadur. Lalit Bahadur corroborated the statement of the Subedar.

I did not suspend Lalit Bahadur at all. He went back to his duty that day.

I suspected no conspiracy between Lalit Bahadur and the Subedar.

To Mr. Homi.—I took down in writing the statement made by Balbahadur, and sent it to Mr. Gupta with a covering letter from myself as my report. I also sent down my record of the verbal statements of Nand Lal and Lalit Bahadur. I will produce all those papers before the Board to-morrow if required.

I did not ask for any action against Lalit Bahadur. I don't remember if Lalit Bahadur said that it was at his instance that the guard was changed.

Obviously Nand Lal was the chief offender because he should have been on guard and was not. Lalit Bahadur was not so much to blame for he did double duty.

Mr. Gupta issued orders on the 23rd April.

The Anti-Tuberculosis collection was made before this incident of the guard.

I can produce books showing the posting of the guard. They will show the date on which the guard was changed.

I keep no personal diary.

I do not remember if a third man, Dani Singh, was put in the guard room. I did not confine them in the guard room.

To Chairman.—Nand Lal's belt was taken from him by the Subedar.

To Mr. Homi.—The guard room is an open place. I don't know if the men were asked not to go away.

No written charge sheet was drawn up against the men. They were marched up and told verbally what the charge against them was. I wrote down their explanations and sent them to my superior.

I don't remember if Nand Lal has appealed to Mr. Gupta or to the Company for reconsideration of his case.

I don't remember if he was given notice that his services were terminated. He was given pay up to the end of April and told to go at once.

One month's notice is not given in case of offence.

I consider changing duty without orders is an offence.

T. H. Ellis,
Chairman.

Mr. H. V. Peeling (on solemn affirmation)—

[On being shown letter No. I.F. 180/B (page 141) of the 1st February 1938 from the Federation Secretary to the Works Superintendent, Hirapur]—

I don't remember having received this particular letter but I certainly admit having discussed the subject to which the letter refers on many occasions with the representatives of the Federation. I have discussed the subject on several occasions.

I have received these two letters, No. L.F. 155/B of the 16th November, and its reminder, No. 162/B of the 23rd November 1937 (page 144).

I also received a copy of this letter, dated the 31st January 1938, to Mr. Martin. I did not reply to it. Normally I should not reply to any letter sent to the Head Office, of which only a copy had been sent to me.

In regard to the letters of the 16th November and the 23rd November, I arranged with the Labour Department Manager for Mr. T. C. Ghosal to come and see me—which he did on the 30th November.

I replied to the letters in my letter No. W. 8381 of the 30th November 1937 (page 140).

After February 1st, I discussed the matter with Mr. Homi on February 6th.

Cross-examination.—So far as I recollect my discussion with Mr. Homi on the 6th February was the result of a more or less casual visit, and was not pre-arranged.

I think my Directors would approve of my discussing with Mr. Homi any matter which might ultimately require their approval.

On the 7th August a joint meeting was held between Mr. Martin, Mr. Homi and myself. That discussion was certainly not made with regard to conditions both at Hirapur and at Kulti, for the Kulti settlement had been reached before we had that discussion.

I knew there had been an arrangement with regard to sickness benefit at Kulti. I have nothing to do with Kulti. As to the arrangement, I knew what was published, and no more.

To Mr. Homi.—I have had it reported to me by representatives of the Federation that there has been very serious discontent amongst the workmen on the subject of sickness benefit, but I have never had it personally reported to me by any of the departmental manager.

There has been a lot of correspondence with the Union on the subject.

I should say that the question had definitely never assumed an acute form.

There is definitely no justification for the strike on the sickness benefit issue. Labour have not gone on strike on that issue.

I do not agree that there has been enough discussion of this issue. I had verbally assured the Federation that I was prepared to discuss any case put up to me on its merits.

I am of opinion that such discussions would have been of advantage, because, as the rules have now been in operation for 12 months, statistics would have been available for quotation.

My point is that labour should not have gone on strike on this issue. There was a lot of correspondence, but I should have liked more correspondence and discussion

Finality in the discussion would have been reached between Mr. Homi as President of the Federation, and the Directors of the Company.

T. H. Ellis,
Chairman

Witnesses examined on the 6th September 1938.

Murabbi (on solemn affirmation)—

I used to work in the Laboratory on ten annas a day. I held ticket No. 50.

I committed no fault and do not know why I was discharged. I got no notice.

There used to be 35 or 36 of us in the same department We carried samples I had been in the department for 18 months this time. Before that I had been for 1½ years

Two or three men were taken in after I was discharged Two of them have since been discharged. The other man who has been discharged worked for 15 or 16 months.

There was no diminution of work in the department. I used to powder the samples and then make them over to the chemists.

All of us were members of the Federation.

Cross-examination —It is not true that I received a letter of discharge. Just after I had been discharged I went home, and there I was told by some men that I had been discharged. No notice was ever served on me.

I did not go to my native village. I remained in my own quarters.

It is not true that the Company has offered me any work.

It was at the gate that I found a notice which showed that some men had been taken on in my department after my discharge. It was not in my own department, but in some other departments that these men had been appointed.

To Mr. Homi.—Men were taken in other departments, not in my department.

I take samples of coal and limestone.

I went to work one day and was told by some men I had been discharged. I did not take my pay. I have not taken it yet.

To Mr. Mohendra.—I have not taken my pay as I still want work.

T. H. Ellis,
Chairman.

Bhadai (on solemn affirmation)—

I want work.

I used to take samples of coal, iron ore to the Laboratory.

I worked in the department for 15 or 16 months.

I do not know if any man was taken in the department after I was discharged. I committed no fault. I don't know why I was discharged. I was given no notice of discharge. I did not take my salary.

I am a member of the Federation. There has been no decrease of work—in fact there is too much to do.

Cross-examination.—I never refused a letter of discharge. I fell sick and went to hospital. It was there that I came to know I had been discharged because the doctor told me so and refused to give me medicine.

The Overseer told me to go and draw my pay, but I did not take it. I am not working so how can I go and draw my pay? If I take my pay how shall I get my job back? I hope to get my job back. Mr. Gupta never offered me another job. He never saw me at all. No one in his department ever came to me. I did not go to the gate for work. It is not true that I was offered a job as a khalasi on the same pay.

To Mr. Homi.—The Labour Office told me I would get my job back again, and that I had been discharged without any fault.

I was never offered any other work by the Company. I was sick for three or four days. I went sick on the 12th and on the 14th the doctor told me I had been discharged. I was not in hospital.

T. H. Ellis,
Chairman.

XIII.—Documentary Evidence.

Note by the Company on the discharge of six Laboratory staff and three khalasis.

It is alleged that these were discharged on account of their being active in the Labour Federation. This statement is absolutely false and the following points should be noted:—

1. We had no information that these staff were members of the Labour Federation.

2. If they were members they had no right to be and were acting contrary to their conditions of service with the Company, Vide W/Cir/7618, dated the 6th November 1937.

The fact of the matter is that the six establishment staff (5 Chemists and 1 Sampler) and the three labour were discharged as it was necessary to reduce the cost of the Laboratory through which a large amount of unnecessary and unprofitable work was passing. This is a common failing of an industrial laboratory, particularly when a plant is busy, for operators develop a tendency to send in for analysis samples which may be of interest, though not essential, for operation. A statement is attached showing the cost of running the Laboratory, the staff employed, the work done and the plant production covered, from 1929 to 1938. The following should be noted:—

(1) In 1929 which was our best operation year, as far as regular operation goes, the number of Chemists employed was 12 and the cost of running the Laboratory was approximately Rs. 30,000.

(2) We have tried out the policy of doing increased sampling with a view to bettering operation and in 1935-36 the number of operation samples for the Blast Furnace and Coke Ovens Departments had increased from 190 and 155 in 1929 to 756 and 1,717. This definitely did not improve operation, but the Laboratory cost had increased from Rs. 30,000 to Rs. 50,000. The number of Chemists at that time was 14.

(3) In 1936-37 we greatly reduced furnace operation sampling, but with no loss of plant efficiency—in fact, furnace operation greatly improved. On the Coke Ovens plant we were experimenting regularly as regards coal mixtures and deliberately increased our operation sampling. Further, in order to spread the work over a longer period than the day shift only, more Chemists were engaged and the number increased to 18.

(4) During the year 1937-38 we decided to reduce the number of samples taken and did so without any loss of efficiency, and we are during the current year reducing laboratory work still further to make the Laboratory do what it has been found necessary that it should do to assist operation, and nothing more.

The above deals with the case for reduction. As a matter of fact, the Chief Chemist considers that we could reduce by a further two chemists, but we have not done this as we consider it advisable to have sufficient staff to deal with sudden rushes of work and to cover cases of sickness.

As regards the way in which it was decided to reduce Laboratory staff, we decided on the following:—

Three Second Grade Chemists, one Third Grade Chemist, one Junior Chemist, one Sampler and three Khalasies.

The men who were discharged were chosen strictly according to their period of service in their respective grades. As regards Second Grade Chemists, there were two men—N. G. Datta and S. N. Ghosal—whose services had commenced on the same date and we decided on discharging Datta because, according to the Chief Chemist, S. N. Ghosal is the better worker.

As regards the khalasis, these are labour and would in the normal course of events have been transferred to another department as khalasis of their type were required. Actually two of these men were offered work in other departments later and refused.

From—Babus Pramatha Nath Mukherjee and others, Chemists.

To—The Chairman, Board of Conciliation, Asansol.

We beg to submit the statement that we realise that the action of the Company in connection with our case is perfectly justified and we have nothing to say against it.

We beg submissively to tender our unqualified apology for any wrong that we might have done to the Company with or without our knowledge.

We, therefore, pray that the issue in connection with our case be dropped.

We maintain that the person absent also shares the same view with us.

Thanking your honour.

Statement by the Federation Advocate.

(In respect of the men referred to in Issue No. 13.)

I have no instructions Sir from these gentlemen to represent their case.

From the Union side I have been asked to state that the present proceeding is not in order so far Issue No. 13 is concerned, because what is the Board deliberating upon? Issue No. 13 says whether the Company's action is right in not reinstating these men in their original positions on the resumption of work, when everybody else was to be taken in their original positions.

These men have no grievance to prefer before the Board as they are already in their original positions and there is nothing for the Board to decide on that score.

Since the time of resumption up to date, i.e., for 2 months and 17 days the plant or the positions have been in the keeping of these gentlemen and no occasion has arisen for the Company to feel or let these gentlemen know that they have not discharged their obligation to the Company in the manner the Company envisaged when they put them in those positions of trust or responsibility nor has the Company's plant been one whit insecure or unsafe in their hands. The ground has been completely cut under the company's feet during the period and it has completely falsified the company's apprehension on that

score. Neither therefore before the strike took place nor after resumption of work have these gentlemen fallen short of the expectations of the Company and I put it to the Board that their action in going on strike cannot be counted as an argument to penalise them at the present moment, now that there has been a solution found of these tangle and relations between the parties are one of accord and not of discord.

Advocate.

I very much regret that owing to fear or probable assault or personal injury, etc., I could not attend duty during the recent strike. Occupying as I am a key position in the Works, I have since realised that the step that I had taken was neither right nor what could be expected of me.

I hope that the Company will please overlook this first offence; and I beg to assure that I will not commit a similar offence in the future. On the other hand will make every endeavour, by loyal and faithful devotion to duty, to redeem the confidence of my employers.

No. 830/37-A., dated Burnpur, the 30th August 1937.

From—M. Homi, Esq., President, Labour Federation, Jamshedpur (Burnpur Branch),

To—H. V. Peeling, Esq., Works Superintendent, Hirapur Works, Burnpur.

At the time of our general discussions on matters relating to labour on the 7th instant at Burnpur, I had stated that we would carefully examine the Leave and Sickness Leave Rules that you had made and make our considered representation thereon, since I had these rules given to me at very short notice. I am taking the opportunity to do so now as under—

Casual Leave and Casual Sick Leave.

Rule No. 2.—We are not in accord with the breaking up of the privilege leave as contemplated in Article 4 of our settlement into these classes—*Sick Leave* has been placed in a class by itself, vide Article 5 of the settlement and no differentiation should be made in the privilege leave, which has been meant to enable a workman to have a respite from the daily grind, affording him an opportunity to return to his work healthier and fitter every year for the change. If this leave is to be withheld down by any temporary or short term of sickness, the privilege or the benefit vanishes and the object of the scheme frustrated.

As a matter of fact privilege leave and casual leave are two distinct things and your circular has obviously mixed up privilege, casual and sick leave all together. If you look to Government, Railway, Tata or other Leave Rules, you will find them existing side by side and apart but not merged into one and the 15-days' privilege leave that we had put up as an issue was never contemplated to include casual sick leave.

Rule No. 5.—On the matter of option, having regard to the prevailing ignorance and illiteracy among the workmen, it is our opinion that the Management should undertake to get the workmen at the proper time to give his decision as to how he desires to have his privilege disposed of. A written (printed) circular should be issued to each workman through his departmental manager with a printed reply in alternative terms for compliance by him.

Rule No. 8.—We had previously expressed our disagreement with this clause and now take the opportunity to repeat it. But as already arranged, we are prepared to give the matter a trial, although it is our confirmed view that it is not going to promote the object aimed at to ensure regular attendance—but rather aggravate our apprehension of hardship on the workman.

Special Sick Leave Benefits.

Rule No. 1.—Should be omitted in the light of our objection on the score of casual sick leave There should be no differentiation between casual and special sickness. A sickness is a sickness whether it lasts for a day or a month or even two and the sickness benefit that we had contemplated in Article No. 5 of our Settlement was meant to cover sickness in general irrespective of any period.

Rule No 5—The differentiation in the nature or type of sickness in this rule is not understood nor do we agree with it. A sickness as contemplated during our conversations was any ailment that puts a man completely out of fitness. It is not the workman's fault that any epidemic of, say, cholera, influenza, small-pox breaks out and he is laid up These are matters beyond his control and as a matter of fact, there is no ailment to which a man voluntarily desires to succumb, say even pneumonia, which many regard as preventible by reasonable and proper care but which even nobody desires to court. The differentiation is bound to lead to acute discontent and as there was no discussion along these lines at all we propose that you delete same.

Rule No. 6—It should not be made obligatory to undergo operation at the hands of the Company's Medical Officer both in the interests of the workman and in that of the Company

With these modifications as suggested above, the Privilege and Sickness Leave Rules may be adopted.

Copy of letter No 6092-D-O, dated 13th September 1937, from Mr H. V Peeling to M. Homi, Esq., President, Labour Federation, Jamshedpur

I have received your official letter 830/37-A. of the 30th ultimo with comments on leave rules. I have been very busy lately, but will let you have a reply regarding this in the course of the next few days.

In the meantime will you please let me know the position as regards registration of the Federation. I understood you to say that the registration would go through in August, but I understand from the local representatives that the registration has not yet materialised, but that some hitch has occurred.

No 929/37-A., dated Jamshedpur, the 29th September 1937.

From—M Homi, B A, LL B, President, Labour Federation, Jamshedpur,

To—T. L. Martin, Esq., Chairman, Board of Directors, Indian Iron & Steel Co, Ltd.

As already informed you on the day of our discussions (24th September 1937) at Calcutta on the subject of the profit sharing and

gratuity and provident fund schemes as prepared by your Company, I am sending you our considered views and which have already been voiced by me during our discussions:—

Profit Sharing Schemes.

We agree with the preamble. The principle enunciated is correct and your Company deserves the workers' support and thanks.

Paragraph 1.—A small correction is needed in this paragraph by the insertion of the words "he or she" in place of the word "he" only in line 2. "All labour engaged on the plant" was stated to exclude clerical staff at the general office. We still feel their exclusion is undesirable even when a separate Puja bonus is going to be paid to them. A uniform treatment would save many a complication, especially in view of the fact that the influence for good or bad of this section on the working force cannot be minimized.

Paragraph 2.—The workers, who are anxiously looking forward at present to increases in their wages, are going to be terribly disappointed if the scheme is to come into operation from the 1st April 1937, in other words, if they are to wait till about June 1938 for some sort of relief in this direction.

Your Company, to our information, has paid a dividend of 20 per cent. for the year 1936-37 and already there is a talk of an *ad interim* dividend going to be paid for the current year. As the outlook and the prospect are bright (and we hope they ever continue such) some relief should be granted the workers right away, a point on which we have mutually agreed. We had proposed that a percentage increase should be granted on the present rates of wages to all workers and commensurate with last year's profits. Your suggestion was that an *ad interim* bonus under the present profit sharing scheme may be granted now and the balance at the end of the current year on the current year's working.

We repeat as follows:—The workers have not received any increases for the last several years. It may be the shareholders' misfortune but not the workers' fault that the former have not received any dividends either. The present times are bright for both. A percentage increase (mutually agreeable) on the present rates of wages should be immediately granted on last year's working and the present profit sharing scheme to come into operation on current year's working or the scheme may be applied, without prejudice, right away on last year's working.

We again repeat the workers otherwise are going to be terribly disappointed, and that risk should be avoided.

Paragraph 3.—All right.

Paragraph 4.—All right except that the words "or are absent from duty except on sick or other leave sanctioned in accordance with the Company's Rules" should be deleted. It is enough that the worker is in continual service and on the Company's roll and not discharged or leaves his service.

Paragraph 5.—We cannot subscribe to the views contained in this paragraph except to the extent that we do agree that all possible means to adjust genuine differences between the Company and the labour must be first exhausted before taking direct action. On a

failure of negotiations, it is right and meet and both moral and legal, that the Company should be entitled to just as much notice of intention to strike as the Company gives to its workmen before terminating their services and no more. I was told during discussions that this clause was framed in order to secure to the Company enough time to make arrangements to save its plant from damage. We assure the Company and there could be no two questions on the subject, that the workmen never desire, nor ought ever to do, to put the instrument of his living to any damage. But the workman cannot put the employer in a position of greater advantage than what he himself is *vis-a-vis* his employers; in other words, he can give to the employer as many days' notice as what he himself receives, in the present case, six days' notice and if your Company feels that six days is too short a period to make its *bandobast* let the workmen have ten days' notice or even fifteen in order to receive a like period for itself.

In the case of lightning strikes, we do agree that they are unjustified, but looking to the present day development of Trade Unionism in this country and the spirit of hostility (we exempt you from the charge) generally shown by employers towards them (and which has retarded their progress) and the appalling illiteracy of the workmen, the only remedy for preventing lightning strikes lies in the employers' hands and that is to refrain from giving provocation that precipitate such action, in other words, any action on the part of the employers that adversely affect the earning capacity of the workmen or their conditions of employment should be taken with circumspection, i.e., with full and sufficient notice to enable them to examine their implications and after consultations with their representatives. These are the surest safeguards against lightning strikes and in our view, the remedy lies entirely in the employers' hands.

As it is difficult to decide the ultimate responsibility for lightning demonstrations, no trade union can agree to a forfeiture of privileges of any kind, since this would constitute a further penalty the workmen would have to pay over and above that empowered the employers to exact under the Payment of Wages Act and obviously, the Legislature did not contemplate vesting the employers with any additional powers in this direction besides the forfeiture of eight days' wages for striking without notice.

This clause, in our view, should be entirely deleted.

Paragraphs 6 and 7.—All right.

Paragraph 8.—We do not know what amount is payable to the workmen as wages per week and consequently are unable to estimate the return to the workmen under the scheme as prepared by you, but we are prepared to give it a fair trial to ascertain its exact implication. In the absence of information, we are unable equally to make any definite suggestions, which we can only reserve for a future day.

Paragraph 9.—All right.

Paragraph 10.—We are unable to comprehend the significance of this clause, which practically renders the scheme good only for a year, leaving the field open for further and future recriminations, which we had felt was sought to be avoided by creating in the minds of the workmen not only a sense of satisfaction but an incentive to greater efforts at profits both for himself and for the Company.

Retiring Gratuity and Provident Fund.

We are not impressed with the difficulty encountered in opening and maintaining a large number of accounts equivalent to the number of employees on your roll. The present scheme, besides, fails to be a provident fund both in the sense in which we had discussed at the conference held at Hirapur on the 7th August 1937 as also under the Provident Fund Act, in that it does not take into consideration nor provides for the workmen's contribution.

The terms of settlement provide for ."The principle of some form of savings fund to which both the Company and the workers contribute is approved", whereas the tentative scheme is only one sided and the *raison d'etre* of the scheme, i.e., to provide for the workers needs in old age is lost sight of The scheme does not encourage thrift nor compulsory saving

In the light of observations made herein, we commend the improvement of the scheme. We trust our suggestions will meet with your earnest consideration and approval, for therein lies the essence of satisfaction since we have various precedents to quote in our favour and the generality of practice supports our contentions We again emphasise the necessity of conciliating the workmen by a generous gesture at this juncture

No. 6849-D.O., dated Burnpur, the 8th October 1937

Leave Rules.

Your letter No 830/37-A of 30th August 1937.

I note your views regarding the leave rules. It seems to me, however, that the subject should be viewed from a *different angle.* The new rules, as issued, constitute a very great advance, not only as regards labour conditions in India, but they also compare very favourably with leave conditions for labour in other countries.

You raise the point that casual leave and casual sick leave should be considered separately, i.e., that a man should be entitled to 15 days' casual leave irrespective of any absence on account of sickness. You also suggest that *casual* sickness should be covered by additional leave, which may amount to as much as two months per year In other words, the proposal is that the man who is a good workman, and who does not take advantage of every little ache and pain to absent himself from work is to be penalised in comparison with the workman who does do so, and under such a proposal the latter would have, not only opportunity, but definite inducement for malingering. The principle of leave with pay is that, when a man has served an employer for a specified period, he should be entitled to received pay for a certain

number of days during which he does not work. Payment for the non-productive period has to be borne by the employer, but from a strictly business standpoint the cause of absence, or the way in which the period of absence is spent, is absolutely immaterial. What is material is that all employees who have the same service qualification should receive the same privileges as regards casual absence with pay, irrespective of whether the cause of absence may be casual sickness or anything else and any other system for casual leave with pay would be unfair.

In the application of a rule such as the above to a large body of workmen exceptional cases which require exceptional treatment must arise, and to meet such cases, i.e., cases of *serious* illness the special sick benefit rules have been drawn up. From their very nature they are designed to assist deserving cases of sickness which is not casual, and also to render such assistance on a scale which it would be impossible for a commercial undertaking to apply to its employees generally. It is not possible, therefore, that such special sickness benefits should apply to casual sickness.

Rule No. 5.—On the matter of option in Rule No. 5 of Casual Leave and Casual Sick Leave Rules, I entirely agree with you.

Rule No. 8.—I have already explained our views on this to you and statistics will be compiled to show whether the rule realises its object.

Special Sick Leave Benefits.

Rule Nos. 1 and 3.—The object of these rules has already been explained above.

Rule No. 5.—In any scheme for payment of benefit due to sickness there must be a limit to the type of sickness for which benefit can be paid, and the diseases which the benefit does not cover are all diseases which, though they may not be avoidable in every case, can be avoided by the majority of persons taking proper care. You mentioned cholera as a case in point. As a matter of fact during the past ten years we have had three cases of cholera in the Company's area and each of these cases has been imported from outside. We have had one case of plague in the last eleven years. This case was brought in from a plague stricken area by a man who knew perfectly well what he was doing.

Rule No. 6.—The benefits under the rules can only apply to cases which are being treated by the Company's Medical Officer. If the Medical Officer considers that an operation which he is perfectly capable of performing is necessary, then this operation is necessarily a part of the treatment, and I cannot see any other way of viewing this point.

As regards the leave rules generally, in my opinion, they constitute such a marked advance that I consider that they should be left as they are, at any rate, until we see how they work. If, however, you wish to discuss them further, I will be glad if you will please let me know when you are next in this district.

Copy of letter No. L.F. 154B. of 16th November 1937, from the Secretary, Labour Federation, Hirapur, to Mr. H. V. Peeling, Works Superintendent. (An unsigned copy.)

As per the clause No. 13 of the settlement between Mr. T. L. Martin, Mr. M. Homi and yourself the point of acting allowance has been agreed that the scheme has been already adopted. But sorry to inform you that several complaints have been made in this office that they are not getting any acting allowance though they are working in place of one in higher rate. I will be highly obliged if you will send me the full scheme of the acting allowance, and further I suggest to you that the acting allowance should be paid on the present rates of wages.

I come to know that the casual and sick leave has been altered in our Kulti works but sorry to remind you that the rule has not been published here yet; will you please do the needful as soon as possible and oblige?

Thanking you in anticipation.

Issue No. 4—Sick and Casual Leave.

In continuation with our letter L.F. 154B., dated 16th November 1937, I draw your attention to the paragraph for changing the Casual and Sick Leave Rules.

By to-day's mail we received a copy of letter No. 830/37A, dated the 20th August 1937, which has been sent to you on 30th April 1937, by our President, Mr. Homi, regarding the alteration of Casual and sick leave rules. So I request you to change the leave rules as early as possible according to the suggestion given in that letter by our President and will thank you for an early reply.

Leave Rules.

With reference to your letter LL.F.155.B. of the 16th instant, I note that you have received from Mr. Homi a copy of his letter

No. 830/37A of 30th August 1937. In the interview which you have had with me to-day I confirm having pointed out my views regarding the leave rules and, as promised, I am sending you a copy of my letter 6849-D.O. of 8th October 1937 to Mr. Homi. If there are any points regarding the leave rules on which you are not clear and on which you would like to see me I shall be pleased to arrange an interview.

No. I.F. 180/B., dated Burnpur, the 1st February 1938.

From—T. C. Ghosal, Esq., Honorary Secretary, Labour Federation, Burnpur,

To—The Works Superintendent, Hirapur Works, Burnpur.

Issue No. 4—Reminder—Sick Leave Benefit.

I draw your attention to the clause No. 5 of terms of settlement, dated 7th August 1937, between yourselves and our President, regarding the Sick Leave Benefit. Though the scheme has been accepted separately along with the privilege leave but it is a matter of great regret that yet it is not in practice. I could point you out that nearly 600-800 people have been deprived of this benefit till this rule is enforced, which is not desirable.

Therefore, would you be pleased to alter the present process of Sickness Benefit by framing the new rules as per the settlement at an early date?

Thanking you in anticipation.

No. L.F. 195B., dated Burnpur, the 22nd March 1938.

From—T. C. Ghosal, Esq., Honorary Secretary, Labour Federation, Burnpur,

To—The Works Superintendent, Hirapur Works, Burnpur.

I draw my attention to my interview with you on 11th February 1938 regarding grade scale, acting allowance and sickness benefit scheme. You had promised that these schemes will be ready and announced after three or four weeks from that day. Will you please look into the above matters and settle at your earliest convenience?

Sunday Working.—Those who are working on Sunday which is their off day are getting the single payments which are not desirable, it should be double of their wages, and it should be paid along with the pay envelope and not in the additional pay sheet. Many labours have not yet got the Sunday payments as it is not yet settled. So, I draw your attention in this matter also that if it is not reconsidered the labourers are not willing to work on Sunday.

Privilege Leave.—In accordance with your circular No. 1357, dated 22nd June 1937, the leave rules effected from 1st June 1937, and we are enjoying the said rules from that day. But you have issued another circular No. 4892, dated 6th August 1937, that the sick leave and casual leave will have effect from 1st August 1937, which is not desirable by any means. Further, many labourers will be deprived of if this rule be effected from 1st August 1938.

So, I request you to look over the matter and an early rather favourable reply will much oblige.

The Indian Iron & Steel Co., Ltd., Extra Wages Scheme.

1. A scheme based on yearly profits of the Company has been approved by the Board under which workmen may earn extra wages.

2. The scheme will come into operation from the 1st April 1937.

3. All labourers and/or workmen engaged on the plant at Hirapur and Kulti Works (whether male or female) in whatever capacity who have been in continuous service for a complete period of twelve months from the 1st April of any year to the 31st March of the following year will be entitled to participate under the scheme. The scheme does not apply to the Executive and Establishment staff, but only to those employees who are on the daily labour muster rolls.

4. Persons in service for only part of such a period or who are dismissed or are absent from duty (except due to sickness or on holiday under the Company's rules) during such a period will have no claim.

5. In the event of there being a lightning strike all claims for extra wages are automatically forfeited. In the case of any other strike all possible means to adjust genuine differences between the Company and its labour must be first exhausted. If all these efforts fail ten days' previous notice of intention to strike must be given to the Company. Strikes in any other circumstances will be treated as unjustified and all claims to extra wages will be forfeited.

6. Commencing with the Company's financial year 1937-38 and for every year thereafter in which, after providing for the extra wages on the following scale, a dividend of not less than 10 per cent. is paid on ordinary shares, persons coming within the scope of these rules and complying with the provisions hereof will be paid extra wages in accordance with the following scale:—

(*a*) When a dividend on ordinary shares at the rate of 10 per cent. per annum is paid, the equivalent of one week's pay.

(*b*) When a dividend on ordinary shares at the rate of more than 10 per cent. per annum and not more than 15 per cent. per annum is paid, the equivalent of two weeks' pay.

(*c*) When a dividend on ordinary shares at the rate of more than 16 per cent. per annum and not more than 25 per cent. per annum is paid, the equivalent of three weeks' pay.

(*d*) When a dividend on ordinary shares at the rate of more than 26 per cent. per annum and not more than 40 per cent. per annum is paid, the equivalent of four weeks' pay.

(*e*) Finally, where a divident on ordinary shares at the rate of more than 40 per cent. per annum is paid to shareholders, the equivalent of six weeks' pay.

7. The above scale is based on the present ordinary capital of the Company of approximately Rs. 2,57,00,000 and is subject to revision in the event of any alteration therein.

8. All sums payable under these rules will be paid as soon as possible after dividends have been declared payable by the Company. If any person entitled to receive extra wages under this scheme leaves the Company before he has received payment of any amount payable

to him or her, payment will be made on application being made within three months of the date of declaration of the payment concerned.

9. Any extra wages payable will be calculated on fixed wages, and no bonus, allowance, or overtime payments will be taken into account.

10. In the case of a person entitled to receive extra wages under this scheme who may die before payment is received, payment will be made on application to his widow or to his proved dependents.

The above has been sanctioned by the Company and is published for the information of all concerned.

The Bengal Iron Co., Ltd., Kulti—Circular Letter No. 40.

Sick benefit.

Cases have been brought to notice that the sick benefit extended by the Company is being abused by reason of men and women being employed and almost immediately reporting sick claiming sick pay. It is apparent that the idea is abroad that it is easily possible to get employment here, and be cured of illness in addition. This of course, cannot be permitted and as a means to check this evil, it is notified to all concerned, particularly time-keepers, that sick benefit will not be considered in any case where the length of service is less than six months.

Accident cases are, of course, on a different footing, and are dealt with as such.

The medical clerk will submit daily to departmental time-keepers a list of men appearing for first treatment. The time-keeper will return this list during the course of the same day showing thereon opposite each name the length of service.

(c) Any further benefit will be treated on its merits as a special case.

4 The pay mentioned in the preceding clause will be paid only on the production of a medical certificate signed by the Senior Medical Officer.

NOTICE.

For Cessation of Work.

Further to your letter No. 311/38B of the 11th ultimo and my letter 2613-D/O. of the 14th ultimo, I confirm our discussion as follows when you came here on the 6th instant:—

1. Before a notice of either strike or lockout is given, every effort will be made to arrive at a settlement.

2. If after the above any notice of strike or lockout is given, such notice shall be in writing and the period of such notice shall be ten full days. (As definition of "day" I would suggest 7 a.m. to 7 a.m. which is our "Works day". I also suggest that we should agree that such notices of strike or lockout should be delivered not less than twelve hours before the period of notice commences.)

3. Any notice of strike or lockout shall state clearly the date and time at which the period of notice expires.

4. During such period of notice every effort will be made to arrive at a settlement.

5. In the absence of formal notice in writing to the contrary, notices will be considered as having expired at the date and time named in 3 above, but wherever it is considered advisable to extend or re-extend the period of notice, such extension or re-extension shall be for a period of not less than 48 hours from the time at which the notice or extension of notice expires.

We have both agreed in principle that either strike or lockout should only be resorted to settle industrial disputes and then only when all avenues to a settlement have been fully explored and it is, therefore, desirable that the Company and its labour should have a clear understanding and agreement as to the procedure which should be involved in the case of industrial disputes.

I have written you above to place on record the lines of our discussion on the 6th instant. As I then told you, however, my opinion is that, if a notice is found to be defective, it should be re-issued for the full period. You advised me that you had taken legal opinion on this point and that your information was that such re-issue was not necessary. The point is an important one and I am obtaining legal opinion, after which I will write to you again. In the meantime, however, the arrangement above can stand and I will be glad to have your confirmation.

on the subject of telephone installation at our Burnpur office—a bunglow for our use—Discussion on the nature, type and duration of notice of Cessation of Work.

I also further confirm having discussed with you the subject of installation of electric lines for three lights and one table fan in our Burnpur Office, a proposal towards which you expressed a hope to consider favourably

I also further confirm having discussed the necessity of separation of rules of Casual Leave of 15 days with pay in a year from Rules of Sick leave of one month on full pay and another month on half pay, as had been settled between your Company and the Federation after the strike at your plants in August last Your view point was that the rules as framed at present were in accordance with the intention behind the settlement, and we disagreed with the view It was agreed that the matter will then have to be taken up with Mr Martin at Calcutta.

To—The General Manager, Indian Iron & Steel Co. Ltd., Kulti.

With due respect and humble submission I beg to bring to your kind notice that I was serving as a hammerman in rivetting shop under your kind control since 2 years and 3 months but owing to outbreaking of strike in the workshop I could not appear on duty from 5th June 1938. The strike was over on 22nd July 1938 and every striker was granted 11 days grace for late attendance on duty but owing to my ill-luck all on a sudden I fell ill with some serious eye disease from 15th

July 1938 to 1st August 1938 and I was so feeble that I was quite unable to walk a step. I have already submitted a medical certificate in this connection but my case has not yet been decided.

The fault of appearing late on duty was nothing but a illness which is natural, hence the mistake was not done by me wilfully.

As I am a very poor man having a large family members to support so I beg to throw my poor case on your mercy and hope that your honour would be graciously pleased to allow me to take up my duty at an early date. in order to save one of your poor servants from miseries and poverty. If no chance be given to me, I fear, I shall have to starve for want of food.

Hoping to hear your kind and favourable orders early.

Reference your letter No. 184A of the 21st instant, I find that there are a number of bricklayers in the Coke Oven Department who are paid according to their capacities and qualifications. The men are put to do certain jobs by the Manager and at no time is the designation changed and there is, therefore, no question of acting for anybody else.

Sometimes a lower paid man is working on a job which was previously done by a higher paid man and sometimes a higher paid man does the work which was the job of a lower paid man.

Din Ali who is getting 12as.-9p. per day is now doing a job which was previously done by Farukh who gets 11 as. per day only.

It will, therefore, be realised that there can be no question of acting allowance.

Murti Kamin of Large Pipe Foundry was engaged on 14th April 1937 and as she went on leave at the beginning of this month, it will be realised that she is in service for 8 months only and is thus not entitled to maternity benefit

I draw your attention to the case of acting allowance of Budhoo T. No. 355 B.S. of M. S. F. Department He stated that he has been acting from the 10th October 1937 in place of Babu B. Prasad Welder but he is getting annas seven as an allowance per day.

The system of acting allowance is that one shall get the actual rate of a man in whose place he will work. The man applied to M. S. F. for this but the remark of A. M. S. Report of the Assistant Welfare Officer, Kulti against Lance Naik Nand Lal Gossain.

Labour and Welfare Officer -

1 Lance Naik Nand Lal Gossain.

2. Lance Naik Lalit Bahadur Chattri.

Lance Naik Nand Lal was posted as N C. O. in charge of the Main Guard from 4 p m on 21st April 1938 to 4 a.m on 22nd April 1938 He should have been relieved at 4 a.m. by Lance Naik Lalit Bahadur.

Nand Lal was given 2½ hours' leave from 5 p m. to get his food. He met Lalit Bahadur in the bazar and they arranged to change duties at 8 p.m.

When the Subedar came to know what these men had done he reported the matter as being contrary to discipline.

Nand Lal is a man who is not amenable to discipline as is shown by the attached papers.

It may appear a small matter to have arranged their own duties, but orders must be carried out

I would recommend that Lance Naik Nand Lal be dismissed and Lance Naik Lalit Bahadur be severely reprimanded.

W. Wickham—22-4-1938.

He should be dismissed and paid up to the end of the month.

Reason for discharge—Disobedience of orders and conduct prejudicial to good order and discipline.

I, Nand Lal, Department Watch and Ward Chaprasi hereby beg to state as under:—

I was collecting the Anti Tuberculosis Fund. Our Subedar Bal Bahadur asked me who has ordered you to collect this fund. I replied him that the Secretary, Labour Federation, has given him this box to raise this fund. At this he asked me not to collect this fund. I requested him to excuse me for this as I am unable to close this fund. At this the Subedar asked me that I will show you for this, any how, I must see you dismissed.

The Subedar fulfilled his promises and discharged me.

I therefore urged upon you kindly to see my case and allow me to continue my duty.

From—B. Thornton, Esq., Works Superintendent, Indian Iron and Steel Co., Ltd.,

To—The Vice-President, Labour Federation, Kulti.

Re: Nand Lal, Chaprasi, W. and W. Department.

In reply to your L. F. 243 of the 29th instant we must express our regret if any member of our staff objected to the abovenamed collecting funds for the Anti-Tuberculosis Campaign. The collection of funds for this purpose was as you know made in the Kulti area at the request of the Subdivisional Officer, Asansol, who is the Chairman of the Asansol area under which Kulti operated for the purpose of this collection and I am sure in due course we shall receive an acknowledgment of our efforts in this connection when our funds will be deposited with the Treasurer which we hope to do sometime next week.

The fact that Nand Lal collected funds at your request has really nothing whatever to do with this man's service with the Company. So far as the Executive Committee of the Kulti area of the Anti-Tuberculosis Campaign is concerned I am sure that all members were only too glad to have the assistance of those who kindly came forward for this purpose.

In regard to Nand Lal's dismissal from the service of the Company we trust you will now appreciate that it has no connection whatever with the collection of funds for the Anti-Tuberculosis Campaign.

We have explained this position purely as a matter of interest to you and in regard to your official endorsement on this man's application, we would refer you to our letter No. X 691 of the 11th April 1938 (below).

In reply to your letter No. 199 of the 9th instant the conditions of service of members of our Establishment do no permit them to join any labour union and in the circumstances we regret we are unable to discuss this matter with you.

As a matter of interest however we would add that we had very adequate reasons for terminating this man's services.

Will you hand over all Company's property in your possession to your Indian Officer and vacate the Company's quarters occupied by you.

The service at your credit does not entitle you to a retiring gratuity as per the rules but on presenting a clear receipt from the Subedar to the Cashier you will receive one month's pay in lieu of notice.

Copy of letter No. 121/38-A, Personal, dated 21st January 1938, from Mr M. Homi, President, Labour Federation, Jamshedpur, to Mr. Martin.

I trust you are well

The situation at Kulti and Burnpur is causing me anxiety. Reports received from these two places show a very unsatisfactory situation. I shall mention briefly the salient points:—

Burnpur.

Sahadeoprasad, Assistant Yard Master, dismissed after 17 years service, without a charge-sheet and without notice and for reasons that do not appear to us to be justifiable. He is said to have been responsible for a derailment, but the maintenance of the track and crossings and points belong to the Permanent Way Staff with which he has nothing to do and the setting of points (if that had caused a derailment) is not his job.

Besides, 17 years' services cannot, in our view, be terminated thus He could have been compulsorily retired, though we do not feel that that could have been called for from the materials placed before us.

Ramnarayan, Telpher Khalassi, T. N. 747 B.E., dismissed after being given a charge-sheet of sorts, but no notice of termination of services. He is alleged to have refused to carry out orders. This man had several times previously acted as a Linker. On a vacancy having arisen, he pressed his claims, but was told he was not fit and the place was given to an entirely new man, who had never acted as a Linker. On the 31st December last, he was asked to act as a Linker, which he naturally refused. He was charge-sheeted and dismissed summarily. We are surprised at the attitude of the officers, who proclaim a man unfit for a position and later on ask him to act therein on pain of penalties.

Both these cases militate against the procedure prescribed for the taking of disciplinary action against employees and the workmen challenge the justification of the action taken. Besides, this is not the first time that the Settlement has been violated from the officers' side. Mr. Peeling taking the responsibility for these discharges upon himself does not improve the situation and the workmen are very much agitated over these matters and they demonstrate before the Union Officer and mistake our desire to preserve peace as evidence of supineness. Besides, the Committee feels it impossible to go indefinitely against the wishes of the workmen. Both these cases deserve immediate reconsideration in the interest of goodwill.

Kulti.

Discontent had been caused at the framing of the rules regarding Sickness and Privilege Leave, the said rules almost taking away a substantial portion of the privileges secured. These were not fully rectified until after several representations and not before an unfortunate effect had been caused in the minds of the workmen. Even in the last circular, the grant of these privileges is made dependant on the Registration of the Union, a circumstance that has nothing to do with these terms. Our Branch Union at Kulti estimates that nearly 2,000 workmen have been kept away from these privileges between the period from the date of settlement to the date of the last circular and they insist on their being recouped in this respect. This is one of their standing grievance and I consider them having a just cause for complaint. This position covers also the complaint in this respect from Burnpur.

Radha Beni—Dismissed on 18th January 1938, Pattern Maker, for some slight mistake in making out a pattern. The loss involved to the Company could not have been more than three rupees, including the cost of the wood and his service. This man seems to have been a marked man, for he is one of our Committee Member and a leading light. He was not given either a charge-sheet or a notice of termination of service.

May we know if this attitude is desirable. We do not claim any preferential treatment for our Committee Members, but it should be remembered that they are after all human beings and are in a position to make or mar relations between the Company and its employees, and here we find that they are denied even the ordinary procedure prescribed, which does not contribute to the promotion of better relations, for which you and I anxiously work. This case needs immediate reconsideration.

Assault on Employees—These have been recurring both at Kulti and at Burnpur, and have no possible excuse for their occurrence. The utmost caution should be employed in dealing with the workmen and it would be a most unfortunate thing if any racial animosity is engendered. I am informed that one Mr. Washington assaulted an employee at Burnpur and one Mr. Oliver assaulted another at Kulti as also one Mr. Brown, who had assaulted another employee. These have been recent cases and are not even a month old. These practices, I am sure, you heartily disapprove and will insist on their entire elimination. Such type of officers, no matter how efficient in their work, render a distinct dis-service to the Company and should have no place in its organization. We do not desire to vindicate in any way nor to put any obstacle in the path of the Company, but you will realise that the Union and its officers have also a certain duty to discharge towards the protection of its members and our work is rendered more onerous by such practices. Deputations after deputations work the life out of me in respect of these cases and I have been finding it hard to ask them to continue to be patient.

Sleeper Foundry—The Kulti Fundry has been shut down at present. May we know when it is going to be re-opened? It has been rumoured that this year the whole of the order secured or to be secured by your firm will be allotted to the Howrah Workshop for execution and Kulti will remain closed. This would be most unfortunate if true and we urge upon you the case of your Kulti employees who are at present out of work and who deserve your earnest consideration.

I should have liked to talk over matter with you at Calcutta, but at present I am heavily engaged and shall be so for some time. I trust you will give the matters referred to herein your usual sympathy and attention and let me hear from you.

My kindest regards to you.

No. 131/37-B., dated Burnpur, the 31st January 1938.

Issue No. 4.

From—M. Homi, Esq., President, Labour Federation, Jamshedpur,
To—T. L. Martin, Esq., Chairman, Board of Directors, Indian Iron and Steel Company, Ltd., Calcutta.

I thank you for your letter of the 24th instant, in reply to ours. I have by now received a preliminary reply from Mr. Thornton with a promise of further details.

I regret the Sleeper Foundry situation. I hope it clears up soon. Regarding registration, I am afraid I have no recollection of the understanding you refer to; all I remember is that we agreed to maintain normal relations pending registration in the interests of both the Company and the workmen, since an absence thereof was considered to have detrimental effects. We are doing our best in this direction, but you know the speed with which Government departments move and we have been held up.

We, however, feel that the Leave and Sickness Benefit Rules should be given effect to, as settled, from the date of the settlement and those whom these have been denied so far, nearly 2,000 and over at Kulti and a near figure at Burnpur, should be granted them without further delay. The situation has been kept fermented on this score.

No. 307/38-B., dated the 7th March 1938.

From—M. Homi, Esq., President, Labour Federation, Jamshedpur,
To—B. Thornton, Esq., Works Superintendent, Kulti Works

You will excuse me for belatedly acknowledging, as I am doing now, the receipt of your following letters —

X254 of the 21st February 1938, X260 of the 22nd February 1938, X274 of the 23rd February 1938, X343 of the 1st March 1938, and X359 of the 3rd March 1938

As the matters covered by these letters have since been disposed of, I propose to reply to the last two

I thank you for your letter of the 1st instant, enclosing a copy of the minutes of our conversation at the unearthly hour, which I regret to feel I should have monopolized with talking "shop" when you should have been resting I am sending to you a copy of my last letter to Mr Martin, from which you will see that we have already and actually written to him This disposes of your page 3, paragraph 2 of the minutes

Paragraph eight on page 3 is not exactly clear to me.

Regarding paragraph 9, we want to draw your attention to paragraph 2 of the minutes of our conversation with your predecessor Mr. Carruthers on the 29th December 1937 and our contention still holds good The workmen concerned do deserve your sympathy and consideration and the position should be cleared up on something like the lines suggested by us

With regard to your last letter No X 359 of the 3rd instant, I have to-day sent down the necessary advices in the matter. I am glad that you have seen your way to give 10-days' notice pay in lieu of the notice that we drew your attention the workmen were entitled to under clause 33 of the settlement

I hope this unfortunate contretemps will close here and if I may be permitted, I would like to sound a word of caution in that these various reductions at different times have very much unsettled the minds of the workmen, who in common defence, are bound to hold together and will do so It is, of course, a question for you to decide whether, in a case like this, the reduction of 27 hands out of over a thousand employees will adequately compensate you in rupees, annas and pies for the loss of goodwill that is bound to follow At the same time, we commend the case of these 27 men to you for re-engagement at the earliest possible moment

No X 428, dated Kulti, the 9th March 1938

From—B. Thornton, Esq., Works Superintendent, Indian Iron and Steel Co., Ltd.,

Minutes of Meeting held on 25th February 1938.

Thank you for your letter No. 307/38-B. of the 7th instant

Paragraph 2, page 3 of Minutes.—I have noted the contents of your letter to Mr. Martin No. 131/38-B. of the 31st January last.

Since our meeting I have been in correspondence with Mr. Martin and I think I have his permission to say that we hope very shortly to be able to dispose of this matter once and for all by agreeing to the introduction of these rules. When this is done, I am sure that you and I hope the labour also will appreciate the broad-minded spirit in which the Company deals with all problems connected with their employees.

At the same time it must be realised that there is a definite limit beyond which we cannot be expected to go.

Clause 8.—This minute dealt in particular with the remarks you made in connection with the representation of the labour in No. 2 Pipe Foundry requesting the removal of Mr. Mitter.

Clause 9.—I have referred to paragraph 2 of the minutes of the conversation you had with Carruthers on 28th December last and the arrangement covered by the circular of 9th October mentioned therein is still in force but in making reference to this are you not confusing two sections of the main issue each of which in my opinion deserves separate consideration?

The point you raised at our meeting was a break in service of men who had been employed for a great many years and found themselves out of employment because of shortage of work resulting in a break in service of several months before re-engagement and thus depriving them of certain benefits.

The concluding paragraph of clause 9 on page 4 of the minutes of our meeting deals with this quite fully and I repeat—the Management would be always prepared to consider specific cases on their merits but could not agree to be under any obligation to permit unconditionally all or any such men to enjoy benefits in those circumstances.

This is one section, so to speak, of the main issue, the other which you touch upon in your letter under reply and as having been dealt with in paragraph 2 of the meeting with Mr. Carruthers refers to all labour without exception discharged through no fault of their own but due to shortage of work or completion of contracts, etc.

The Company have agreed to allow a period of one month's grace and I consider this a very generous concession and I much regret as I stated at our meeting we could not under any circumstances agree to your proposal.

E. L. C. 27 Discharged Men.

Notice.—I would like to make it clear that I do not quite agree with your interpretation of Clause 33 of the Settlement and my reason for sanctioning wages in lieu of notice to these 27 men was not made on this account but merely because of the peculiar circumstances attached to that particular issue and here again I feel we have acted generously because although we could have dispensed with the services of these men very much earlier than we did, I explained to you at our meeting, we refrained from taking action in the hopes that other work would come along in the interval.

Not only this but the particular work done by those 27 men could very well have been carried out by others because of shortage of orders.

I dislike having to say so but during my brief contact with labour problems, since my arrival at Kulti, there have been times when I have felt that a broad-minded administration of the terms of settlement and generous and considerate treatment are not appreciated and instead of acceptance in the spirit in which it is made, it is regarded as a right.

I do hope that you will do your best to impress upon labour the Company's views and attitude on all matters connected with their problems and if voluntary actions on the part of the Company are misconstrued into legitimate dues, we shall be compelled to adhere more strictly to the letter of the law, but I hope with your assistance and an assistance which I regard as a right, we on our part may expect from you, that we shall always work in that atmosphere which can only become possible by both sides having a full understanding of each other's motives and not distorted versions.

Dismissals.—Whilst I appreciate your remarks on the subject of dismissals contained in the concluding paragraph of your letter, I can assure you and as you have seen from the few instances I have mentioned, we exercise discretion in discharging labour but I cannot agree the reduction of the 27 hands at E. L. C. or any other for that matter is merely a question of a few rupees, annas and pies versus loss of goodwill.

In regard to these particular 27 men I explained to you in detail at the meeting that they performed the finishing operations and in that case they were merely a few of several others doing various preliminary operations whose services were terminated on account of completion of the same order.

On the question of good will, your letter implies that expressions of good will must come from us only whereas the labour *must* contribute their share also.

I do not wish to harp on this issue unnecessarily, but I am most anxious there should be no confusion of interests or view points where we are concerned and so again I wish to make it quite clear that we must dismiss men where there is a reduction or shortage of work and I would like to emphasise again the fact which I mentioned on two occasions to you that we have been and are still carrying a very great surplus of labour, and have refrained from making any discharge in the hopes of seeing some signs of additional work. So far there appears to be nothing offering that would justify the retention of at least some of our surplus very much longer.

It is possible therefore that in the next few weeks we may have to get rid of about 1,000 men or more but you can rest assured, I shall keep this down to a minimum though this thousand represents only a small percentage of our total surplus and it is quite impossible for us to continue carrying surplus labour whether 27 or several hundreds or thousands and you cannot expect us to be generous to such a degree as almost borders on suicide.

No. X 989, dated Kulti, the 14th May 1938.

From—B. Thornton, Esq., Works Superintendent, Indian Iron and Steel Co., Ltd.

To—M. Homi, Esq., President, Labour Federation, Jamshedpur.

I was very glad indeed to see you once again yesterday as it is so seldom we have an opportunity of meeting and conversation—all in a good cause. I am very pleased to be able to feel that you are satisfied we are shouldering a very big burden in the great numbers of surplus labour at Kulti. I think my statements confined strictly to facts and supported by the documents I showed you will convince you sufficiently as revealing not only the burden we are carrying but the consideration with which we are handling this vexed problem and with a very full appreciation of all its difficulties.

At the moment approximately 215 are under notice out of the total 820 which you saw on my statement, the remainder will have to do within the next two or three months or possibly earlier.

In regard to Radha Beni I confirm having told you in reply to your request to re-engage him that I had no objection whatever to taking him back into our service but to do so now in view of the reductions being made is quite impossible and would merely aggravate the situation. You agreed entirely and have my assurance that when a suitable opportunity occurs Radha Beni will be given full preference to which his service records entitle him. In other words he will not be debited with any black marks because of his last dismissal.

In regard to petty assaults I think we understand each other thoroughly and you appreciate it is not possible for the Company to prevent assaults and that all we can do is to fully and fairly investigate complaints and act accordingly and take such preventive measures as may be necessary. Your local branch must learn to understand that every complaint made by them on behalf of its members is not necessarily based on facts and accept as a foregone conclusion that drastic punishment must follow and here as in other matters they must be satisfied that we are *not* influenced by any racial or official prejudice and act in a manner which we think fair and proper.

In regard to the dismissal of Nanda Lal which you raised I did tell you that as our Establishment rules do not permit members of the Establishment interesting themselves in the activities of any Union it is not possible to discuss this matter officially as between the Union and the Company but for your own personal satisfaction, I advised you of the details of the breach of discipline which was responsible for this man's discharge.

After our discussion I again reviewed the details responsible for this man's dismissal and can confirm that the statements made in his letter regarding hours of duty are not strictly correct and alleged instructions and permission to act in a certain manner are untrue and in regard to witnesses in support of his statement he was able to produce one man only but who gave evidence against him.

The Watch and Ward are for all practical purposes a Police—Military Unit, employed for the sole purpose of guarding the Company's property and keeping peace in time of trouble. You pointed out that the membership of the Federation was not in any

way restricted to labour. This may be, but apart from the fact that the Federation was formed, at least so I understand, for the special benefit of the working classes and the settlement with you in regard to Kulti was essentially on behalf of labour, the Watch and Ward cannot in any sense of the word be regarded as labour. I admit that it was only after contact with your Federation that the Establishment rules were modified prohibiting members of the Establishment from interesting themselves in Union affairs and apart from the fact that we may modify our Establishment rules in any manner we think desirable, the immediate necessity for the introduction of that particular rule was the direct result of a very material change in circumstances to those which existed before contact with your Federation.

It is with regret I have to say that we cannot modify these rules in that particular respect to suit the convenience of any isolated section of our establishment and I am sure you will appreciate in the altered circumstances to which I have just referred, bearing in mind the duties of the Watch and Ward, it would be most undesirable and impracticable for a neutral body serving the interests of the Company *and* labour in certain specific directions to do so satisfactorily unless they were absolutely and entirely free from all outside influences.

In times of necessity you, personally I am sure, would look to us to maintain peace as far as possible and in doing so employing an organisation specially created for that purpose.

You will see therefore that there is very good reason for our insistence that the Watch and Ward must not interest themselves with any Labour Union. I further advised you that there was room for improvement in the work of that particular unit and because I regard it as an urgent necessity in our mutual interests that this body should function efficiently, I am taking steps to improve conditions as rapidly as possible—always bearing in mind that Rome was not built in a day.

Dear Mr. Homi,

I was sorry to see you were "mobbed" when you left my office on Friday. I wanted to ask you to come along for a cup of tea to my bungalow, but not only was I unable to reach you which perhaps was as well in case the crowd placed some stupid interpretation on my interruption.

I hope to hear from you shortly regarding the "one slice" after you have done the necessary preliminary pruning that will dispose of the balance of approximately 600 from my list.

The reduction on account of normal major repairs to Blast Furnace which will probably commence about the end of the month will as I mentioned be the natural result of the closing of any isolated unit such as the sleeper shops and which now the most thick headed appreciate.

I have been thinking a good deal about your "brain wave" and am sure it will be the best.

I hope you will enjoy your spell of "leave" which you take as much as I am looking forward to enjoying mine next year.

With kind regards,

Yours sincerely,
Sd. B. D. Thornton.

No. X 1101, dated Kulti, the 25th May 1938.

From—B. Thornton, Esq., Works Superintendent, Indian Iron and Steel Co., Ltd.,

To—Mr. M. Homi, B.A. LL. B., President, Labour Federation, Jamshedpur.

Further to your call here on the 13th instant and my letter X989 of the 14th instant we have now gone further into the list of reductions which you saw and as it is not possible to postpone action any longer, this is just a line to advise you that notices of termination of services are now being prepared and issue will be commenced to-morrow.

This of course, as you know, has nothing to do with the normal reductions that will have to be made within the next few days in our Coke Oven and Blast Furnace Departments owing to the closing down of one furnace for general repairs.

P.S.—The Vice President and Secretary of your Local Branch were not available this afternoon and we therefore gave verbal advice to another member of the Committee.

No. X 1102, dated Kulti, the 26th May 1938.

From—S. N. Gupta, Esq., Labour and Welfare Officer,

To—The Vice-President, Labour Federation, Kulti.

In compliance with your Secretary's request to-day to our Labour and Welfare Officer we write this letter to confirm that owing to your absence yesterday as well as of your Secretary, we advised Mr. Harnam Singh, a member of your Committee, of our intention to issue notices of termination of service to a number of our labour.

You are aware as also is the Chairman of your Federation that we have a very large surplus of labour and have postponed for some considerable time taking any steps to adjust in the hopes of the necessity not arising.

The number of men involved will be approximately 800 more or less excluding of course reductions which will naturally follow in our Blast Furnace and Coke Ovens Departments as the result of closing down No. 5 furnace for normal major repairs.

In regard to all discharges it is of course clearly understood that those entitled to receive certain benefits under the Provident Bonus and Extra Wages Scheme will be paid the full amounts due—in the case of Provident Bonus on completion of notice of termination period and in regard to the Extra Wages Scheme—in accordance with the rules after declaration of dividends.

We hope that when this reduction has been completed it will not be necessary to make any further similar major reductions for some time subject of course to circumstances arising which neither you nor ourselves can at present reasonably anticipate.

From—Mr. M. Homi, B.A., LL.B., President, The Labour Federation, Jamshedpur,

To B. Thornton, Esq., Works Superintendent, Indian Iron and Steel Co., Ltd., Kulti.

I have sent you the following telegram on the 28th instant "Kulti Office alarmed thousand reduction. Urging circumspection. Times critical. Well advised delay programme. Homi".

This telegram was consequent on our receiving your letter Nos. 1101, 1102, and 1103, dated the 25th and 26th instant, and an urgent message from our Kulti office as under: "One thousand reduction. Come immediately. Labour terrified." We regret to note that this further reduction should have been found necessary so soon after my last visit, when I had been able to persuade the workmen into a more sober frame of mind towards the last reduction and this further depletion of their ranks is bound to have a very adverse effect. We feel that you will realise the need of being cautious in these times. Hirapur labour are also on the jumps on, amongst others, this very issue of reduction and the question there has been of about a dozen only. We once more emphasize the need for caution.

No. X 1145, dated Kulti, the 31st May 1938.

RESOLUTIONS.

TARIFFS.

New Delhi, the 30th March 1939.

No. 127-T.(2)/38.—The Tariff Board which in 1930-31 investigated the claim of the Sugar Industry to protection, recommended the grant of protection for a period of fifteen years, the measure of protection to be Rs. 7-4 per cwt. for the first seven years and Rs. 6-4 for the remaining period. The Sugar Industry (Protection) Act of 1932 gave effect to these recommendations, except that relating to the measure of protection during the second part of the protection period. The Act required, however, that before the 31st March 1938 a further enquiry should be made to ascertain what degree of protection was needed by the industry for the remaining period of protection. This statutory enquiry was referred to the Tariff Board under the Resolution of the Government of India No. 127-T.(1)/37, dated the 27th March, 1937. The Board submitted its Report in December 1937 but it was not found possible to finish consideration of the Report before the end of March 1938 and the protective duty then in force was accordingly continued for another year by a formal amendment of the Act of 1932.

2. The main recommendations of the Board are as follows:—

(1) The fair selling price of Indian sugar is Rs. 6-13-10 per maund, to which should be added 9 as. per maund for freight and 5 as. for quality, making roughly Rs. 7-12-0 per maund. Java sugar could be landed at Rs. 2-7-0 per maund, and the protection required is therefore Rs. 5-5-0 per maund or Rs. 7-4-0 per cwt. This amount of protection should be granted for eight years.

(2) Permission should be accorded for the manufacture of power alcohol on the understanding that it bears the same rate of duty as petrol.

(3) No special protection is necessary for the *gur* industry, apart from the protection granted to sugar.

(4) Research work on the agricultural side is inadequate, and an allotment of 3 as. per cwt. from the excise duty should be made for central research and assistance to provincial agricultural departments.

(5) A marketing survey of the sugar industry should be undertaken.

(6) The additional excise duty levied in 1937 has had unfortunate consequences for the cane grower and manufacturer. At the prevailing level of prices the present rate of excise duty is out of proportion.

(7) The rationalisation of the industry under some form of State control is desirable. For this purpose an All-India conference representing all interests should be convened.

3. The recommendations of the Board besides dealing with the amount of protection required, contain proposals which are intended to increase the efficiency of the industry by measures much wider in scope than anything previously contemplated. These proposals cover a very wide field and necessitate consultation between the Central and Provincial Governments and the other interests concerned, and the Government of India have accordingly confined their examination to the recommendation dealing with the measure of protection.

4. The Board has proceeded on orthodox lines in taking the difference between the estimated "fair selling price" of indigenous sugar and the landed price of imported sugar as the measure of protection required. The "fair selling price" is found to be Rs. 7-11-10 per maund and the landed price to be Rs. 2-7-0 per maund, the difference being Rs. 5-4-10 or Rs. 5-5-0 per maund in round figures. The Board has thus come to the conclusion that Rs. 7-4-0 per cwt. (equivalent to Rs. 5-5-0 per maund) is the amount of protection required for the remaining period of protection.

5. The Government of India have carefully examined the detailed calculations on which the Board has arrived at its estimate of the "fair selling price", and are disposed to consider, in the light of recent information, that the figures proposed by the Board for certain items, notably manufacturing costs and profit, and for adjustment of difference in quality are susceptible of reduction. They also consider questionable the assumption that Java sugar, the selling price of which so vitally affects the measure of protection, can be sold ex-duty at as low a figure as Rs. 2-7-0 per maund. The Calcutta c. i. f. quotations for Java white sugar remained well over Rs. 3-8-0 per maund during the first four months of the current financial year, and have thereafter averaged Rs. 4-3-8 per maund. The Board's figure was based on special and purely temporary conditions in Java and is no longer accurate when those conditions no longer obtain. World sugar market conditions have improved since the Board wrote its Report and with the satisfactory working of the International Sugar Agreement there has been a return of confidence and with it an improvement in world prices.

6. There is another, and even more important factor, namely, the recent changes in the Indian industry itself; which must be taken into consideration when examining the proposed protective duty. While the examination of the Tariff Board's report has been in progress, the situation has changed so fundamentally that the report—through no fault of the Board's—is already out of date. The application to the sugar industry of an elaborate and extensive system of control by the United Provinces and Bihar Governments and their decision to levy a provincial cess on cane supplied to the factories and to enforce minimum price regulations more rigidly than in the past have produced new and unexpected conditions which have so modified the basis of the Board's Report that it is not possible to fix the level of protection for the whole of the unexpired term without a further enquiry. The industry, however, is still in an unstable position, and it must be given sufficient time to adapt itself to the new conditions before a further investigation can usefully be undertaken. The Government of India propose, therefore, to fix the amount of protection for a period of two years from April 1st 1939 to March 31st 1941, pending a further investigation to be held in 1940 in time to enable a decision to be made as to the quantum of protection for the remaining five years from April 1st 1941. For the two years, April 1st 1939 to March 31st 1941, the Government of India propose to impose the present protective duty less 8 as. per cwt. The comparatively high prices ruling for Java sugar support the view that this modest reduction will still leave the indigenous industry adequately protected.

7. The Government of India cannot allow the Board's remarks on the increase in excise duty in 1937 to pass without comment. In paragraph 2 above a finding set out in the Board's Summary to the effect that the present rate of excise duty was out of proportion at the then prevailing level of prices has been quoted. If the body of the Report is referred to, it will be seen that this finding did not represent a belief (which would have been clearly unsustainable) that there existed some absolute standard as to what is the appropriate limit for revenue taxation, which in the case of sugar was exceeded by a duty at the rate of Rs. 2 per cwt. Rather, it referred to the Board's contention that a reduction of duty is necessary "unless the price of sugar can be stabilized at a level which will allow of the payment of a fair price for cane to the grower and a reasonable margin of profit to the manufacturer". This conclusion derived from the earlier finding that the burden of the enhancement of duty made in 1937 fell upon the cane grower and manufacturer alone. That pronouncement was made in the light of conditions prevailing in 1937 and has already become obsolete owing to the great advance of prices since that time; indeed, conditions have so changed that the two Provincial Governments which are quoted by the Board as having criticised the enhancement of the excise duty have since found it possible themselves to impose additional taxation which is to be recovered from the industry, whatever the shoulders that will ultimately bear it.

Even taking a shorter view, confined to the conditions that prevailed when the Board prepared its Report, the Government of India cannot accept as justified the categorical assertion that the enhancement of the duty had no effect on the consumer but that it fell upon the manufacturer and through him upon the cultivator. The Board rests this conclusion upon the following statement:—"Consequent on the increase of excise duty the sugar prices rose by a few annas, but this rise, unlike 1934, was only temporary and for a few days after which prices fell to even lower levels than before". This is not satisfactory evidence. The market was at the time in a highly disorganised condition owing to over-production and there is nothing to show that if the duty had not been imposed prices would not have fallen still lower by an amount equal to, or not far short of, the amount by which the duty was increased. Indeed that

hypothesis is more plausible than the one suggested by the Board for the reason that in the absence of effective foreign competition it is the natural and inevitable tendency for indirect taxation to be borne ultimately by the consumer.

Finally, before leaving this subject, the Government of India are constrained to call in question the appositeness of this part of the Board's report. Its task was to determine the extent of protection against foreign competition that should be afforded to the sugar industry and, with the principle already established that the protective element should be added to the amount of excise duty in determining the rate of import duty, the level of the excise duty did not become relevant to that task. It was outside the scope of the Board's enquiry to propound the adoption of a policy of manipulating the excise duty so as to protect the industry against the results of over-production and uncontrolled competition within this country.

8. The Government of India propose to introduce legislation immediately to give effect to their decision.

ORDER:—

ORDERED that a copy of the above Resolution be communicated to all Provincial Govments, Chief Commissioners, the Political Department and the Political Officers, all Departments of the Government of India (except the Home and External Affairs Departments), the Director General of Commercial Intelligence and Statistics, the Central Board of Revenue, the Indian Trade Commissioners, London, Hamburg, Milan, Mombasa, Osaka and New York, the Secretary, Tariff Board, the High Commissioner for India, London, His Majesty's Trade Commissioner in India, the Canadian Trade Commissioner in India, all the Chambers of Commerce and Associations, the French Trade Commissioner in India, Burma and Ceylon, the Secretary, Imperial Council of Agricultural Research and the Chief Controller of Stores.

ORDERED that a copy (with 15 spare copies) be communicated also to the Government of Burma.

ORDERED also, that it be published in the *Gazette of India*.

No. 199-T.(37)/38.—The protective duty imposed on imported magnesium chloride will determine on the 31st March 1939. In their resolution No. 199-T.(1)/37, dated the 18th December 1938, the Government of India referred to the Tariff Board the question whether any, and if so what, protective measures should be continued beyond that date. The Board has submitted its Report which is published for general information.

2. The Board recommends that protection should be extended to the magnesium chloride industry for a further period of seven years and has proposed a protective duty of annas 15 per cwt. on imported magnesium chloride.

3. The Government of India accept the Board's recommendation in respect of the further period of protection but consider the rate of protective duty proposed to be unduly high.

4. In arriving at the fair selling price for magnesium chloride the Board has rightly taken into account the freight disadvantage which the Indian product has to face in Bombay city. It has, however, made the error of making an allowance on this account in respect of the whole production of the industry, a considerable proportion of which is consumed in upcountry markets where the Indian product either is at no freight disadvantage or even enjoys a certain advantage. The Government of India are of opinion that after rectifying this error the fair selling price can reasonably be fixed at Rs. 2-9 per cwt. and have accordingly decided to impose a protective import duty on magnesium chloride of annas 12 per cwt. Legislation to give effect to this decision will be introduced before the expiry of the present period of protection.

ORDER:—

ORDERED that a copy of the above Resolution be communicated to all Provincial Governments, Chief Commissioners, the Political Department and the Political Officers, all Departments of the Government of India (except the Home and External Affairs Departments), the Director General of Commercial Intelligence and Statistics, the Central Board of Revenue, the Indian Trade Commissioners, London, Hamburg, Milan, Mombasa, Osaka and New York, the Secretary, Tariff Board, the High Commissioner for India, London, His Majesty's Trade Commissioner in India, the Canadian Trade Commissioner in India, all the Chambers of Commerce and Associations, the French Trade Commissioner in India, Burma and Ceylon, the Secretary, Imperial Council of Agricultural Research and the Chief Controller of Stores.

ORDERED that a copy (with 15 spare copies) be communicated also to the Government of Burma.

ORDERED also, that it be published in the *Gazette of India*.

No. 202-T.(9)/38.—In the Government of India Resolution No. 202-T.(1)/36, dated the 11th December 1937, the Tariff Board was asked to re-examine the question of the protection enjoyed by the paper and paper pulp industries in India and to report what protective measures (if any) should be continued after the 31st March 1939. In an *interim* Report the Board found that the revenue surcharge of 25 per cent. imposed in 1931 on the protective duties was no longer justifiable. The Government of India consequently removed the surcharge under their Commerce Department Notification No. 202-T.(4)/38, dated the 25th June 1938. The Board has since submitted its final Report which is published for general information.

2. The main recommendations made by the Board are as follows:—

(1) There should be a protective duty on imported wood pulp of Rs. 35 per ton or 25 per cent. *ad valorem* whichever is higher.

(2) The duty on the protected classes of paper should be 11 pies per lb.

(3) The Customs Tariff classification of paper recommended by the 1935 Board should be adopted with some minor alterations.

(4) The period of protection should be extended by seven years from the 1st April 1939.

(5) There should be a further enquiry at the end of the year 1939 to ascertain whether the new developments taking place in the paper industry warrant protection being extended to classes of paper not at present protected.

(6) The nomenclature of the Act extending the period of protection should be changed from the Bamboo Paper Industry (Protection) Act to the Indian Paper Industry (Protection) Act; and

(7) The paper section of the Forest Research Institute, Dehra Dun, should be extended and more adequately equipped.

3. The Government of India agree that it is necessary to continue protection to the Paper Industry, but they have not found it possible to accept the Board's conclusions with regard to the measure of protection. Government also consider that no case has been made out for the continued protection of wood pulp.

4. Previous Tariff Boards when examining the need of protecting wood pulp have held the opinion that the successful development of the indigenous paper industry depends on an increasing use of bamboo as against the relatively expensive grass pulp and that the continued use of the latter would make it more difficult for the industry ever to dispense with protection. The present Tariff Board has found that the average price of *Sabai* grass delivered at mill is Rs. 35 per ton as against an average of Rs. 17 per ton for bamboo. The Board further states that since the suitability of other grasses has yet to be proved it would be unsafe to forecast any reduction in cost by their use supplementary to *Sabai* grass. On the other hand, the quantity of bamboo available is reported to be sufficient for the requirements of existing mills and mills under construction or likely to be constructed. According to the Board's estimate the measure of protection required for bamboo pulp is Rs. 18 per ton as against Rs. 47 per ton required for grass pulp and the protective duty actually proposed on imported wood pulp is Rs. 35 per ton. The Government of India, agreeing with the opinion of the previous Boards, consider that a claim for protection cannot be made on behalf of grass pulp. The figures given by the present Board show that a revenue duty of 25 per cent. *ad valorem* is sufficient to permit the manufacture of bamboo pulp in India at economic rates and Government therefore propose to levy on imported wood pulp a duty of 25 per cent. *ad valorem* only.

5. The Board when considering the protective duty on paper has confined its calculations of the cost of manufacture to paper made from bamboo pulp alone. It appears, however, to have erred in the figure for the cost of conversion of pulp to paper. The Board accepts Rs. 140 per ton as a reasonable estimate of the cost of conversion and maintains that this estimate is lower than the figure (Rs. 141 per ton) taken by the Tariff Board in 1931 but makes an addition of Rs. 32 per ton to the above estimate on account of the cost of bleaching, selling expenses, insurance, rents, rates and taxes which were not shown separately in the former Report but were included in the single figure for cost of conversion. The Government of India consider that the fair selling price of paper, *viz.*, Rs. 378·3 per ton arrived at by the Board should be readjusted by leaving out these additional items of expenditure and the protective duty proposed should be accordingly reduced from 11 per lb. to 9 pies per lb. In order that certain expensive kinds of writing papers may not pass on payment of a nominal duty, an alternative rate of 25 per cent. *ad valorem* is proposed to be levied on such papers.

6. Since the statistical examination made by the Board cannot, in view of the adjustments which have been found necessary, be made the basis of a long period of protection it is proposed that the period of protection should be three years only, towards the end of which period the question of protection will again be referred to a Tariff Board. By that time it is probable that the manufacture of the types of paper which do not at present enjoy protection will be sufficiently advanced to provide reliable data for a review of the industry as a whole.

7. The Board has overlooked the fact that the Bamboo Paper Industry (Protection) Act of 1932 has been repealed by the Indian Tariff Act of 1934 (No. XXXII of 1934). The question of change in nomenclature does not, therefore, arise.

8. The recommendation of the Tariff Board regarding the extension and equipment of the Forest Research Institute will receive separate consideration.

9. The Government of India propose to introduce legislation immediately to give effect to their conclusions regarding the amendment of the customs tariff.

ORDER. Calcutta, the 21st April 1939.

The joint waterworks of the Baranagar and Kamarhati Municipalities in the district of the 24-Parganas are nearing completion and will very shortly be in working order. Owing, however, to party factions among the Commissioners of the Baranagar Municipality, it has not been possible for the Joint Water-supply Committee constituted under section 87 of the Bengal Municipal Act, 1932, to function properly and both the municipalities concerned have by resolution requested the local Government to take over the management and control of the waterworks.

2. In the interest of the ratepayers of both the municipalities and with a view to placing the joint waterworks on a proper footing, the Government of Bengal have, in the above circumstances, decided to take over the management and control of the waterworks. Accordingly in exercise of the power conferred by section 285 of the Bengal Municipal Act, 1932, Government are pleased to appoint the Chief Engineer, Public Health Department, Bengal, to take charge of the joint waterworks and they direct that the waterworks with all plant, fittings and appurtenances thereof be handed over to the control and management of the said officer for a period of one year with effect from the date of publication of this resolution in the *Calcutta Gazette.*

NOTIFICATIONS.

No. 14-I.—17th April 1939.—In exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), and in supersession of notification No. 17-I., dated the 16th September 1930, the Governor is pleased to make the following rules and fix the following rates of tolls for the line of navigation known as the Roypasa-Nathullabad-Jail Khal in the district of Bakarganj and as defined in notifications No. 9-I., dated 22nd July 1930, and No. 3-I., dated the 19th February 1939.

This will take effect from the 13th May 1939.

Rules and Rates of Tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the district board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, Kosh boats, green boats and other similar types of boats.

Class II—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements:—

Class I

A. The product of one quarter of the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Saltees.*—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be) be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which shall be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket shall be kept on board the vessel and in possession of the person in charge of the vessel and shall be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one-quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Crown, of district board, or other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the district board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rate of toll shall be as follows:

(1) On all vessels empty or laden per hundred maunds Twelve annas.

(2) On all vessels empty or laden, for 12½ maunds or less—One anna six pies.

(3) On rafts of bamboos, grass, timber or other similar articles, not exceeding 50 feet in length and 5 feet in breadth -Six annas each raft.

Tolls shall be levied at Barisal or at Amanotganj near Barisal Chowk Bazar, at Kawnia near old cremation ground (at the west end of Jail Khal), at Defulia near Baniakati bridge and at North Karapur (Bagadhi) at the west end.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month, i.e., provided that this rule shall not apply to vessels holding monthly tickets under rule 13, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the Army in India, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the district board of Bakarganj at a meeting and such decision shall be subject to the approval of the Provincial Government.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Saltees.*—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills the gross maundage of cargo shown by the way bills, or in the case of steamers the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which shall be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the serang, manjhee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket shall be kept on board the vessel and in possession of the person in charge of the vessel and shall be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of the Crown, of the district board or other local bodies, or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the district board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length or 5 feet in breadth shall be permitted to enter the canal.

12. The rates of toll shall be as follows:--

(1) On all vessels, empty or laden, per hundred maunds—Eight annas.

(2) On all vessels, empty or laden, for 12½ maunds or less—One anna.

(3) On rafts of bamboos, grass, timber or other similar articles not exceeding 50 feet in length and 5 feet in breadth--Four annas each raft.

Tolls shall be levied at Dwipasa and Bauphal.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at ten times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month, *i.e.*, provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers or officers of the Army in India, post mail runners, officers of the Department of Communications and Works (Irrigation) on duty, or officers or servants of the toll office for the canal referred to in these rules while on duty, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the district board of Bakarganj at a meeting and such decision shall be subject to the approval of the Provincial Government.

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 20th February, 1939:—

C. OF S. BILL NO. 1 OF 1939.

A Bill to amend the Indian Succession Act, 1925, as respects intestate succession among Parsis.

WHEREAS it is expedient to amend the law relating to intestate succession among Parsis; It is hereby enacted as follows:—

Preliminary.

1. (*1*) This Act may be called the Indian Succession Act (Amendment) Act, 1939.

(*2*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

2. For sections 50 to 56 and Schedule II, Parts I and II, of the Indian Succession Act, 1925, the following shall be substituted:—

"50. In this Chapter, unless there is anything repugnant in the subject or context,—

(*a*) any word expressing relationship shall be understood as denoting only a legitimate relative, and the "relative" shall be understood to include a lineal descendant as well as any other relative by blood or marriage;

(b) a child, whether of the intestate or any relative of the intestate, if conceived during the lifetime of the intestate and born alive after the intestate's death, shall be regarded in the same way as a child born during the intestate's lifetime and surviving the intestate;

(c) no widow of any relative of the intestate shall receive a share as such or be taken into consideration as such in the distribution of the intestate's property if she has married again during the lifetime of the intestate;

(d) when property is directed to be divided between members of a class, if there be only one such member, the whole shall be given to such member;

(e) the words "dead" or "deceased" shall be understood to mean "dead in the lifetime of the intestate", and the words "leaves", "leaving", "left" to mean "leaves, leaving or left surviving the intestate";

(f) when property is directed to be divided per stirpes among the lineal descendants of a deceased person, it shall first be divided among the children of the deceased who may be living, and those of them who may have died leaving a lineal descendant or descendants, the share of each such deceased child shall be divided in the same way among the children of such, and the same rule followed for remoter lineal descendants; further, in making each division and sub-division, if the share to be divided is that of a deceased male each male sub-sharer shall receive double the share of each female sub-sharer, but if the share to be divided is that of a female all the sub-sharers shall be equal without regard to sex.

DISTRIBUTION IF INTESTATE LEAVES A LINEAL DESCENDANT OR DESCENDANTS.

51. If a male Parsi dies intestate leaving a lineal descendant or descendants the property of which he dies intestate shall be divided according to the following rules:—

(a) It shall be divided among his children so that the share of each son shall be double the share of each daughter.

(b) If he also leaves a widow, she shall receive a share equal to that of each son.

(c) If he also leaves his father, the father shall receive a share equal to that of each son, and if he also leaves his mother she shall receive a share equal to that of each daughter.

(d) If a child of the intestate be dead leaving a widow or a lineal descendant or descendants or a widow or widows of a lineal descendant or descendants, a share shall be assigned to such child and be dealt with under section 53 below. If such deceased child has left neither a widow nor a lineal descendant nor a widow of a lineal descendant, no share shall be assigned to such child.

52. If a female Parsi dies intestate leaving a lineal descendant or descendants, the property of which she dies intestate shall be divided according to the following rules:—

(a) It shall be divided among her children in equal shares.

(*b*) If she also leaves a widower, he shall receive a share equal to that of each child.

(*c*) If a child of the intestate be dead leaving a widow or a lineal descendant or descendants or a widow or widows of a lineal descendant or descendants, a share shall be assigned to such child and be dealt with under section 53 below. If such deceased child has left no widow, nor lineal descendant nor widow of a lineal descendant, no share shall be assigned to such child.

53. (*a*) If a male child of a Parsi intestate be dead leaving a lineal descendant or descendants, the share of such child shall be divided among the children of such child, so that the share of each son shall be double the share of each daughter, and if he has also left a widow she shall receive a share equal to that of each son.

(*b*) If a female child of a Parsi intestate be dead leaving a lineal descendant or descendants, the share of such child shall be divided equally among her children.

(*c*) If a child of a deceased child of the intestate be dead leaving a lineal descendant or descendants, the share of such deceased grandchild shall be divided in the same way as that of a child under clauses (*a*) and (*b*) of this section, and the same rule shall apply to remoter deceased lineal descendants of the intestate who may be entitled to a share.

(*d*) If a deceased child or other lineal descendant of the intestate entitled to a share has left no lineal descendant but has left a widow, or a widow or widows of a lineal descendant or descendants, if there be only one such widow she shall receive half the share of such deceased sharer, but if there be more than one such widow two-thirds of such share shall be equally divided between them.

(*e*) The half or one-third share that would be left after the widow or widows have received their shares under clause (*d*) of this section shall be divided per stirpes between the lineal descendants of the intestate.

DISTRIBUTION IF INTESTATE LEAVES NO LINEAL DESCENDANT BUT LEAVES A WIDOW OR WIDOWER OR A WIDOW OR WIDOWS OF A LINEAL DESCENDANT OR DESCENDANTS.

54. If a Parsi dies intestate leaving no lineal descendant but leaving his or her own widow or widower, or a widow or widows of lineal descendant or descendants, the property of which he or she dies intestate shall be divided according to the following rules:—

(*a*) If the intestate leaves a widow or widower but no widow of a lineal descendant, the widow or widower shall receive half of the property.

(*b*) If the intestate leaves a widow or widower and also a widow or widows of a lineal descendant or descendants, the intestate's own widow or widower shall receive one-third of the said property, and the widow or widows of lineal descendants shall receive another third of the said property, and the same shall be divided equally among them if there be more than one.

(c) If the intestate leaves no widow or widower, but only one widow of a lineal descendant, she shall receive half of the said property, but if the intestate leaves more than one such widow they shall receive two-thirds of such property and the same shall be divided equally among them.

(d) The half or one-third of the property that would be left after the persons mentioned in clauses (a), (b) and (c) of this section have received their shares shall be distributed among the relatives of the intestate in the order specified in Part I of Schedule II subject to the rules that—

(1) relatives included in Article 1 shall be preferred to those included in Article 2, those in Article 2 to those in Article 3, and so on in succession;

(2) where under any Article living relatives of a particular class are directed to share with lineal descendants of deceased relatives of the same class, the property shall be primarily divided among the living and the deceased relatives called hereafter primary sharers, and the share of each deceased primary sharer shall be divided per stirpes among his lineal descendants.

(3) if the primary sharers included in the same Article are of the same sex, or if the intestate is a female, the shares of all such sharers shall be equal, but if the intestate is a male the share of each such male sharer shall be double that of each female.

(e) If there are no relatives entitled to the share under clause (d) of this section, the whole of the said property shall be distributed among the persons entitled to receive shares under clauses (a), (b) and (c) of this section subject to the rules that—

(1) if there be only one such person he or she shall receive the whole,

(2) if there be more than one, if one of them be the widow or widower of the intestate, she or he shall receive half, and the other half shall be divided equally among the others, but if the intestate leaves no widow or widower the whole shall be divided equally among them.

DISTRIBUTION IF INTESTATE LEAVES NEITHER WIDOW NOR WIDOWER NOR A LINEAL DESCENDANT NOR A WIDOW OF A LINEAL DESCENDANT.

55. If a Parsi dies intestate leaving neither widow nor widower nor a lineal descendant nor a widow of a lineal descendant, his or her relatives in the order set forth in Part II of Schedule II shall receive the property of which he or she dies intestate, the distribution being subject to the same rules as are set forth in clause (d) of section 54 for distribution among the relatives in Part I.

56. If there be no relative entitled to succeed to the property of which a Parsi dies intestate under sections 51 to 55, the relatives who would have been entitled to succeed under section 48 if the intestate had been not a Parsi shall receive such property."

STATEMENT OF OBJECTS AND REASONS.

At present the law that governs intestate succession among Parsis is that laid down in 1865 in Act No. XXI of that year. It is true the said Act has been repealed by the Indian Succession Act No. XXXIX of 1925 but this has made no change in the law, as all the provisions of the Act of 1865 have been incorporated verbatim in sections 50 to 56, and Schedule II, Parts I and II, of the Act of 1925. It has been felt for a long time by members of the Parsi Community that this enactment, more than 70 years old, requires amendment both in form and substance for various reasons. The meaning of some of its provisions is doubtful; some of these doubts have been removed by judicial decisions. It is also incomplete in some respects, and some of these deficiencies have had to be supplied by other judicial decisions. Certain other changes seem necessary in accordance with present day Parsi sentiment and usage. The arrangement and language also require some revision. In order to remove doubts, supply deficiencies, incorporate as far as possible the judicial decisions which the community has accepted, inroduce changes commonly desired and make the arrangement more systematic it has been thought best to redraft the whole enactment. In making this redraft, so far as arrangement and language are concerned, other parts of the Act of 1925 have as far as possible been followed, *e.g.*, by introducing sub-headings as in the previous Chapter relating to intestate succession among non-Parsis, so as to give a grasp of the subject as a whole. For convenience the new sections of the Draft Bill have been numbered 50 to 56 so that they may be substituted for the original sections of the Act of 1925 now in force.

3. The Whipping Act, 1909, is hereby repealed. IV of 1909.

---

*The Governor General has been pleased to accord the previous sanction required by clause (*c*) of section 108 (1) read with clause (*a*) of section 313 (4) of the Government of India Act, 1935.

STATEMENT OF OBJECTS AND REASONS.

Whipping as a legal punishment is a relic of barbarous days, and lowers both the Government who suffer it to be inflicted on offenders, and the people who endure it in the scale of civilized humanity. Nearly all civilized Governments have abolished it altogether and where it is retained, it is reserved for extremely heinous offences attended with revolting cruelty. The Whipping Act No. IV of 1909 prescribes whipping for the pettiest of offences no less than for a few grave offences. Whipping is quite frequently resorted to in petty cases of theft, etc., and is often attended by extreme barbarity and excruciating bodily pain. The object of this Bill is to abolish whipping as a legal punishment.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1939:—

L.A. BILL NO. 8 OF 1939.

A Bill to amend the Muslim Personal Law (Shariat) *Application Act, 1937.*

WHEREAS it is expedient to amend the Muslim Personal Law (*Shariat*) Application Act, 1937; It is hereby enacted as follows:— XXVI of 1937.

Short title and extent.

1. *(1)* This Act may be called the Muslim Personal Law (*Shariat*) Application (Amendment) Act, 1939.

(2) It extends to the whole of British India excluding the North-West Frontier Province.

Amendment of section 3, Act XXVI of 1937.

2. In sub-section *(1)* of section 3 of the Muslim Personal Law (*Shariat*) Application Act, 1937 (hereinafter referred to as the said Act), for the words "this Act" the words "the provisions of this section" shall be substituted. XXVI of 1937.

Amendment of section 6, Act XXVI of 1937.

3. Entry *(3)* in section 6 of the said Act shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Section 2 of the Muslim Law (*Shariat*) Application Act, 1937, prescribes that Muslim Personal Law will apply to all cases enumerated therein, in preference to any custom and usage to the contrary. Section 3 of the said Act goes further and provides that if the declaration prescribed therein is made by a Muslim then the Muslim Personal Law will apply to 'adoption, wills, and legacies' also. The two sections are quite independent. No declaration before the prescribed authority is required for the applicability of either section 2 or section 5. But the words used in section 3 are somewhat ambiguous. They are: 'Any person who satisfies the prescribed authority ....may by a declaration............declare that he desires to obtain the benefit of *this Act*'. What is really meant is desires to obtain the benefit of the provisions of this section. The use of the word 'Act' is misleading and some courts have rejected applications under section 5 on the ground that they are premature as the 'Prescribed authority' has not yet been appointed by the Provincial Government and no declaration has been made before it. It is clear from the Act itself that it was not the intention of the Legislature. Hence it is necessary to make the amendment proposed in this Bill.

The other amendment proposed in the Bill relates to section 6 of the said Act. This section was meant to repeal those enactments which gave legal sanction to usage and custom in preference to Muslim Personal Law. Section 37 of the Bengal, Agra and Assam Civil Courts Act, 1887 is also included in the list as No. 3. A perusal of the said section would show that it gives no legal sanction to custom and usage and is in no way inconsistent with the provisions of this Act. It has been included in the list by an oversight. It is therefore proposed to delete entry (3) in section 6.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1939:—

L. A. BILL No. 11 OF 1939.

A Bill further to amend the Indian Penal Code.

WHEREAS it is necessary and expedient that the proceedings and speeches in Indian Legislatures should be published in the widest possible manner; It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Indian Penal Code (Amendment) Act, 193 .

(*2*) It shall extend to the whole of British India.

Insertion of new section 93A in Act XLV of 1860.

2. After section 93 of the Indian Penal Code the following new section shall be inserted, namely:— XLV of 1860.

Publication of speeches in Indian Legislatures.

"93A. No publication made in good faith, of any speech or speeches in any Indian Legislature, is an offence."

STATEMENT OF OBJECTS AND REASONS.

It is proper and necessary that, for the due and effective exercise and discharge of the functions and duties of the Indian Legislatures, and of the members thereof, and for the promotion of wise and good work in the Legislatures, no obstruction or impediment should exist in the way of the publication, not only in official reports, but in the newspapers and journals of the country, of the speeches, votes, and proceedings of the Indian Legislatures. The recent ruling of the President of the Legislative Assembly given on the point of privilege raised by Sardar Sant Singh, M.L.A., in connection with the publication of his speech by Mr. Krishna Kanta Malaviya, M.L.A., in the *Abyudhaya*, has brought the whole question to the front. The present position is exceedingly dangerous for the Legislature, for the people, and for the Press. Parliamentary work is likely to become a farce if the widest possible publicity is not given to the work therein. It is impossible to expect the newspapers to examine critically the speeches of the members of the Legislatures before publishing them. It is not right that the Sword of Damocles, the executive action under the Press Act, or any other penalty should hang over them. Moreover the electors would like to know how their representatives speak and vote in the Legislature to which they send them. In the Irish Free State such a privilege is conferred by Statute. It has been enacted in England by the Bill of Rights that the freedom of speech, debate or proceedings in Parliament ought not to be impeached.

There is no danger of abuse of this power of publication of the speeches made in the Assembly, because Standing Order 29 of the Legislative Assembly provides that a member while speaking shall not utter treasonable, seditious or defamatory words. Without this right the freedom of speech of the members in the Indian Legislature may be reduced to almost nothing, and this Bill is perfectly consistent with the provisions of the Government of India Act, which under section 67 (7) provides that "No person shall be liable to any proceedings in any court by reason of his speech or vote in either chamber, or by reason of anything contained in any official report of the proceedings of either chamber". These official reports are available to any citizen at reasonable prices. Publication of the proceedings in other newspapers cannot create any different situation. Hence this Bill.

A. AHMAD, for *Director of Agriculture, Bengal.*

Dacca, the 22nd April 1939.

The triennium under review was one of marked progress in the activities of the Medical Department. Receipts and expenditure on medical treatment, the number of dispensaries newly started and the number of beds maintained in various hospitals showed a steady increase. Of the various improvements effected during the period some of the most outstanding are briefly described below:—

Radium and Deep Therapy Treatment.—While Government were considering the introduction of radium treatment on a proper basis in the Medical College Hospitals a generous gift from His late Majesty King-Emperor George V Silver Jubilee Fund enabled the establishment of a radium fund and the purchase of an adequate quantity of radium. This proved a great boon to the Medical College Hospitals. A Deep Therapy apparatus has also been purchased at considerable cost for the proper treatment of malignant growths for the Medical College Hospitals. Since the close of the triennium the purchase of a similar apparatus for the Campbell Hospital has been sanctioned.

X-ray Facilities.—Only 8 hospitals in the areas outside Calcutta and Howrah had X-ray facilities at the beginning of the triennium. Six other hospitals have since installed X-ray apparatus as a result of commendable local efforts and other district hospitals are gradually falling into line.

Control of Drugs.—During the period under review the problem of adulteration of drugs, which has recently become a menace to the public health of the province, engaged the close attention of Government. The question of legislation for preventing the manufacture and sale of spurious drugs was also taken up by the Central Government. Pending such legislation, Government have, since the close of the triennium, made arrangements for the testing of drugs in the School of Tropical Medicine, Calcutta, and the Government of India have also set up a Biochemical Standardization Laboratory for testing drugs at the All-India Institute of Hygiene and Public Health, Calcutta.

Dental Registration.—A Dental Registration Bill was drafted according to the recommendations of the Dental Registration Committee which submitted their report in March 1935. Since the close of the triennium the Bill has passed through the Select Committee and through the Legislative Assembly and is now before the Upper House.

Indigenous systems of medicine.—A General Council and State Faculty of Ayurvedic Medicine was established during the triennium with the object of regulating teaching of the Ayurvedic system according to approved standards and registration of Ayurvedic practitioners. Since then the establishment of General Council and State Faculties in Homeopathic and Unani systems of medicine has also been taken up.

System of Honorary Medical Officers. ment.—While Government were consi-Medical Officers to assist in the treatment of patients in the hospitals and thus encouraging popular support to the State Institutions which has attained a considerable measure of success in the State Hospitals of Calcutta was extended to the hospitals at district headquarters in 1937 and 136 Honorary Officers were employed in 24 institutions. The Honorary Medical Officers in Calcutta and the mufassil are reported to have rendered valuable service to the patients in the hospitals in which they were employed.

Non-official organisations.—Very valuable services were rendered in the matter of medical relief and towards the prevention of diseases by several non-official and voluntary organisations. The chief among these were the Bengal Branch of the British Empire Leprosy Relief Association, the Tuberculosis Association, Bengal, the Indian Red Cross Society, Bengal Branch, the St. John Ambulance Association, Bengal Branch, the Association for the Prevention of Blindness, Bengal, and the Calcutta Medical Aid and Research Society.

The scheme of a climatic sanatorium for tuberculosis patients, towards which a generous donor, Babu Ram Coomar Bangur made a gift of Rs. 2,82,000 during the early part of the triennium, is still under examination of Government and the question of a suitable site for the sanatorium is awaiting decision.

Conclusion.—The thanks of Government are due to the various officers who administered the Medical Department during the triennium and to Major-General P. S. Mills for his very interesting report.

Secretary to the Government of Bengal.

No. 1517J.—27th April 1939.—In exercise of the powers conferred by section 11 of the Calcutta Official Receiver's Act, 1938 (Bengal Act VII of 1938), the Governor is pleased to make the following rules for carrying into effect the objects of the said Act relating to the functions of the Official Receiver of the High Court in Calcutta, namely:—

1. "The Act" means the Calcutta Official Receiver's Act, 1938 (Bengal Act VII of 1938);

"Official Receiver" includes the Deputy Official Receiver;

"Bank" means the Reserve Bank of India.

2. (*1*) Whenever an order is passed by a Court making the Official Receiver personally liable to make good any loss incurred in the administration of an estate the Official Receiver shall, as soon as may be, furnish the Provincial Government with a copy of the Court's order along with his report thereon.

(*2*) Before making payment in satisfaction of the Court's orders, the Official Receiver shall obtain the orders of the Provincial Government for the payment and for allotment of funds.

3. The Official Receiver shall charge such fees by way of percentage or otherwise as are laid down in the following table:—

Scale of fees.

(*1*) On rents recovered from house properties ...	5 per cent.
(*2*) On outstandings recovered ...	5 per cent.
(*3*) On sales of properties, movable or immovable, calculated on the total value realised in any one estate ...	5 per cent.

(*6*) On rents recovered from zemindary properties	10 per cent. on gross collections.

Provided that, if in any case it appears to the Official Receiver that the circumstances of receivership are, or probably will be, such as to render his duties in relation thereto exceptionally simple, or

otherwise of an exceptional character justifying this course he may agree to accept fees at a lower rate of percentage, but in every such case the reasons for so doing shall be recorded by him, and a report of such case shall forthwith be submitted to the Provincial Government. In accepting such lower rate of fees the Official Receiver may stipulate that the total remuneration shall not be less than some named sum. The Official Receiver may also accept a lower rate of fees where a special charge for establishment is ordered by the Court and shall report the facts forthwith to the Provincial Government.

4. The Official Receiver shall maintain a personal deposit account with the Bank entitled "The Account of the Official Receiver, Calcutta" and shall pass all moneys received by him in the administration of estates to the credit of the said account on the day of receipt, if possible, and in any case not later than the following day on which the Bank is open.

5. All Government securities, debentures and shares coming into the hands of the Official Receiver shall as soon as practicable be lodged in the Bank for safe custody except in any case in which it may be necessary for him to retain them temporarily in connection with their sale, with the making over charge of an estate on termination of receivership or for any other purpose.

6. There shall be maintained in the office of the Official Receiver safes for the safe custody of jewels, ornaments, title deeds, documents and other valuable articles belonging to the estates. 1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the district board of Bakarganj on this behalf.

2. Vessels for the purpose of determination of maundage shall be divided into two classes as below:—

Class I—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, and other similar types of boats.

Class II—To include steam boats, motor boats, flats, and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of the Canals Act and of these rules, be determined by the following measurements:—

Class I.

A. The product of one quarter of the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Saltees.*—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills the gross maundage of cargo shown by the way bills, or in the case of steamers the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which shall be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the serang, manjhee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket shall be kept on board the vessel and in possession of the person in charge of the vessel and shall be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the

ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of the Crown, of the district board or other local bodies, or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the district board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length or 5 feet in breadth shall be permitted to enter the canal.

12. The rates of toll shall be as follows:—

(1) On all vessels, empty or laden, per hundred maunds—Eight annas.

(2) On all vessels, empty or laden, for 12½ maunds or less—One anna.

(3) On rafts of bamboos, grass, timber or other similar articles not exceeding 50 feet in length and 5 feet in breadth—Four annas each raft.

Tolls shall be levied at Dwipasa and Bauphal.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at ten times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month, *i.e.*, provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers or officers of the Army in India, post mail runners, officers of the Department of Communications and Works (Irrigation) on duty, or officers or servants of the toll office for the canal referred to in these rules while on duty, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the district board of Bakarganj at a meeting and such decision shall be subject to the approval of the Provincial Government.

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1939:—

L. A. BILL No. 14 OF 1939.

A Bill further to amend the Code of Civil Procedure, 1908, for certain purposes.

WHEREAS it is expedient further to amend the Code of Civil Procedure, 1908, for the purposes hereinafter appearing; It is hereby enacted as follows:— V of 1908.

Short title. 1. This Act may be called the Code of Civil Procedure (Amendment) Act, 193 .

Amendment of section 60, Act V of 1908. 2. In sub-section (*1*) of section 60 of the Code of Civil Procedure, 1908,— V of 1908.

(*i*) in clause (*c*) of the proviso, after the words "belonging to an agriculturist" the words "or a labourer" shall be inserted; and

(*ii*) the present *Explanation* shall be numbered as *Explanation II* and the following shall be inserted as *Explanation I*, namely:—

"*Explanation I.*—For the purposes of this section, the word "labourer" shall include any person employed in trade or industry or agriculture whether or not in the employment of any employer and whose income does not exceed twenty-five rupees monthly."

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to amend the Code of Civil Procedure, 1908, so as to afford similar protection to a labourer as is enjoyed by an agriculturist.

To avoid the growing acuteness of the problem of housing of labourers, both in rural and urban areas, it is expedient that it should be exempted from sale in execution of a money decree.

When wild birds and animals of the forest are protected from annihilation by the Government, it is essential on humanitarian grounds also that poor labourers should be secured of their so-called resting place in order to enable them to earn their livelihood and rear their family even in the midst of extreme destitution.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1939:—

L. A. BILL No. 15 OF 1939

A Bill to limit rates of interest and for that purpose further to amend the Usurious Loans Act, 1918.

WHEREAS it is expedient to limit the rates of interest and for that purpose further to amend the Usurious Loans Act, 1918, It is hereby enacted as follows:— X of 1918

Short title. **1.** This Act may be called the Usurious Loans (Amendment) Act, 193 .

Amendment of section 3, Act X of 1918. **2.** In section 3 of the Usurious Loans Act, 1918 (hereinafter referred to as the said Act), X of 1918

(*1*) in sub-section (*1*),—

(*a*) in clause (*a*), for the word "and" occurring at the end the word "or" shall be substituted,

(*b*) for the words "may exercise all or any of the following powers" the words "shall exercise all the following powers or all such of them as may not be inappropriate to the case" shall be substituted; and

(*c*) in the proviso,—

(*i*) the brackets and figure "(*i*)" occurring in clause (*i*) shall be omitted, and

(*ii*) clause (*ii*) shall be omitted,

(*2*) in sub-section (*2*),—

(*a*) for clause (*a*) the following shall be substituted, namely:—

"(*a*) In this section, 'excessive' means—

(*i*) in excess of interest calculated at the rate of six per cent. per annum with annual rests or

(*ii*) if the Reserve Bank of India's rate at the date of the loan exceeds three per cent per annum, in excess of interest calculated at three per cent above such Reserve Bank rate with annual rests:

Provided that if the Court considers that having regard to the risk incurred as it appeared, or must be taken to have appeared to the creditor at the date of the loan a lower rate of interest was reasonable, all interest in excess of such rate shall be deemed 'excessive' "; and

(*b*) the *Explanation* shall be omitted; and

(*3*) to sub-section (*3*) the following shall be added at the end, namely:—

"or if such suit is instituted by a debtor for any of the reliefs specified in sub-section (*1*) of section 3".

Amendment of section 4, Act X of 1918. **3.** In section 4 of the said Act, for the words "may exercise" the words "shall exercise" shall be substituted.

Insertion of new section 5 in Act X of 1918.

4. After section 4 of the said Act, the following section shall be added, namely:—

Punishment for evasion of Act relating to maximum rates of interest.

"5. Any person who evades or attempts to evade the provisions of this Act prescribing the maximum rate of interest by actually lending a smaller sum than that shown in the agreement or instrument executed by the debtor or in any other manner whatsoever, shall be punishable with fine not exceeding the sum of (*a*) one thousand rupees and (*b*) twice the amount which has been paid to him in consequence of such evasion or would have been paid to him if the attempted evasion had been successfully carried out."

STATEMENT OF OBJECTS AND REASONS.

It is an admitted fact that the high rate of interest forms a heavy burden and is one of the chief causes of agricultural indebtedness. It is also well known that low rates of interest prevailing in the cities have little effect on the usurious rates prevailing in the rural areas. The object of the Bill is to limit the rate of interest and thus relieve the masses from the exploitation and extortion of moneylenders. The simplest method of doing this is to amend the Usurious Loans Act, 1918. The measure has been adopted in certain Provinces but in a matter like this uniformity is greatly needed.

STATEMENT OF OBJECTS AND REASONS.

The legal profession has now been in existence in British India for about 150 years. It is a progressive institution. But it still consists of different grades with different status.

There has been a natural and growing desire and consciousness in the profession that all the different grades and distinctions should be abolished and that there should be only one grade of lawyers, practising in all the courts—from the High Court down to the lowest Civil, Criminal and Revenue Courts.

Another equally strong feeling which has grown up is that the Bar in India, like the Bar in Great Britain, should have substantial autonomy in the management of its own affairs and should free itself from the control of the courts.

This feeling found its expression first in the Resolution moved by Munshi Iswar Saran in the Legislative Assembly in 1921, recommending legislation with a view to create an Indian Bar so as to remove all distinctions enforced by statute or by practice between Barristers and Vakils.

The Government practically accepted the Resolution of Munshi Iswar Saran and invited the opinion of the High Courts and the Local Governments on two questions, *viz.*, the creation of an India Bar Council and the desirability of removing all distinctions enforced by statute or by practice between Vakils and Barristers. The Local Governments unanimously recommended the removal of these distinctions; so also most of the High Courts. These opinions were collected in 1923. Thereupon the Indian Bar Committee was appointed by the Government of India in November, 1923, to report on the proposals made from time to time for constituting an India Bar with particular reference to the constitution, statutory recognition, functions and authority of Bar Council and its position *vis-a-vis* High Courts and the extent to which it might be desirable to remove the existing distinctions between Barristers and Vakils.

The Committee unanimously recommended the unification of all practitioners.

The Committee also recommended that some measure of self-government should be granted to the Bars attached to some of the High Courts.

To give effect to these recommendations by legislation a Bill was introduced which was ultimately passed as the Indian Bar Councils Act of 1926. A Bar Council was created by the Act to achieve this two-fold object, *viz.*, the ultimate unification and eventual autonomy of the legal profession. But the reforms accomplished by this Act did not go far enough either in extent or in substance. The Act introduced some partial reforms regarding the enrolment and status of the lawyers entitled to practise in the High Court but left completely untouched the pleaders of subordinate courts. The result therefore is that there has not been any improvement in the status of the legal practitioners of the subordinate courts. They are still governed by the provisions of the Legal Practitioners Act of 1879. Their enrolment and conduct are still regulated by the High Court by rules made under the Legal Practitioners Act.

The object of this Bill is to bring about the desired unification and autonomy of the legal profession.

WHEREAS it is expedient further to amend the Hindu Women's Rights to Property Act, 1937, for the purpose hereinafter appearing; It is hereby enacted as follows:— XVIII of 1937.

Short title and effect.

1. (*1*) This Act may be called the Hindu Women's Rights to Property (Amendment) Act of 193 .

(*2*) It will have retrospective effect from the 14th April, 1937.

Amendment of section 3, Act XVIII of 1937.

2. In section 3 of the Hindu Women's Rights to Property Act, 1937,— XVIII of 1937.

(*a*) to sub-section (*1*) the following further provisos shall be added, namely:—

"Provided further that in the *absence* of a widow or a son or a son's son or a son's son's son of the intestate, the property of the deceased shall devolve on his daughters, subject to the limitations and in the order provided by the Hindu Law in this behalf:

Provided also that in the last mentioned case if there is a widow of a predeceased son existing with one or more maiden daughters, she shall inherit as a maiden daughter and if there is no maiden daughter but one or more married daughters having a son or sons the predeceased son's widow shall inherit as one of such daughters and if the daughter dies leaving a son or sons, the son or sons shall inherit their mother's share along with the son's widow or son's son's widow or son's son's son's widow."; and

(*b*) in sub-section (*3*), for the word "widow" the word "woman" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to give to a daughter that right of inheritance to which she is entitled under the text of Yajnavalkya and Vishnu and other exponents of Hindu Law and to which she is entitled in equity and justice.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1939:—

L. A. BILL NO. 21 OF 1939.

A Bill further to amend the Contempt of Courts Act, 1926, for certain purposes.

WHEREAS it is expedient further to amend the Contempt of Courts Act, 1926, for the purposes hereinafter appearing; It is hereby enacted as follows:— XII of 1926.

Short title, extent and commencement.

1. (*1*) This Act may be called the Contempt of Courts (Amendment) Act, 193 .

(*2*) It shall extend to the whole of British India.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Insertion of new section 1A in Act XII of 1926.

2. After section 1 of the Contempt of Courts Act, 1926 (hereinafter referred to as the said Act), the following new section shall be inserted, namely:— XII of 1926.

Contempt of Court.

"1A. Whoever, by words either spoken or written or by signs or by visible representation or otherwise, interferes with or obstructs the administration of justice in a court during the pendency of any case therein shall be deemed to commit contempt of court within the purview of sub-sections (*1*) and (*2*) of section 2."

Insertion of new section 2A in Act XII of 1926.

3. After section 2 of the said Act, the following new section shall be inserted, namely:—

Procedure for trial of offences.

"2A. A High Court or a Chief Court taking cognizance of any case of contempt under the provisions of this Act shall commit or hold to bail the accused person to take his trial before itself, and in trying the accused shall, *mutatis mutandis*, follow the procedure prescribed in Chapter XX of the Code of Criminal Procedure, 1898, for trial of Summons cases." V of 1898.

STATEMENT OF OBJECTS AND REASONS.

The Contempt of Courts Act of 1926 has defined and limited the powers exercisable by High Courts and Chief Courts in punishing contempts of court. But it has not laid down any definition of the offence of contempt of court nor has it laid down the procedure and practice which should be followed in dealing with such offence. As the law stands now, one cannot speak with confidence as to what constitutes a contempt of court. There are different categories of contempt. Is it intended merely to prohibit interference with or obstruction of the administration of justice during the pendency of a case or should the law of contempt go further and penalise all such adverse criticism of judges and their decisions even after the disposal of cases as may bring a court into contempt and scandalise a judge? In the absence of a definition different courts will inevitably take different views. It should not be impossible for the legislature to formulate a workable definition of an offence which it seeks to punish. In any case, the Court will in each case have to find a definition for itself. It is not fair and reasonable to enact penal legislation without a cut and dried definition of what the offence is. While preventing interference with the course of administration of justice, this Bill seeks to give perfect freedom to the press and the public in the matter of comments upon judicial decisions. As regards procedure, the jurisdiction in contempt is now exceptionally summary and arbitrary. The powers of the Court are now extraordinary, uncontrolled and unfettered. But even a judge of the High Court is a human being and not a superman. The prosecutor himself should not be the judge of the accused. Besides there should be all the safeguards of a regular trial. The procedure should be laid down. This Bill seeks to fill up this two-fold lacuna in the existing law. The freedom of the press is not infrequently in jeopardy without the definition and procedure prescribed in the Act.

The following Bill was introduced in the Legislative Assembly on the 18th February, 1939:—

L. A. BILL NO. 22 OF 1939.

A Bill further to amend the Provincial Insolvency Act, 1920.

WHEREAS it is expedient further to amend the Provincial Insolvency Act, 1920, for the purpose of providing procedure for Provincial Insolvency Court to bring within its jurisdiction the right, title and interest of a member of a joint Hindu Mitakshara family other than the insolvent; It is hereby enacted as follows:— V of 1920.

Short title, extent, commencement and application.

1. (*1*) This Act may be called the Provincial Insolvency (Amendment) Act, 193 .

(*2*) It shall apply to the whole of British India, except the Scheduled Districts.

(*3*) It shall come into force immediately and shall apply to all pending proceedings.

Amendment of section 28, Act V of 1920.

2. Sub-sections (*3*) and (*4*) of section 28 of the Provincial Insolvency Act, 1920 (hereinafter referred to as the said Act), shall be deleted. V of 1920.

Insertion of new section 34A in Act V of 1920. Description of insolvent's property divisible amongst creditors.

3. After section 34 of the said Act the following shall be inserted as section 34A, namely:—

"34A. (*1*) The property of the insolvent divisible amongst his creditors, and in this Act referred to as the property of the insolvent, shall not comprise the following particulars, namely:—

(*a*) property held by the insolvent on trust for any other person; and

(*b*) the tools (if any) of his trade and the necessary wearing apparel, bedding, cooking vessels and furniture of himself, his wife and children to a value, inclusive of tools and apparel and other necessaries as aforesaid, not exceeding three hundred rupees in the whole.

(*2*) Subject as aforesaid, the property of the insolvent shall comprise the following particulars, namely:—

(*a*) all such property as may belong to or be vested in the insolvent at the commencement of the insolvency or may be acquired by or devolve on him before his discharge;

(*b*) the capacity to exercise and to take proceedings for exercising all such powers in or over or in respect of property as might have been exercised by the insolvent for his own benefit at the commencement of his insolvency or before his discharge;

(*c*) the capacity to bind the right, title and interest of the member of a joint Hindu Mitakshara family other than the insolvent for such debts as are proved in a regular civil suit instituted by the Receiver representing the whole body of creditors to be untainted with immorality or illegality, and not otherwise; and

(*d*) all goods being at the commencement of the insolvency in the possession, order or disposition of the insolvent, in his trade or business by the consent and permission of the true owner under such circumstances that he is the reputed owner thereof:

Provided that things in action other than debt due or growing due to the insolvent in the course of his trade or business shall not be deemed goods within the meaning of clause (*d*):

Provided also that the true owner of any goods which have become divisible among the creditors of the insolvent under the provisions of clause (*d*) may prove for the value of such goods."

STATEMENT OF OBJECTS AND REASONS.

The Civil Justice Committee Report (1924-25), Chapter XIV (Pages 225-45), in paragraph 26 itself admitted difficulty in laying down procedure to bind the right, title and interest of the members of a Hindu Joint Mitakshara family other than the insolvent because some decisions of High Courts appeared to make the whole property of the insolvent vest in the Receiver. At that time the Civil Justice Committee was not armed with varieties of discussions on so thorny a subject and wished to elicit opinion. But in course of a dozen years sufficient opinion has clustered round it in the shape of conflicting decisions among several High Courts and even the Privy Council in *Sat Narain V. Behari Lal*, 6 Lah. 1: A. I. R. 1925 P. C. 18 does not lay down any definite procedure. The result is that the wearied creditor is driven from Court to Court and is entrapped in a compromise with the insolvent on disadvantageous terms. The minor sons of the insolvent, who are always legally protected, often raise their heads to litigate at any stage during insolvency proceedings or after it, which involves a direct breach of the first duties of allegiance and respect from Hindu sons towards their insolvent fathers and is rarely instituted without collusion on the part of the latter. Consequently a claim by a son alleging the immorality or illegality of a debt incurred by his father as the ground for setting aside a transaction entered into by the latter must always be viewed with great suspicion, especially where the interests of a *bona fide* purchaser for value at an auction sale have to be considered. The members of the joint family other than the minors also put obstacles in the way. It is, therefore necessary to stop these vexatious claims based on inequitable pleas and interference by all members of the joint Hindu Mitakshara family and to safeguard both the creditors and the insolvent debtors that a definite procedure be laid down and the present uncertain condition must be ended.

The present Bill proposes to provide for a certain procedure to safeguard the interests of the creditors, purchasers and members of the joint Hindu Mitakshara family other than the insolvent. As the Receiver represents both the parties, confidence must be reposed in him and, to bind the right, title and interest of members of joint Hindu Mitakshara family other than the insolvent, he should be authorised to institute a regular civil suit against all those who may possibly lay adverse claim to such properties of the joint family so that there may be proper adjudication, and such of the assets as may be found liable for the just debts may be made available to the Receiver for the satisfaction of the proved debts of the insolvent.

WHEREAS it is expedient further to amend the law relating to insolvency in the Presidency-towns and the towns of Rangoon and Karachi for the purpose of providing procedure for Presidency-towns Insolvency Court to bring within its jurisdiction the right, title and interest of a member of a joint Hindu Mitakshara family other than the insolvent; It is hereby enacted as follows:—

Short title, commencement and application.

1. (*1*) This Act may be called the Presidency-towns Insolvency (Amendment) Act, 193 .

(*2*) It shall come into force immediately and shall apply to all pending proceedings.

Amendment of section 52, Act III of 1909.

2. In sub-section (*2*) of section 52 of the Presidency-towns Insolvency Act, 1909,— III of 1909.

(*i*) after clause (*b*) the following shall be inserted as clause (*c*), namely:—

"(*c*) the capacity to bind the right, title and interest of the member of a joint Hindu Mitakshara family other than the insolvent for such debts as are proved in a regular civil suit instituted by the Official Receiver representing the whole body of creditors to be untainted with immorality or illegality, and not otherwise; and"; and

Class I.

A. The product of one quarter of the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. *Saltees.*—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance of engine space.

For vessels of class II which are furnished with reliable way bills the gross maundage of cargo shown by the way bills, or in the case of steamers the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which shall be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the serang, manjhee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket shall be kept on board the vessel and in possession of the person in charge of the vessel and shall be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate

is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of the Crown, of the district board or other local bodies, or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the district board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length or 5 feet in breadth shall be permitted to enter the canal.

12. The rates of toll shall be as follows:—

(1) On all vessels, empty or laden, per hundred maunds—Eight annas.

(2) On all vessels, empty or laden, for 12½ maunds or less—One anna.

(3) On rafts of bamboos, grass, timber or other similar articles not exceeding 50 feet in length and 5 feet in breadth—Four annas each raft.

Tolls shall be levied at Dwipasa and Bauphal.

13. For boats frequently using the canal, such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at ten times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month, *i.e.*, provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers or officers of the Army in India, post mail runners, officers of the Department of Communications and Works (Irrigation) on duty, or officers or servants of the toll office for the canal referred to in these rules while on duty, shall be liable for toll in the canal.
